Sacred and Secular Pippa Norris, Ronald Inglehart, 2011-10-17 This book develops a theory of existential security It demonstrates that the publics of virtually all advanced industrial societies have been moving toward more secular orientations during the past half century but also that the world as a whole now has more people with traditional religious views than ever before This second edition expands the theory and provides new and updated evidence from a broad perspective and in a wide range of countries This confirms that religiosity persists most strongly among vulnerable populations especially in poorer nations and in failed states Conversely a systematic erosion of religious practices values and beliefs has occurred among the more prosperous strata in rich nations

'Religion' and 'Secular' Categories in Sociology Mitsutoshi Horii, 2022-01-01 Informed by critical religion perspective in Religious Studies and postcolonial self reflection in Sociology this book interrogates the ideas of religion and the secular in social theory and Sociology It argues that as long as social theory and sociological discourse embed the religion secular distinction and locate themselves on the secular side of the binary Sociology will continue to serve the very ideologies it tries to subvert namely Western modernity coloniality

Secularization Steve Bruce, 2013-01-10 The decline in power popularity and prestige of religion across the modern world is not a short term or localized trend nor is it an accident It is a consequence of subtle but powerful features of modernization Renowned sociologist Steve Bruce elaborates the secularization paradigm and defends it against a wide variety of recent attempts at rebuttal and refutation Using the best available statistical and qualitative evidence Bruce considers the implications for the

Deep History, Secular Theory Luther Martin, 2014-05-21 Over the course of his

career Luther H Martin has primarily produced articles rather than monographs This approach to publication has given him the opportunity to experiment with different methodological approaches to an academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987 The contents of this collected volume represent Martin s shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university The twenty five contributions collected in this volume are selected from over one hundred essays articles and book chapters published over a long and industrious career and are representative of Martin s work over the past two decades

Global Religious and Secular Dynamics José Casanova, 2019-08-12 Global Religious and Secular Dynamics offers a global historical perspective that integrates European theories of modern secularization and competing theories of global religious revival as interrelated dynamics In the first section Casanova examines the emergence of the modern religious secular binary system of classification within a critical review of mile Durkheim s and Max Weber s divergent theories of religion The modern system of classification is contrasted with the pre axial one in which all reality was organized according to the binary sacred profane and with the post axial one which was organized according to the binary transcendent immanent The second and third sections contrast the internal European road of secularization without religious pluralization with the external colonial road of global intercultural and religious encounters particularly in Asia that led to the global system of religious pluralism The final section examines the contemporary intertwinement of religious and secular dynamics through the globalization of the immanent frame and the expansion of global denominationalism

On the Theories of Secularism and Modernization A. K. Saran, 2007 *Edward Said's Rhetoric of the Secular* Mathieu E. Courville, 2011-10-20 Edward Said s Rhetoric of the Secular provides an important new reading of Edward W Said s work emphasizing not only the distinction but also the fuzzy borders between representations of the religious and the secular found within and throughout his oeuvre and at the core of some of his most customary rhetorical strategies Mathieu Courville begins by examining Said s own reflections on his life before moving on to key debates about Said s work within Religious Studies and Middle Eastern Studies and his relationship to French critical theorists Through close attention to Said s use of the literal and the figurative when dealing with religious national and cultural matters Courville discerns a pattern that illuminates what Said means by secular Said s work shows that the secular is not the utter opposite of religion in the modern globalized world but may exist in a productive tension with it

