**Retail and Commercial Planning (RLE Retailing and Distribution)** Ross Davies, 2012-08-09 Changes in the philosophy of planning and the political influences behind it have led to an increasingly ambivalent approach to retail and commercial matters and a lack of clear goals and objectives as to what both central government and the local authorities should be concerned with It begins by examining the growth of office blocks and shopping centres and goes on to analyse and criticise the existing planning processes suggesting alternative procedures It looks at the dual needs of development on the one hand and renovation and redevelopment on the other and discusses how these should be dealt with in the future More specific problems are also examined the impact created by new shopping schemes the decline of small shops and related activities the conflict over transport demands and provisions and the special physical needs of particular urban and rural environments Throughout the argument is supported by detailed examples of particular developments Originally published 1984 *Retail and Commercial Planning* R. L. Davies, 1984-01-01 [Retail and Commercial Planning](#) Ross Llewelyn Davies, 2013 **Planning for Retail Development** Clifford Guy, 2006-10-11 Written by a leading expert in the field this is the first thorough critical review of retail planning policy in Britain including Scotland and Wales It covers recent changes in government policy and guidance and examines retail policy within a broader economic and social context Planning for Retail Development explains key events and debates in the evolution of retail planning policy at central and local government levels since the 1960s and draws contrasts between the 1980s a period in which retail developers were encouraged by central government to expand away from town centres and the more recent emphasis on protection and promotion of town centres as the most appropriate location for new development The book develops a critical evaluation of past and present retail planning policies based upon analyses of retailers objectives and of typical consumer shopping behaviour Relationships between retail planning and wider societal concerns including sustainable development social inclusion and urban regeneration are also examined and analysed and guidelines for future policy objectives and content are drawn *Retail and Commercial Planning* R.
