Secularism Gender And The State In The Middle East The Egyptian Womens Movement:

Secularism, Gender and the State in the Middle East Nadjé Al-Ali, 2000-07-27 A considerable literature has been devoted to the study of Islamic activism. By contrast, Nadjé Al-Ali's book explores the anthropological and political significance of secular-oriented activism by focusing on the women's movement in Egypt. In so doing, it challenges stereotypical images of Arab women as passive victims and demonstrates how they fight for their rights and confront conservative forces. Al-Ali's book also takes issue with prevailing constructions of the West and its perceived dichotomous relation to the East. The argument is constructed around interviews which afford fascinating insights into the history of the women's movement in Egypt, notions about secularism, and how Islamist constituencies have impacted on women's activism generally. The balance between the empirical and conceptual material is adeptly handled. The author frames her work in the context of current theoretical debates in Middle Eastern and post-colonial scholarship, while some of the ideas are complex, her lucid style means they are always comprehensible. The book will therefore appeal to students as well as to scholars in the field.

Secularism, gender and the state in the Middle East Nadjé Sadig Al-Ali, 2000 *Secular Muslim Feminism* Hind Elhinawy, 2024-12-26 For over a century, Muslim women have championed their own brand of feminism rooted in human rights principles and a deep understanding of their diverse cultural contexts. Yet secular Muslim feminism remains shrouded in misunderstanding and contention. This book boldly confronts the complexities and controversies surrounding this contested concept, offering a nuanced exploration of its potential to bridge divides and empower women. The book challenges the simplistic portrayals of Muslim women, dismantling the harmful narratives of oppression and victimhood propagated by both Western and Islamist agendas. It critiques the selective glorification of religious agency by some feminists, recognizing how this can inadvertently reinforce patriarchal ideologies. Additionally, it exposes the hijacking of the secular Muslim feminist movement by the far right, disguised as advocates for women's rights but fueled by anti-Muslim sentiments. Drawing on over two decades of personal observations and interactions with diverse organizations in the Middle East and Europe, the book delves into the heart of secular Muslim feminism, dissecting its nuances and potential to reconcile divergent perspectives. It amplifies these voices, challenging the misrepresentation and limitations imposed by external agendas. *Secular Muslim Feminism* emerges as a bold and transformative force, redefining the boundaries of equality and empowering women to shape their destinies. It offers a nuanced and critical framework for understanding the complex realities of Muslim women's lives, paving the way for a more just and equitable future. *Autobiography and the Construction of Identity and Community in the Middle East* NA, 2016-04-30 Ranging from the early modern period to the present day, this edited collection uses biography as a window into the history of the Arab Islamic Middle East. The contributors reinterpret the lives of the famous, such as George Antonius and Doria Shafiq, and rediscover the lives of individuals previously consigned to the margins of history, including the notorious individuals of 17th-century Syria and the 20th-century Palestinian activist Kulthum.

Auda The book also draws on the biographical tradition of Arab historical writing including biographical dictionaries for an understanding of the region's social and cultural history Interdisciplinary in scope and theoretically informed this volume brings to light individual lives which are essential to an understanding of Middle Eastern history *Women and Gender in Iraq* Zahra Ali, 2018-09-13 Since the US led invasion and occupation of Iraq in 2003 the challenges of sectarianism and militarism have weighed heavily on the women of Iraq In this book Zahra Ali foregrounds a wide range of interviews with a variety of women involved in women's rights activism showing how everyday life and intellectual life has developed since the US led invasion In addition to this Ali offers detailed historical research of social economic and political contexts since the formation of the Iraqi state in the 1920s Through a transnational and postcolonial feminist approach this book also considers the ways in which gender norms and practices Iraqi feminist discourses and activisms are shaped and developed through state politics competing nationalisms religious tribal and sectarian dynamics wars and economic sanctions The result is a vivid account of the everyday life in today's Iraq and an exceptional analysis of the future of Iraqi feminisms **Gender and the Expansion of International Society in the Middle East** Khalid F. Al-Khater, 2017-11-28 Gender politics is the most visible marker of conflict over identity within the Middle East It also lies at the core of cultural conflicts in the relationship between the Muslim world and the West Why is gender such a divisive issue between the West and the Middle East A theoretical framework and four case studies are employed to answer this question The theoretical framework discusses the main approaches in international relations that perpetuate the liberal world order in different ways In all approaches the gender project serves as a means of discourse and an instrument to justify expand or consolidate the liberal order Part 2 presents the case studies This dissertation argues that gender politics should be understood in the context of sociohistorical changes and the ongoing dialectic process between the liberal project and the expression of the ummah rather than through simplified mainstream perceptions of development and the need for liberating the oppressed Middle Eastern women The three main arguments are as follows First gender discourse is a top down project Second gender is embedded within layers of imperialism Third gender must be understood within the dynamics of the dialectic process between the ummah and the liberal order **Revolutionary Womanhood** Laura Bier, 2011-08-24 Laura Bier unpacks the complicated dynamics and legacy of an historical moment in which women were understood to be crucial to modern nation building Lila Abu Lughod author of *Do Muslim Women Need Saving* The first major historical account of gender politics during the Nasser era *Revolutionary Womanhood* analyzes feminism as a system of ideas and political practices international in origin but local in iteration Drawing connections between the secular nationalist projects that emerged in the 1950s and the gender politics of Islamism today Laura Bier reveals how discussions about education companionate marriage and enlightened motherhood as well as veiling work and other means of claiming public space created opportunities to reconsider the relationship between modernity state feminism and postcolonial state building Bier highlights attempts by political elites under Nasser to

transform Egyptian women into national subjects These attempts to fashion a new yet authentically Egyptian woman both enabled and constrained women's notions of gender liberation and agency Ultimately Bier challenges the common assumption that these emerging feminisms were somehow not culturally or religiously authentic and details their lasting impact on Egyptian womanhood today Addresses a major void in the historical literature on Egypt Showing how gendered politics proved central to Nasserist attempts to modernize the book broadens our understanding of state feminism secularism and the postcolonial period A very welcome addition the work combines theoretical sophistication with rich evidence and well crafted arguments Beth Baron author of *Egypt as a Woman* Laura Bier's well researched and engaging text skillfully illustrates how Nasser spun the woman question to define his Arab socialist agenda Lisa Pollard author of *Nurturing the Nation*
