## **Resurrecting The Body Feminism Religion And Psychoanalysis:**

**Resurrecting the Body** Naomi R. Goldenberg,1993 Asserting that the reverse of the biblical text And the Word was made flesh is true that it is in and through the flesh that every philosophy every discourse is born Goldenberg explores her own divided identity as feminist atheist and Jew Through a series of insightful passionate and sometimes humorous essays Goldenberg examines the way feminism and psychoanalysis interact with contradict and deepen one another Hypatia

**Sigmund Freud and Oskar Pfister on Religion** Carlos Domínguez-Morano,2023-07-24 Sigmund Freud and Oskar Pfister on Religion examines the dialogue between psychoanalysis and religion through the encounters of two men the unfaithful Jew who founded psychoanalysis and a pastor of profound religious faith and proven psychoanalytic conviction Carlos Domínguez Morano analyses the original encounters between Freud and Pfister and their respective positions noting the incidences impasses and progress of their discussions The complex interactions between psychoanalysis and religion over time are considered and Domínguez Morano assesses the fundamental parameters of each perspective with reference to Catholicism The book explores the relationship between psychoanalysis and religion as a rich ongoing and unending dialogue and sheds new light on the origins of psychoanalysis Sigmund Freud and Oskar Pfister on Religion will be of great interest to academics and scholars of psychoanalytic studies religion the history of psychology and the history of ideas   **The**

**Spirituality of Anorexia** Emma White,2018-06-18 Widely popularized images of unobtainable and damaging feminine ideals can be a cause of profound disjunction between women and their bodies A consequence of this dissonance is an embodied performance of these ideals with the potential development of disordered eating practices such as anorexia nervosa This book develops a spirituality of anorexia by suggesting that these eating disorders are physical symptoms of the general repression of feminine nature in our culture Furthermore it puts forward Goddess feminism as a framework for a healing therapeutic model to address anorexia and more broadly the slender ideal touted by society The book focuses on the female body in contemporary society specifically the development of anorexia nervosa and what this expression communicates about female embodiment Drawing upon the work of a variety of theorists social commentators liberation theologians and theologians it discusses the benefits of adopting female focused myths symbols and rituals drawing upon the work of Marion Woodman and Naomi Goldenberg Ultimately it theorises a theological approach to anorexia aimed at displacing the damaging discourses that undermine women in the twenty first century Offering an alternative model of spirituality and embodiment for contemporary women this book will be of keen interest to scholars of theology religious studies gender studies and psychology   **Psychoanalysis and Woman** Shelley Saguaro,2000-03 This book makes available psychoanalytic writing on the topics of female sexuality and woman From Freud's contemporaries to French feminists to postmodernism and post feminism a spectrum of female theorists affords comparison and cross reference   **The End of Religion** Kathleen McPhillips,Naomi Goldenberg,2020-10-22 Feminist theory has enhanced and expanded the agency influence status and

contributions of women throughout the globe However feminist critical analysis has not yet examined how the assumption that religion is natural timeless universal and omnipresent supports sexist and race based oppression This book proposes radical new thinking about religion in order to better comprehend and confront the systematic disempowerment of women and marginalized groups Utilising feminist and post colonial analysis of access equity and violence contributors draw on recent critical theory to collapse accepted boundaries between religion and secularity with the aim of understanding that religion is a technology of governance in its function meaning and history The volume includes case studies focusing on how the category of religion is deployed to perpetuate male hegemony and racist inequities in Australia Mexico the United States Britain and Canada This trenchant feminist critique and academic analysis will be of key interest to scholars and students of Religion Sociology Political Science and Gender Studies    [Religion, Theory, Critique](#) Richard King,2017-07-18

