rise of the U S as the only remaining superpower the emergence of the European Union and China the gradual coming to the fore of regional powers such as the BRICS countries and the recent meltdown of the world financial system has rendered disastrous consequences for people everywhere This book responds to these changes and challenges in presenting a rethinking of the power of development and consequently the place and role of communication in it It is aimed at both emerging research students policymakers and social research practitioners who are interested in the history of communication for development and social change and the role and place of major players in it This is most applicable to the political and educational sector as well as scholars of history social work and human rights The book will provide valuable insights for beginners in these fields who are not yet familiar with the increasingly important and emerging field of global social change
