Rethinking Media Change The Aesthetics Of Transition:

Rethinking Media Change David Thorburn, Henry Jenkins, 2004-09-17 The essays in Rethinking Media Change center on a variety of media forms at moments of disruption and cultural transformation The editors introduction sketches an aesthetics of media transition patterns of development and social dispersion that operate across eras media forms and cultures The book includes case studies of such earlier media as the book the phonograph early cinema and television It also examines contemporary digital forms exploring their promise and strangeness A final section probes aspects of visual culture in such environments as the evolving museum movie spectacles and the virtual window The contributors reject apocalyptic scenarios of media revolution demonstrating instead that media transition is always a mix of tradition and innovation an accretive process in which emerging and established systems interact shift and collude with one another

Convergence Culture Henry Jenkins, 2008-09 What the future fortunes of Gramsci's writings will be we cannot know However his permanence is already sufficiently sure and justifies the historical study of his international reception The present collection of studies is an indispensable foundation for this Eric Hobsbawm from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics Antonio A Santucci is perhaps the world's preeminent Gramsci scholar Monthly Review Press is proud to publish for the first time in English Santucci's masterful intellectual biography of the great Sardinian scholar and revolutionary Gramscian terms such as civil society and hegemony are much used in everyday political discourse Santucci warns us however that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci's purposes in developing them Rather what we must do and what Santucci illustrates time and again in his dissection of Gramsci's writings is absorb Gramsci's methods These can be summed up as the suspicion of grand explanatory schemes the unity of theory and practice and a focus on the details of everyday life With respect to the last of these Joseph Buttigieg says in his Nota Gramsci did not set out to explain historical reality armed with some full-fledged concept such as hegemony rather he examined the minutiae of concrete social economic cultural and political relations as they are lived in by individuals in their specific historical circumstances and gradually he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society The rigor of Santucci's examination of Gramsci's life and work matches that of the seminal thought of the master himself Readers will be enlightened and inspired by every page

Television Brandcasting Jennifer Gillan, 2014-11-20 Television Brandcasting examines U.S. television's utility as a medium for branded storytelling It investigates the current and historical role that television content promotion and hybrids of the two have played in disseminating brand messaging and influencing consumer decision making Juxtaposing the current period of transition with that of the 1950s 1960s Jennifer Gillan outlines how in each era new technologies unsettled entrenched business models an emergent viewing platform threatened to undermine an established one and content