Religion Theory Critique is an essential tool for learning about theory and method in the study of religion Leading experts engage with contemporary and classical theories as well as non Western cultural contexts Unlike other collections this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion secular and culture are imagined within different disciplinary horizons This volume is the first textbook which seeks to engage discussion of classical approaches with contemporary cultural and critical theories Contributors write on the influence of the natural sciences in the study of religion the role of European Christianity in modeling theories of religion religious experience and the interface with cognitive science the structure and function of religious language the social scientific study of religion ritual in religion the phenomenology of religion critical theory and religion embodiment and religion the impact of colonialism and modernity theorizing religion in terms of race and ethnicity links among religion nationalism and globalization the interplay of gender sex and religion and religion and the environment Each chapter introduces the topic identifies key theorists and issues and respects the pluralistic nature of the scholarship in the field Altogether this collection scrutinizes the explicit and implicit assumptions theorists make about religion as an object of analysis    [Gender, Genre and Religion](#) Morny Joy,Eva K.

Neumaier-Dargyay,2006-01-01 Many feminists today are challenging the outmoded aspects of both the conventions and the study of religion in radical ways Canadian feminists are no exception Gender Genre and Religion is the outcome of a research network of leading women scholars organized to survey the contribution of Canadian women working in the field of religious studies and further to plot the path forward This collection of their essays covers most of the major religious traditions and offers exciting suggestions as to how religious traditions will change as women take on more central roles Feminist theories have been used by all contributors as a springboard to show that the assumptions of unified monolithic religions and their respective canons is a fabrication created by a scholarship based on male privilege Using gender and genre as analytical tools the essays reflect a diversity of approaches and open up new ways of reading sacred texts Superb essays by Pamela

Dickey Young Winnie Tomm Morny Joy and Marsha Hewitt among others honour the first generation of feminist theologians and situate the current generation showing how they have learned from and gone beyond their predecessors The sensitive and original essays in Gender Genre and Religion will be of interest to feminist scholars and to anyone teaching women and religion courses    [Women, Body, Illness](#) Pamela Moss,Isabel Dyck,2003-04-14 This provocative and moving work explores concepts of body and space to better understand the daily lives and struggles of women with chronic illness Moss and Dyck show how such women coping with associated notions of illness health and being female restructure their physical and social environments through the strategies they choose to accommodate disabling illnesses such as chronic fatigue syndrome multiple sclerosis or rheumatoid arthritis Strategies might include disclosing or concealing illness from employers and friends seeking or rejecting emotional support through old friends and new contacts and pursuing or resisting specific diagnoses from the biomedical community Featuring a wealth of original research and personal stories Women Body Illness tells the tales of chronically ill women forging networks of support redefining themselves and challenging what it is to be ill

*Psychology and Religion* Andrew Reid Fuller,2008 This book surveys the major theoretical positions in the psychology of religion William James Sigmund Freud Carl Jung Gordon Allport Abraham Maslow Erich Fromm Alan Watts and Viktor Frankl are each accorded an entire chapter A chapter is devoted to such further deve    **Psychology and Religion** Andrew R. Fuller,2007-11-27 This book articulates a broad range of theoretical viewpoints both classical and contemporary in the field of the psychology of religion Chapters One through Eight are overviews of such classical theorists as William James Sigmund Freud Carl Jung Gordon Allport Abraham Maslow Alan Watts Erich Fromm and Viktor Frankl Chapters Nine through Twelve consider subsequent developments in the field e g the views of object relations theorists on the God image empirical research on the scaling of religiousness and modern consciousness research Chapters Ten through Twelve are new to this edition and comprise an eclectic overview of the feminist psychology of religion recent developments in the intersection of neuroscience and religion and the evolutionary psychology of religion Both wide ranging and current therefore this book offers illuminating and in depth coverage of major theorists and approaches While its breadth makes it an excellent place to begin an exploration of the psychology of religion its depth and detail provide the opportunity for a serious and rewarding immersion in the field    **Religion, Gender, and the Public Sphere** Niamh Reilly,Stacey Scriven,2013-11-26 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women s equality and the rights of sexual minorities on one side and the claims of religions on the other side are well documented across all major religions and regions It is also well recognized in feminist scholarship that gender identities and ethno religious identities work together in complex ways that are often exploited by dominant groups Hence a more comprehensive understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses Most recent discussion on these matters however especially in Europe

has focused primarily on the perceived subordinate status of Muslim women These debates are a reminder of the deep interrelation of questions of gender identity human rights and religious freedom more generally The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis vis religion gender and the public sphere beyond the binary of Islam versus the West Religion Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life It offers a timely multidisciplinary collection of gender focused essays that address an array of challenges arising from the changing role and influence of religious organisations identities actors and values in the public sphere in contemporary multicultural and democratic societies

