Resurrection Of Anne Hutchinson:

The Resurrection of Anne Hutchinson Robert H. Rimmer, 2010-10-04 What would a man do if he were suddenly visited by someone who had lived three hundred and fifty years ago Someone he had adopted as his spiritual ancestor Someone whom he had fantasized about dreamed about written about Someone who although she could not be X rayed or photographed was real enough to make love to and who returned his affection with a vibrancy and lustfulness that made him sure that she was real and not just a spirit When Anne Hutchinson the first American religious dissenter and feminist showed up on Bob Rimmer s doorstep he was at first skeptical but soon succumbed to Anne s earthy charms The Resurrection of Anne Hutchinson is the story of two weeks in 1985 when a woman who was banished from Massachusetts in 1638 came back to preach her ideas of freedom in love liberty and the pursuit of happiness The irrepressible Robert Rimmer author of The Harrad Experiment brings Anne Hutchinson back to life in modern day Massachusetts where she takes on the people and the government of a repressed United States in a way similar to her original attack on Boston in the seventeenth century Her companion on a cross country tour is Bob Rimmer who embarks with her on a crusade to reach the American public with Anne s message of repent and rebel Rimmer s use of the available literature on Anne from the diaries of the governor who banished her John Winthrop and from Anne s trials is brilliantly used to evoke seventeenth century America in a way no history book ever could

Divinings: Religion at Harvard Rodney L. Petersen, 2014-09-17 Harvard has often been referred to as godless Harvard This is far from the truth Fact is that Harvard is and always has been concerned about religion This volume addresses the reasons for this The story of religion at Harvard in many ways is the story of religion in the United States This edition will clarify this relationship Furthermore the question of religion is central not only to the religious history of Harvard but to its very corporate structure and institutional evolution The volume is divided into three parts and deals with the Formation of Harvard College in 1636 and Evolution of a Republic of Letters in Cambridge First Light Chapters 1 5 Religion in the University the Foundations of a Learned Ministry and the Development of the Divinity School The Augustan Age Chapters 6 9 and the Contours of Religion and Commitment in an Age of Upheaval and Globalization Calm Rising Through Change and Through Storm Chapters 10 12 The story of the central role played by religion in the development of Harvard is a neglected factor in Harvard s history only touched upon in a most cursory fashion by previous publications For the first time George H. Williams tells that story as embedded in American culture and subject to intense and continuing academic study throughout the history of the University to this day Replete with extensive footnotes this edition will be a treasure to future historians persons interested in religious history and in the development of theology at first clearly Reformed and Protestant later ecumenical and interfaith

To Walk the Earth Again Christopher Trigg, Christopher Peter Trigg, 2023 The Quick and the Dead explores the political dimension of Anglo American Protestant writing about the future resurrection of the dead between the seventeenth and mid nineteenth centuries Reading histories epic poetry funeral sermons and scientific tracts alongside works of eschatological exegesis the book challenges the conventional scholarly assumption that Protestantism s rejection of purgatory prepared the way for the individualization and secularization of Western attitudes towards mortality A deeper engagement with the complex history of resurrection theology reveals the importance of collective solidarity with the dead for Protestant social and political thought Puritans Anglicans Quakers and radicals looked to resurrection to understand their communities prospects in the uncertain terrain of colonial America They also expressed their conviction that political identities and religious duties did not expire with the mortal body but were carried over into the next life This belief shaped their positions on a wide variety of issues including the limits of ecclesiastical and civil power the relationship of humanity to the natural world and the emerging rhetoric of racial difference In the early national and antebellum periods secular and Christian reformers drew on the idea of resurrection to imagine how American republicanism might transform society and politics and ameliorate the human form itself Early modern Protestants really believed that they would live again in the flesh By taking this belief seriously this book opens up new perspectives on their mutually constitutive visions of earthly and resurrected existence