Manifesto of the Critical Theory of Society and Religion (3 vols.) Rudolf Siebert, 2010-08-16 The Manifesto develops further the Critical Theory of Religion intrinsic to the Critical Theory of Society of the Frankfurt School into a new paradigm of the Psychology Sociology Philosophy and Theology of Religion Its central theme is the theodicy problem The Manifesto approaches this theme in the framework of comparative religion and critical political theology in a narrative and discursive

fashion In search of a solution to the theodicy problem the Manifesto explores trends in civil society toward Alternative Future I the Totally Administered Society Alternative Future II the Militarized Society and Alternative Future III the Reconciled Society in the horizon of the longing for the Wholly Other as perfect justice and unconditional love Toward that goal it relies on both the critical theory of society as developed by Max Horkheimer Ernst Bloch Walter Benjamin Theodor W Adorno and others and on the new political theology of Johannes B Metz Helmut Peukert and Edmund Arens Interpreting Charles Taylor's Social Theory on Religion and Secularization Germán McKenzie, 2016-11-22 This book examines Taylorean social theory its sources main characteristics and impact Charles Taylor's meta narrative of secularization in the West prominently contained in his major work *A Secular Age* 2007 has brought new insight on the social and cultural factors that intervened in such process the role of human agency and particularly on the contemporary conditions of belief in North America and Europe This study discusses what Taylor's approach has brought to the scholarly debate on Western secularization which has been carried on mostly in sociological terms McKenzie interprets Taylor's views in a way that offers an original social theory Such interpretation is possible with the help of sociologist Margaret Archer's morphogenetic theory and by making the most of Taylor's particular understanding of the method of the social sciences and of his philosophical views on human beings knowledge and modernity After exploring the philosophical and sociological sources informing Taylorean social theory and proposing its basic concepts and hermeneutic guidelines the author compares it with two widespread theories of secularization the now waning orthodox account and that proposed by Rational Choice Theory scholars particularly prevalent in the United States In doing so the book shows in which ways Taylorean social theory supersedes them what new issues it brings into the scholarly discussion and what difficulties might limit its future development Revisiting Secularism in Theory and Practice Seda Ünsar, Özgür Ünal Eriş, 2020-02-21 This book offers a philosophical and macro historical analysis of secularism supported by an investigation of various contemporary cases Starting with an in depth theoretical discussion of the meaning of secularism it subsequently presents a historical study on the secularization of norms and identities in Europe The respective case studies cover topics such as the epistemologies of secularism liberalization and embedded secularism the relationship between modernity and secularism the socio anthropology of secularism Turkish modernization as a cultural revolution the political economy of secularism in Turkey and the secular rationale of the EU neighborhood policy *Religion, Theory, Critique* Richard King, 2017-07-18 *Religion Theory Critique* is an essential tool for learning about theory and method in the study of religion Leading experts engage with contemporary and classical theories as well as non Western cultural contexts Unlike other collections this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion secular and culture are imagined within different disciplinary horizons This volume is the first textbook which seeks to engage discussion of classical approaches with

contemporary cultural and critical theories Contributors write on the influence of the natural sciences in the study of religion the role of European Christianity in modeling theories of religion religious experience and the interface with cognitive science the structure and function of religious language the social scientific study of religion ritual in religion the phenomenology of religion critical theory and religion embodiment and religion the impact of colonialism and modernity theorizing religion in terms of race and ethnicity links among religion nationalism and globalization the interplay of gender sex and religion and religion and the environment Each chapter introduces the topic identifies key theorists and issues and respects the pluralistic nature of the scholarship in the field Altogether this collection scrutinizes the explicit and implicit assumptions theorists make about religion as an object of analysis

Religion and International Relations Theory Jack L. Snyder, 2011 Annotation Through models that integrate religion into the study of international politics the essays in this collection offer a guide to updating the field

Religion in International Relations Theory Nukhet Sandal, Jonathan Fox, 2013-06-19 There is a growing realization among international relations scholars and practitioners that religion is a critical factor in global politics The Iranian Revolution the September 11 attacks the ethno religious conflicts such as the ones in the former Yugoslavia and Sri Lanka are among the many reasons for this increased focus on religion in international affairs The rise of religious political parties across the world ranging from the Christian Democrats in Europe to Bharatiya Janata Party in India similarly illustrated religion's heightened international profile Despite all this attention it is challenging to situate religion within a discipline which has been dominantly secular from its inception Only a few existent works have ventured to integrate religion into core international relations theories such as Classical Realism Neorealism Neoliberalism Constructivism and the English school This work is the first systematic attempt to comparatively assess the place of religion in the aforementioned theoretical strands of international relations with contemporary examples from around the world Written in an accessible and systematic fashion this book will be an important addition to the fields of both religion and international relations Nukhet A Sandal is Assistant Professor in the Political Science Department at Ohio University Jonathan Fox is Professor in the Department of Political Studies at Bar Ilan University Israel