**Feminist Theologies** Kerrie Handasyde,Katharine Massam, Stephen Burns,2024-09-30

Feminist Theologies A Companion explores the contemporary contours of the field With contributors from a diverse range of settings the volume captures the current diversity and richness of feminist theologies both in and beyond the academy Focusing both on theory and praxis chapters move from considering the outlines of the feminist agenda to exploring the relationship between academic feminist theology and ecclesial or personal spiritual and finally articulating how feminist theological outlooks manifest themselves in a variety of settings With contributions from Gina Zurlo Nancy Bedford Agnes Brazil Cathryn McKinney Rebekah Pryor Gale Yee Heather Eaton Al Barrett Simon Sutcliffe Hannah Bacon Lisa Isherwood Karen O Donnell Jane Chevous Alana Harris Antonia Sobocki Tina Beattie Janice McRandal Stephen Burns Cristina Lledo Gomez Michael W Brierley Claire Renkin HyeRan Kim Cragg Kerrie Handasyde Gail Ramshaw and Anne Elvey

**Soul and Psyche** Wayne G. Rollins,1999

The first introduction to the history and method of biblical psychological interpretation

**The Location of Religion** Kim Knott,2015-08-12 The ways in which humans interact with their location is an important topic within sociological studies of religion It is integral to the place of religion in secular society The Location of Religion A Spatial Analysis offers an overview of the ways in which religion can be located within social cultural and physical space It examines contemporary spatial theory notably the work of the influential sociologist Henri Lefebvre and the many disciplines that have contributed to the spatial study of religion This volume will be invaluable to all those interested in the role of religion in spatial analysis

**Sensing Sacred** Jennifer Baldwin,2016-08-30 Sensing Sacred is an edited volume that explores the critical intersection of religion and body through the religious lens of practical theology with an emphasis on sensation as the embodied means in which human beings know themselves others and the divine in the world The manuscript argues that all human interaction and practice including religious praxis engages body through at least one of the human senses touch smell hearing taste sight kinesthetics proprioception Unfortunately body and more specifically and ironically sensation is eclipsed in contemporary academic scholarship that is inherently bent toward the realm of theory and ideas This is unfortunate because it neglects bodies physical or communal as the repository and generator of culturally conditioned ideas and theory It is ironic because all knowledge transmission minimally requires several senses including sight touch and

hearing Sensing Sacred is organized into two parts The first section devotes a chapter to each human sense as an avenue of accessing religious experience while the second section explores religious practices as they specifically focus on one or more senses The overarching aim of the volume is to explicitly highlight each sense and utilize the theoretical lenses of practical theology to bring to vivid life the connections between essential sensation and religious thinking and practice

**as a Category of Governance and Sovereignty**, 2015-05-26 Religious secular distinctions have been crucial to the way in which modern governments have rationalised their governance and marked out their sovereignty as crucial as the territorial boundaries that they have drawn around nations The authors of this volume provide a multi dimensional picture of how the category of religion has served the ends of modern government They draw on perspectives from history anthropology moral philosophy theology and religious studies as well as empirical analysis of India Japan Mexico the United States Israel Palestine France and the United Kingdom Contributors are Maria Birnbaum Brian Brock Geraldine Finn Timothy Fitzgerald Naomi Goldenberg Jeffrey Israel David Liu Arvind Pal Mandair Per Erik Nilsson Suzanne Owen Trevor Stack Teemu Taira and Tisa Wenger