The Religious History of American Women Catherine A. Brekus, 2009-11-13 More than a generation after the rise of women's history alongside the feminist movement it is still difficult, observes Catherine Brekus, to locate women in histories of American religion. Mary Dyer, a Quaker who was hanged for heresy; Lizzie Robinson, a former slave and laundress who sold Bibles door to door; Sally Priesand, a Reform rabbi; Estela Ruiz, who saw a vision of the Virgin Mary: how do these women's stories change our understanding of American religious history and American women's history? In this provocative collection of twelve essays, contributors explore how considering the religious history of American women can transform our dominant historical narratives. Covering a variety of topics including Mormonism, the women's rights movement, Judaism, witchcraft trials, the civil rights movement, Catholicism, everyday religious life, Puritanism, African American women's activism, and the Enlightenment, the volume enhances our understanding of both religious history and women's history. Taken together, these essays sound the call for a new, more inclusive history.

First Generations Carol Berkin, 1997-07-01 A marvelously readable yet scholarly history of American women of European, Indigenous, and African backgrounds in the seventeenth and eighteenth centuries. Kirkus Reviews: "The European, Native American, and African women of seventeenth and eighteenth century America were wives, mothers, household managers, laborers, and rebels, and just as important as men in shaping the culture and history of their country. In *First Generations*, Carol Berkin delves into the great variety of female lives: as defenders of their native land, pioneers on the frontier, willing immigrants, and courageous survivors of slavery. Through meticulously reconstructed profiles of individual lives, Berkin shows that colonial women, while separated by class, region, and race, were linked by laws, presumptions, and prejudices that defined them by gender. Berkin's gripping portrait gives early American women their proper place in our history."

[Figuring Modesty in Feminist Discourse Across the Americas, 1633-1700](#) Tamara Harvey, 2016-12-05 Inventive in its approach and provocative in its analysis, this study offers fresh readings of the arguments and practices of four seventeenth-century Euro-American women: Anne Bradstreet, Anne Hutchinson, Sor Juana Inés de la Cruz, and Marie de l'Incarnation. Tamara Harvey here compares functionalist treatments of the body by these women, offering a new way to think of corporeality as a device in literary and religious expressions of modesty by women. In doing so, Harvey explores the engagement of these women in ongoing religious, political, scientific, and social debates that would have been understood by the authors' contemporaries in both Europe and America.

Founding Mothers & Fathers Mary Beth Norton, 2011-08-03 Much like *A Midwife's Tale* and *The Unredeemed Captive*, this novel is

about power relationships in early American society religion and politics with insights into the initial development and operation of government the maintenance of social order and the experiences of individual men and women

Debating - and Creating - Authority Elizabeth Dale, 2018-01-12 This title was first published in 2001 In the tight frame of its first twenty years Massachusetts Bay dramatically altered its constitutional order from a theocracy to an oligarchy led by magistrates who created their own authority and defined the limits on their almost unlimited power Debating and Creating Authority examines this shift in constitutional order at various levels and looks in particular at the efforts to create the theocracy and its subsequent collapse in terms of a fundamental democratical flaw at the centre of the theocratic ideal

The Rule of Moderation Ethan H. Shagan, 2011-09-29 Why was it that whenever the Tudor Stuart regime most loudly trumpeted its moderation that regime was at its most vicious This groundbreaking book argues that the ideal of moderation so central to English history and identity functioned as a tool of social religious and political power Thus The Rule of Moderation rewrites the history of early modern England showing that many of its key developments the via media of Anglicanism political liberty the development of empire and even religious toleration were defined and defended as instances of coercive moderation producing the middle way through the forcible restraint of apparently dangerous excesses in Church state and society By showing that the quintessentially English quality of moderation was at heart an ideology of control Ethan Shagan illuminates the subtle violence of English history and explains how paradoxically England came to represent reason civility and moderation to a world it slowly conquered

Engagement and Disengagement Howard G. Schneiderman, 2017-10-16 Part dialogue part debate between Howard Schneiderman and a small number of social theorists Engagement and Disengagement represents the culmination of a life s work in social theory On the one hand it is about cohesive social cultural and intellectual forces such as authority community status and the sacred that tie us together and on

the other hand about forces such as alienation politics and economic warfare that pull us apart With a blend of humanism and social science Engagement and Disengagement highlight this two culture solution to understanding social and cultural history