Radical Secularization? Stijn Latré, Walter Van Herck, Guido Vanheeswijck, 2014-12-18 What does it mean for a society to be secular Answering this question from a philosophical angle Radical Secularization delves into the philosophical presuppositions of secularization Which cultural evolutions made secularization possible International scholars from different disciplines assess the answers given by many leading philosophers such as among others L with Blumenberg and Habermas Germany Gauchet and Nancy France Taylor and Bellah North America They examine the theory that secularization cannot only be regarded as a cultural change that was forced upon religion from an external source e g science but should also be considered as a phenomenon triggered by motives internal to religion If religions are indeed capable of inner transformations the question arises whether religions can persist in the secular societies they inadvertently helped to bring about and how secular societies may

accommodate religion **Beyond Secular Order** John Milbank,2014-01-07 Beyond Secular Order is the first of a two volume work that expands upon renowned theologian John Milbank s innovative attempt to understand both theology and modern thought begun in his previously published classic text Theology and Social Theory Continues Milbank s innovative attempt to understand both theology and modern thought begun in Theology and Social Theory considered a classic work in the development of systematic theology Authored by one of the world s most influential and highly regarded contemporary theologians Draws on a sweep of ideas and thinkers to argue that modern secularism is a form of Christian heresy that developed from the Middle Ages and can only be overcome by a renewed account of Christendom Shows how this heresy can be transformed into a richer blend of religion modernity and politics Reveals how there is a fundamental homology between modern ideas about ontology and knowledge and modern ideas about political action expressed in both theory and practice

Theology and Social Theory John Milbank,2008-04-15 This is a revised edition of John Milbank s masterpiece which sketches the outline of a specifically theological social theory The Times Higher Education Supplement wrote of the first edition that it was a tour de force of systematic theology It would be churlish not to acknowledge its provocation and brilliance Featured in The Church Times 100 Best Christian Books Brings this classic work up to date by reviewing the development of modern social thought Features a substantial new introduction by Milbank clarifying the theoretical basis for his work Challenges the notion that sociological critiques of theology are scientific Outlines a specifically theological social theory and in doing so engages with a wide range of thinkers from Plato to Deleuze Written by one of the world s most influential contemporary theologians and the author of numerous books *Sacred and Secular* Pippa Norris,2004 The belief that religion was dying became the conventional wisdom in the social sciences during most of the 20th century However religion has not disappeared and is unlikely to do so and the secularization thesis needs updating This text develops a theory of secularization and existential security *The Coloniality of the Secular* Yountae An,2023-12-15 In The Coloniality of the Secular An Yountae investigates the collusive ties between the modern concepts of the secular religion race and coloniality in the Americas Drawing on the work of douard Glissant Frantz Fanon Aim C saire Sylvia Wynter and Enrique Dussel An maps the intersections of revolutionary non Western thought with religious ideas to show how decoloniality redefines the sacred as an integral part of its liberation vision He examines these thinkers rejection of colonial religions and interrogates the narrow conception of religion that confines it within colonial power structures An explores decoloniality s conception of the sacred in relation to revolutionary violence gender creolization and racial phenomenology demonstrating its potential for reshaping religious paradigms Pointing out that the secular has been pivotal to regulating racial hierarchies under colonialism he advocates for a broader understanding of religion that captures the fundamental ideas that drive decolonial thinking By examining how decolonial theory incorporates the sacred into its vision of liberation An invites readers to rethink the transformative power of decoloniality and religion to build a hopeful future
