Committee on Armed Services, 2002 **UN Antiterrorism Strategy, Resolutions and Programs Handbook Volume 1 Strategic Information and Materials** IBP USA, [The National Security Court System](#) Glenn Sulmasy, 2009-08-06 The recent Boumediene v Bush decision which tossed aside the dysfunctional military court system envisioned by the Bush administration and upheld the right of habeas corpus for detainees promises to throw national security law into chaos and will also probably lead to the closing of Guantanamo In this timely and much needed book Glenn Sulmasy one of America s leading experts on national security law opens with a much needed history of America s long and complicated experience with such courts since the early days of the Republic After tracing their evolution in the contemporary era Sulmasy argues for a more sensible approach to the global war on terror s unique set of prisoners He proposes a reasonable third way solution that avoids even more extreme measures on the one hand and a complete shuttering of the court system on the other Instead he advocates creating a separate standing judicial system overseen by civilian judges that allows for habeas corpus appeals and which focuses exclusively on existing war on terror cases as well as the inevitable cases to come For all those who want to explore the crucial legal issues behind the headlines about Gitmo and the rights of detainees [The National Security Court System](#) offers a clear headed assessment of where we are and where we ought to be going [Security Against Terrorism on U.S. Military Bases](#) United States. House. Committee on Resources. Subcommittee on Forests and Forest Health, 2002 *Expanding US Military Command in Africa* Tshepo Gwatiwa, Justin van der Merwe, 2020-12-23 This book discusses the systematic expansion of the United States Africa Command AFRICOM across the continent of Africa This book posits that AFRICOM expansion in Africa is part of a broader system of accumulation based on a government business media GBM complex Applying the concept at both structural and descriptive levels the GBM complex is a function of the synergy between the state's quest for power businesses need for expansion and the informational and hegemonic functions of media actors The United States GBM complex in Africa is supported and in some locations spearheaded by its military with dispossessing effects on local actors Drawing from African case studies analytical accounts and empirical case studies this book explores AFRICOM's role within this broader strategy The volume maps both the methods and the scope of this expansion as well as local resistance to this process and comprises perspectives from the five regions of Africa key sub regional organizations and voices from Africa's regional hegemons This book will be of much interest to students of security studies strategic studies African politics and International Relations Terrorism in the United States ,1998 Technology Against Terrorism ,1992-06 *Gulf Politics And Economics In A Changing World* Michael C Hudson, Marion E Kirk, 2014-03-21 The wave of uprisings that has engulfed the Arab world since 2011 has impacted the Gulf significantly however much the region appears to have remained unscathed In Bahrain the regime cracked down on protestors with the help of Saudi forces and increasing Gulf tensions with Iran political chaos in Yemen and rumblings among unemployed youth throughout the Gulf Cooperation Council GCC states all complicate the facade of Gulf stability In addition ties with the United States appear to be weakening regional politics are varied and changing particularly with the rise of India and China Gulf governance is often oppressive and GCC economies are even more tied to rentier practices of distribution to keep populations satisfied and in check Gulf Politics and Economics in a Changing World addresses these aspects of political and economic life in the GCC Iran and Iraq in order to assess the present situation It also offers analysis and predictions as to what the future of this important area of the greater Middle East may hold The volume which features contributions from some of the best scholars in the field of Gulf studies in the United States the Middle East Europe and Asia provides an in depth and critical look at the region 'Is It Global War on Terrorism' or Global War over Terra Africana? Nkwazi Nkuzi Mhango, 2017-12-06 Global War on Terrorism or Global War over Terra Africana How Imperial Powers Seek to Occupy Africa Militarily is a long onerous academic voyage of the demystification and demythologization of the Global War on Terror former US president George W Bush and former UK premier Tony Blair conceived envisaged and declared for their hidden personal and national interests It is a hidden and untold story of the other side about the GWOT which is but the GWOTA Major arguments presented gyrate around the deconstruction and overhaul of the GWOT so that it can be equally formulated and fought by all nations for the interests of all but not the interests of some as it currently is Also the book repudiates the pontification the pontifex maximus of the GWOTA have

always made ex nihilo while concealing their drive s for perpetually exploiting poor countries Terrorism is a world phenomenon everybody must fight provided it is collectively agreed decided and declared for the collective good and interests of the world but not the interests of a few hegemonic countries that usurped the power of declaring who is a terrorist and who is not Although terrorism is real the manner it is fought is a little bit knotty This tome acts as an eye opener and a wake up call for Africa to start interrogating and excavating the hidden truths about the GWOT chiefly the way it was enacted declared presented and now fought with essentialist and controversialist modus operandi and rationale Other major questions asked and answered are Why exporting military and military hardware guised as fighting terrorism without underscoring the terror military incursion will inter alia cause to Africa especially If truly the aim of the GWOT is to wage war on terror why doesn t the West want to empower African armies Why did the US appoint itself to lead the war conceived and declared without meeting the requirements of the just war or international standards Why hasn t the world learned from Iraq and Libya whose governments were toppled under the fa ade of the GWOT Is it the GWOT or the GWOTA

The US Middle East Policy In Post 9/11 Era Mukhtar Ahmad Bhat, 2020-01-01 Middle East the mother of civilisations is one of the very few regions of global politics which have remained the hot spots and orbits around which the global power game revolved uninterruptedly In beginning it was due to its geopolitical location as it is at the crossroads and a trade link between big Asian African and European countries turned the region into a trade hub Then the life changing discoveries of natural resources particularly of oil and gas in the region as well as the industrial revolution in other parts of the world increased strategic importance of the region at the global level The adoption of policy of securing control over the resources by global powers gave new shape to the political structure and configuration like

disintegration of Ottoman Empire and creation of new political entities in the region In addition to that the break out of the First and Second World Wars creation of Israel as well as the emergence of the Cold War are such events that transformed the region into a battle ground for the global super powers which ended at the collapse of the USSR in 1992 and emergence of the US as the dominant global power No doubt after the emergence of uni polar global order the region saw a phase of peace and end of the war gaming on the part of the big powers but the US continued to dominate the regional political structure During the same period the region also experienced one of the toughest periods of inter state wars first the decade long Iraq Iran war and then the Iraqi invasion of Kuwait which added more fuel to the already increasing division and hatred among the regional countries
