Treatment of Women Under Social Security:

Assessments of Administration's recent proposals for altering social security United States. Congress. House. Task Force on Social Security and Women,1981 **Subject Guide to Books in Print** ,1997 *Leveraging Multigenerational Workforce Strategies in Higher Education* Edna Chun,Alvin Evans,2021-04-14 The higher education literature on workplace

diversity has overlooked the development of multigenerational workforce strategies as a key component of an inclusive talent proposition. While race, gender, sexual orientation, disability, and other demographic attributes have gained considerable attention in diversity strategic planning, scant research pertains to building inclusive multigenerational approaches within the culture and practices of higher education. Now more than ever, there is an urgent and unmet need to identify actionable strategies and approaches that optimize the contributions of multigenerational talent across the faculty, administrator, and staff ranks. With the goal of enhancing workforce capacity and creating more inclusive workplaces, *Leveraging Multigenerational Workforce Strategies in Higher Education* offers an in-depth look at multigenerational strategies that enhance institutional capacity and respond to educational needs. This book is the first to address the creation of multigenerational strategies in the higher education workplace based upon substantial empirical studies and qualitative research. Drawing on in-depth interviews with faculty and administrators, the book examines the broad framing of generations that consists of stereotypes, narratives, images, and emotions. Through the lens of these narratives, it describes how ageist framing is magnified by other minoritized statuses, including race, ethnicity, gender, and sexual orientation, and can result in structural inequality, process-based discrimination, and asymmetrical behavioral interactions in the higher education workplace. A major feature of the book is its focus on best-in-class HR and diversity policies and strategies that institutional leaders can deploy to overcome generational and ageist barriers and build an inclusive culture that values the contributions of all members. Due to its practical and concrete emphasis in sharing leading-edge policies and practices that comprise a holistic multigenerational workforce strategy, the book will serve as a concrete resource to boards of trustees, presidents, provosts, deans, diversity officers, department chairs, faculty, academic and non-academic administrators, diversity and human resource leaders, and diversity taskforces in their efforts to create strategic evidence-based multigenerational workforce approaches. In addition, the book will be utilized in upper division and graduate courses in higher education administration, diversity, human resource management, educational leadership, intergenerational issues, gerontology, social work, and organizational psychology.
