international affairs or what these movements portend for the future This volume addresses a number of central questions in the study of Islamist politics in the Middle East through detailed case studies of some of the region's most important Islamist movements Chapters by leading scholars in the field examine the Egyptian Muslim Brotherhood Hamas Hizbullah Morocco's Justice and Benevolence the Jordanian Muslim Brotherhood the Sunni Insurgency in Iraq and Islamist politics in Turkey and Iran The topics addressed within this volume include social networks and social welfare provision Islamist groups as opposition actors Islamist electoral participation the intersection of Islam and national liberation struggles the role of religion in Islamist politics and Islam and state politics in Iran among other topics All of the contributing authors are specialists with deep knowledge of the subject matter who are committed to empirically based research These scholars take Islamists seriously as modern sophisticated and strategic political players Together their work captures much of the diversity of Islamist politics in the region and will contribute to the scholarship on a topic that continues to be important for the Middle East and the world

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures

which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

America's Forgotten Middle East Initiative Andrew Patrick, 2015-06-25 Sent to the Middle East by Woodrow Wilson to ascertain the viability of self determination in the disintegrating Ottoman Empire the King Crane Commission of 1919 was America's first foray into the region The commission's controversial recommendations included the rejection of the idea of a Jewish state in Syria US intervention in the Middle East and the end of French colonial aspirations The Commission's recommendations proved inflammatory even though its counsel on the question of the Palestinian mandate was eventually disregarded by Lloyd George and Georges Clemenceau in favour of their own national interests In the ensuing years the Commission's dismissal of claims by Zionist representatives like David Ben Gurion on their right to Palestine proved particularly divisive with some historians labeling it prophetic and accurate and others arguing that Commission members were biased and ill informed Here in the first book length analysis of the King Crane report in nearly 50 years Andrew Patrick chronicles the history of early US involvement in the region and challenges extant interpretations of the turbulent relationship between the United States and the Middle East

World Politics, Human Rights, and International Law Francis A. Boyle, 2021-02-04 World Politics Human Rights and International Law examines the functional dynamics between these concepts based upon the author's professional experiences dealing with real world situations problems and crises from the Bush Obama and Trump administrations Iraq Iran Palestine Israel and Syria Bosnia and Herzegovina successfully litigating genocide at the World Court indicting Slobodan Milosevic at the International Criminal Tribunal for the Former Yugoslavia prosecuting American torture and enforced disappearances at the International Criminal Court opposing nuclear chemical and biological weapons citizen civil resistance against state crimes protecting Indigenous Peoples etc The reader can see how the author defined these predicaments from the perspective of international law and human rights and then proceeded to grapple with them and to rectify them This book demonstrates the power of international law and human rights to make a positive difference for international peace and justice as well as for the good of humanity in the real world of international power politics By reading this book the citizen will be empowered and inspired to do the same

The New Imperial Histories Reader Stephen Howe, 2020-07-24 In recent years imperial history has experienced a newfound vigour dynamism and diversity There has been an explosion of new work in the field which has been driven into even greater prominence by contemporary world events However this resurgence has brought with it disputes between those who are labelled as exponents of a new imperial history and those who can by default be termed old imperial historians This collection not only gathers together some of the most important influential and controversial work which has come to be labelled new imperial history but also presents key

examples of innovative recent writing across the broader fields of imperial and colonial studies This book is the perfect companion for any student interested in empires and global history *The Great Imperial Hangover* Samir Puri, 2020-07-09 An exceptional account Prospect Enlightening Spectator For the first time in millennia we live without formal empires But that doesn't mean we don't feel their presence rumbling through history The Great Imperial Hangover examines how the world's imperial legacies are still shaping the thorniest issues we face today From Russia's incursions in the Ukraine to Brexit from Trump's America first policy to China's forays into Africa from Modi's India to the hotbed of the Middle East Puri provides a bold new framework for understanding the world's complex rivalries and politics Organised by region and covering vital topics such as security foreign policy national politics and commerce The Great Imperial Hangover combines gripping history and astute analysis to explain why the history of empire affects us all in profound ways

Dangerous Intercourse Tessa Winkelman, 2023-01-15 In *Dangerous Intercourse* Tessa Winkelman examines interracial social and sexual contact between Americans and Filipinos in the early twentieth century via a wide range of relationships from the casual and economic to the formal and long term Winkelman argues that such intercourse was foundational not only to the colonization of the Philippines but also to the longer uneven history between the two nations Although some relationships between Filipinos and Americans served as demonstrations of US benevolence too close sexual relations also threatened social hierarchies and the so called civilizing mission For the Filipino Indigenous Moro Chinese and other local populations intercourse offered opportunities to negotiate and challenge empire though these opportunities often came at a high cost for those most vulnerable Drawing on a multilingual array of primary sources *Dangerous Intercourse* highlights that sexual relationships enabled US authorities to police white and nonwhite bodies alike define racial and national boundaries and solidify colonial rule throughout the archipelago The dangerous ideas about sexuality and Filipina women created and shaped by US imperialists of the early twentieth century remain at the core of contemporary American notions of the island nation and indeed of Asian and Asian American women more generally

Paradoxes of Power David Skidmore, 2015-12-03 This book provides a lively and readable introduction to current debates over US power and purpose in world affairs The end of the Cold War launched a new era in US foreign policy The United States entered a period of unprecedented global power but one also characterized by new conflicts challenges and controversies The terrorist attacks of 9/11 and the subsequent US military operations in Afghanistan and Iraq cast a spotlight on continuing debates over how the United States should best use its considerable international power to secure safety for Americans and stability in the world These debates involve two crucial questions Should US foreign policy focus on securing vital interests that are narrowly defined or should the United States seek to spread US institutions and values to other societies Should the United States exercise maximum independence in the exercise of US power abroad or work principally through multilateral institutions This book brings together many different voices to answer these questions and to add to our understanding of the issues Contributors include
