Rethinking Islamist Politics Culture The State And Islamism:

Rethinking Islamist Politics Salwa Ismail, 2003-03-28 In an atmosphere of growing concern over the threat posed by Islamist violence political Islamism has become the most important of geopolitical issues In the process it has been misrepresented Contrary to what many believe Islamist movements are characterised by their diversity Revisiting the main arguments and explanations that have been used over the past twenty years to understand Islamist activism moderate as well as militant Salwa Ismail here proposes a rethinking of Islamist politics The phenomenon of political Islam is determined by macro and micro level changes in the Muslim world such as the retreat of the welfare state across the Middle East and the subsequent expansion in the role of informal political activists in the popular neighbourhoods of such cities as Algiers or Cairo Ismail examines both levels to explain the socio economic and political settings out of which Islamism has developed Her focus is both the economic and political environments that fomented Islamism and the structures of Islamist movements themselves from their ideologies to their modes of action Looking at Islamism as a form of contestation politics Ismail offers a reassessment of its failures and successes limited as it is by its use of violence but capable of real mobilisation at a popular level *Rethinking Islamist Politics* will be vital reading for anyone seeking to understand such spectacular expressions of Islamism as the September 11th attacks but also the everyday struggles of ordinary people which Islamism embodies

Islamist Politics in the Middle East Samer Shehata, 2012-08-06 For over three decades Islamist politics or political Islam has been one of the most dynamic and contentious political forces in the Middle East Although there is broad consensus on the importance of political Islam there is far less agreement on its character the reasons for Islamist s success the role of Islamist movements in domestic and international affairs or what these movements portend for the future This volume addresses a number of central questions in the study of Islamist politics in the Middle East through detailed case studies of some of the region s most important Islamist movements Chapters by leading scholars in the field examine the Egyptian Muslim Brotherhood Hamas Hizbullah Morocco s Justice and Benevolence the Jordanian Muslim Brotherhood the Sunni Insurgency in Iraq and Islamist politics in Turkey and Iran The topics addressed within this volume include social networks and social welfare provision Islamist groups as opposition actors Islamist electoral participation the intersection of Islam and national liberation struggles the role of religion in Islamist politics and Islam and state politics in Iran among other topics All of the contributing authors are specialists with deep knowledge of the subject matter who are committed to empirically based research These scholars take Islamists seriously as modern sophisticated and strategic political players Together their work captures much of the diversity of Islamist politics in the region and will contribute to the scholarship on a topic that continues to be important for the Middle East and the world **Islam** Catharina Raudvere, 2014-11-19 Many existing introductions to Islam focus predominantly on the Middle East and on historical background at the expense of Islam as a lived faith Assessing Islam as a truly global phenomenon Catharina Raudvere engages thoroughly with history explaining the

significance of the revelation of the Prophet Muhammad and the origins of the different Sunni and Shi'a groups within Islam while also giving full and comprehensive coverage to Muslim ritual life and Islamic ethics. She discusses moral debates and modern lifestyle issues such as halal consumption, interfaith dialogue and controversy over the wearing of the veil. Diaspora communities are considered with a view to showing how norms and doctrines are understood and sometimes contradicted in social and ritual practice. In addition, the author focuses on the meaning and continuing application to modern life of the Quran and hadith as sources for Islamic theology, kalam and jurisprudence (fiqh). The book gives much attention to questions of universal values: Islam and democracy, gender issues, women's rights and pluralism, contrasting the thinking of Jihadists and radical Islamism with liberal reformist voices within Islam. *Islam: An Introduction* offers undergraduate students of religion and general readers a balanced, sensitive and well-informed overview of the world's most intensively discussed religious and cultural tradition.

Internet and Emotions Tova Benski, Eran Fisher, 2013-11-07. Nothing seems more far removed from the visceral, bodily experience of emotions than the cold, rational technology of the Internet. But as this collection shows, the internet and emotions intersect in interesting and surprising ways. *Internet and Emotions* is the fruit of an interdisciplinary collaboration of scholars from the sociology of emotions and communication and media studies. It features theoretical and empirical chapters from international researchers who investigate a wide range of issues concerning the sociology of emotions in the context of new media. The book fills a substantial gap in the social research of digital technology and examines whether the internet invokes emotional states differently from other media and unmediated situations: how emotions are mobilized and internalized into online practices and how the social definitions of emotions are changing with the emergence of the internet. It explores a wide range of behaviors and emotions from love to mourning, anger, resentment and sadness. What happens to our emotional life in a mediated, disembodied environment without the bodily element of physical co-presence to set off emotional exchanges? Are there qualitatively new kinds of emotional exchanges taking place on the internet? These are only some of the questions explored in the chapters of this book with quite surprising answers.

Islam and Political Reform in Saudi Arabia Mansoor Jassem Alshamsi, 2012-06-12. This book examines the link between Islamic thought, jurisprudence on the one hand and political action on the other. It shows how reformism is deeply rooted in Islamic tradition and how Sunni scholars have become activists for change in Saudi Arabia.

Practicing Islam in Egypt Aaron Rock-Singer, 2019-01-03. Following the ideological disappointment of the 1967 Arab-Israeli War, an Islamic revival arose in Egypt. Yet far from a mechanical reaction to the decline of secular nationalism, this religious shift was the product of impassioned competition among Muslim Brothers, Salafis and state institutions and their varied efforts to mobilize Egyptians to their respective projects. By pulling together the linked stories of these diverse claimants to religious authority and tracing the social and intellectual history of everyday practices of piety, Aaron Rock-Singer shows how Islamic activists and institutions across the political spectrum reshaped daily practices in an effort to persuade followers to adopt novel models of

religiosity In so doing he reveals how Egypt's Islamic revival emerged who it involved and why it continues to shape Egypt today

Islamism and Globalisation in Jordan Daniel Atzori, 2015-05-22 This book explores the activities of the local Muslim Brotherhood in Jordan It examines how the Brotherhood working to establish an alternative social political and moral order through a network of Islamic institutions made a huge contribution to the transformation of Jordanian society It reveals however that the Brotherhood's involvement in the economic realm in Islamic financial activities led it to engage with the neo liberal approach to the economy with the result that the Islamic social institutions created by the Brotherhood such as charities lost their importance in favour of profit oriented activities owned by leading Islamist individuals The book thereby demonstrates the hybridisation of Islamism and argues that Islamism is not an abstract set of beliefs but rather a collection of historically constructed practices The book also illustrates how globalisation is profoundly influencing culture and society in the Arab world though modified by the adoption of an Islamic framework **The Penguin Dictionary of Islam** Azim
