Shanghai and Nanjing 1937 Benjamin Lai, 2017-06-29 From 1931 China and Japan had been embroiled in a number of small scale conflicts that had seen vast swathes of territory being occupied by the Japanese On 7 July 1937 the Japanese engineered the Marco Polo Bridge Incident which led to the fall of Beijing and Tianjin and the start of a de facto state of war between the two countries This force then moved south landing an expeditionary force to take Shanghai and from there drive west to capture Nanjing This fully illustrated book tells the story of the Japanese assault on these two great Chinese cities The battle of Shanghai was the first large scale urban warfare of World War II and one of the bloodiest battles of the entire Sino Japanese War The determined resistance by Chinese inflicted sizable Japanese casualties and may well have contributed to the subsequent massacre of prisoners and civilians in the battle of Nanjing tarnishing Japan s reputation in the eyes of the world

Economics of Child Labour Biswajit Chatterjee, Runa Ray, 2019-05-31 This book examines the effectiveness of trade and non trade policies to combat the menace of child labour Although it has decreased on the global scale in recent years child labour still remains high particularly in the developing countries Keeping in mind the estimated extent of child labour in different regions around the globe the book offers a detailed critical review of both theoretical and empirical literature on the topic as well as the policies to reduce the incidence of child labour It also develops

a general equilibrium model to demonstrate the possible effects of growth promoting non trade policies as opposed to direct trade policies on child labour employment mitigation The book argues that of the non trade policies the introduction of compulsory education appears to be an effective instrument for curtailing the child labour problem when families receive targeted subsidies for sending their children to school It also shows that appropriately designed and targeted education subsidies can reduce the incidence of child labour and that social protection measures such as subsidies on school enrolment also tend to have a positive impact The book not only opens up research topics for academicians but is also a valuable resource for policy makers *The Changing Food Assistance Landscape* Craig Gundersen,1999 Journal of the Royal United Service Institution, Whitehall Yard ,1917 Public Interests in International Investment Law Qiang Ren,2019-01-17

Mental Health Care and Social Policy Phil Brown, 2022-05-24 Originally published in 1985 at a time when the previous 2 decades had witnessed dramatic changes in the US mental health system These included the decline of the state mental hospital the birth of the community mental health center and the expansion of psychiatric services in general hospitals The inevitable results of the changes were the creation of a huge nursing home population of the chronically mentally ill and the multiplication of urban street people Mental health care is uncoordinated and underfunded The historical roots of these problems are examined in this book which is designed both as a professional reference volume and as a text for students in the sociology of mental health and illness The contributors are drawn from diverse fields including sociology psychiatry psychology epidemiology and social history