**Introducing Theology** Melissa Raphael, 1998-12-31 There are a number of participant accounts of the revival of Goddess religion among feminists in Europe America and Australasia But students and others interested in issues in the relation of religion theology and gender need an accessible and concise critical overview of this contemporary religious phenomenon and its discourses Introducing Theology which offers a contextual analysis of the theology ontology historiography and ethics of various types of Goddess feminism is designed to meet that need

### **Veiled Desires**

Maureen Sabine, 2013-08-22 Ingrid Bergman's engaging screen performance as Sister Mary Benedict in *The Bells of St Mary* made the film nun a star and her character a shining standard of comparison She represented the religious life as the happy and rewarding choice of a modern woman who had a complete understanding of both erotic and spiritual desire How did this vibrant and mature nun figure come to be viewed as girlish and naive Why have she and her cinematic sisters in postwar popular film so often been stereotyped or selectively analyzed so seldom been seen as women and religious In Veiled Desires a unique full length in depth look at nuns in film Maureen Sabine explores these questions in a groundbreaking interdisciplinary study covering more than sixty years of cinema She looks at an impressive breadth of films in which the nun features as an ardent lead character including *The Bells of St Mary* 1945 *Black Narcissus* 1947 *Heaven Knows Mr Allison* 1957 *Sea Wife* 1957 *The Nun's Story* 1959 *The Sound of Music* 1965 *Change of Habit* 1969 *In This House of Brede* 1975 *Agnes of God* 1985 *Dead Man Walking* 1995 and *Doubt* 2008 Veiled Desires considers how the beautiful and charismatic stars who play chaste nuns from Ingrid Bergman and Audrey Hepburn to Susan Sarandon and Meryl Streep call attention to desires that the veil concealed and the habit was thought to stifle In a theologically and psychoanalytically informed argument Sabine responds to the critics who have pigeonholed the film nun as the obedient daughter and religious handmaiden of a patriarchal church and the respectful audience who revered her as an icon of spiritual perfection Sabine

provides a framework for a more complex and holistic picture of nuns onscreen by showing how the films dramatize these women's Christian call to serve sacrifice and dedicate themselves to God and their erotic desire for intimacy agency achievement and fulfillment     *Feminist Christian Encounters* Angela Pears, 2019-07-16 Originally published in 2004 Feminist discourses have focused sustained and sometimes devastating critical attention on Christianity over the last fifty years Today feminisms remain significant but often ambiguous forces in contemporary Christian theology At a time in which questions about the success and viability of feminisms are increasingly posed Feminist Christian Encounters makes a unique contribution to the ongoing investigation into the creative relationship between feminisms and Christianity Angela Pears identifies some of the key theological and methodological mechanisms by which Christian feminist theologies are informed sustained and made possible by feminist values and critiques Pears argues that certain strategies characterize the facilitation of this dialogue in contemporary Christian feminist theologies enabling theologians to accept the values and critiques of feminisms whilst at the same time proclaim some level of commitment to Christianity Engaging in a process of deconstruction of the methodologies of key Christian theological thinkers who have made use of feminisms in their theologies this book reveals the mechanisms of feminist Christian encounter at work     *Phenomenological Inquiry in Psychology* Ron Valle, 2013-11-11 This fine new book the third in a series brings psychologists up to date on the advances of phenomenological research methods in illuminating the nature of human awareness and experiences In the more congenial and welcoming intellectual climate of the 1990s phenomenological methods have moved to the forefront of discourse on research methods that support and advocate an expanding view of science In Valle and King 1978 phenomenological methods were presented as alternatives to behavioral methods In Valle and Halling 1989 phenomenological methods were advanced to perspectives in psychology This new volume is even less cautious indeed bolder in relation to conventional methods and epistemologies By now people knowledgeable about psychology and most psychologists have digested the criticisms directed against methods that operationalize quantify and often minimize human behavior In bringing us up to date on the growing power of phenomenological methods this volume brings welcome coherence and integrity to an increasingly harried science attempting to reenchant itself with meaning and depth an endeavor artfully exemplified by phenomenological inquiries of the last several decades
