Hrair Dekmejian, 2003-06-27 Once the landlocked by individual countries backwater between Iran and the Soviet Union the Caspian has in the last ten years emerged as the epicentre of vast conflicting interests in a region where massive geopolitical issues converge with enormous energy resources and dramatic latent instability Russia's conflict in Chechnya is a direct by product of the strategic importance of the Caspian region Troubled Waters presents a comprehensive analysis of the political and economic dynamics of the Caspian basin It examines the area's historical evolution and the diverse issues and players in what has become a modern variant of the Great Game of the nineteenth century Following a historical overview of the region and its oil industries the book analyses the domestic politics and the foreign policies of the five states bordering the Caspian Russia Iran Azerbaijan Kazakhstan and Turkmenistan It further identifies all the external interests involved in the Caspian's political rivalries and control over its resources and territory including the US the major European powers various nationalist movements Islamic militants multi national corporations NGOs and international financial institutions These features coupled with the political and economic risk assessment of the Caspian basin which this book provides makes this a unique contribution to our understanding of a region which is strategically positioned at the territorial juncture of Russia China East Asia and the Middle East The Legacy of the Soviet Union W. Slater, A. Wilson, 2004-03-31 The Legacy of the Soviet Union offers a distillation by a group of eminent scholars of their experience of the post Soviet years Analysis of the post Soviet landscape is accompanied by meditations on the impact of the post Soviet transition on both policy makers and academics The book therefore examines both assumptions of transition and reconsiders the experience of Soviet communism in the light of its demise The Caspian Shirin Akiner, 2004-07-05 Reflecting the particular concerns of each of the Caspian countries this book offers a

unique perspective on the prospects and priorities for long term development round the Caspian basin **Central Asian**Security Roy Allison, Lena Jonson, 2004-05-13 This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south east and west The international implications are enormous because of the rich energy sources oil and natural gas located in the Caspian Sea area The authors assess a variety of internal security policy challenges confronting these states for example the potential for conflict arising from such factors as a mixed ethnic population resource scarcity particularly in relation to water management and an Islamic revival They also examine the security policy content of relations between the Central Asian states and regional and international powers specifically the stakes interests and policies of Russia China Iran Turkey and the United States These internal challenges and the evolution of relations with external powers may result in new cooperative relationships but they may also lead to destabilizing rivalry and interstate enmity in Central Asia It is important to identify new patterns of relevance for future security cooperation in the region but the potential for a new security system or for new institutions to manage security in the region remains uncertain These issues are explored by a team of prominent specialists from Western Europe the United States Russia and China

Dynamics of Change in the Persian Gulf Political Economy, War and Revolution Anoushiravan Ehteshami, 2013 The Persian Gulf has come to represent one of the most strategically significant waterways of the world In terms of geography geopolitics resources global political economy and regional influence the Gulf is perhaps home to the world s most significant group of countries Focusing on the complexities of the interplay between domestic level changes and region wide interactions this book presents the reader with the first comprehensive survey of the dynamics of change in this crucial area Systemic oriented in its approach the impact of war and revolution on the countries of the sub region is discussed and the ways in which these factors have shaped the security dilemmas and responses of the Gulf States is also explored The role of oil is examined in terms of the impact of its income on these states and societies and the manner in which oil has shaped the integration of these states into the global system Oil has shrunk developmental time in these countries and has accelerated generational shift At the same time it has created the dialectical relationship which now characterizes the difficult balance between prosperity and instability which is at the heart of the sub region Casting new light on the workings of a strategically significant part of the international system this book will be an essential resource for students and scholars of international relations international security and Middle Eastern politics Asian Thought on China's Changing International Relations Emilian Kavalski, 2014-08-05 At the end of the Cold War commentators were pondering how far Western ideas would spread today the debate seems to be how far Chinese ideas will reach This volume examines Chinese international relations thought and practices identifying the extent to which China's rise has provoked fresh geo strategic and intellectual shifts within Asia Pathways After Empire Andrei P. Tsygankov, 2001 In a revision of his doctoral dissertation for the University of Southern

California Tsygankov international relations and political science San Francisco State U analyzes the foreign economic policies of successor states of the Soviet Union besides Russia He finds that some have looked toward Russia and others away and that the determining factor is the strength of the national identity of the new states Annotation copyrighted by Book News Inc Portland OR Russia's Relations with Kazakhstan Yelena Nikolayevna Zabortseva, 2016-05-20 Recent political developments in post Soviet countries have raised novel issues regarding the stability of the post Cold War world order A new direction in policy has been exemplified by the recent bolstering of a number of post Soviet political and economic institutions such as CSTO SCO and the Eurasian Economic Union in which the role of Kazakhstan is considerable In addition to its unique geopolitical location Kazakhstan's importance in regional integration structures and international relations more broadly is reinforced by its rich oil and uranium deposits. This book centres on an exploration of the changing relations between Russia and Kazakhstan and their impact on post Soviet interactions with the rest of the world The role of specific factors in the formation of the post Soviet regional system will be explored in historical perspective The multifaceted relations between Kazakhstan and Russia from 1991 to the contemporary period will be analysed in terms of relations in several spheres political military and security Kazakhstan's nuclear withdrawal ethnicity and national identity economic foreign policies regionalism and international trends and the impact of historic trends An important analysis of Kazakhstan the second largest country in the post Soviet world this book is of interest to researchers of International Relations Post Soviet Studies and Central Asia Studies Russian National Security Michael H. Crutcher, 2001 This is an anthology of papers presented at a conference titled Russian National Security Perceptions Policies and Prospects conducted from 4 6 December 2000 The book organizes the papers into six sections The Russian National Security Community Russia and Europe Russian Policy Towards the Caucasus and Central Asia Russia and Asia Russia and the United States and Russia s Military Transformation **Regions and Powers** Barry Buzan, Ole Wæver, 2003-12-04 This book develops the idea that since decolonisation regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system Individual chapters cover Africa the Balkans CIS Europe East Asia EU Europe the Middle East North America South America and South Asia The main focus is on the post Cold War period but the history of each regional security complex is traced back to its beginnings By relating the regional dynamics of security to current debates about the global power structure the authors unfold a distinctive interpretation of post Cold War international security avoiding both the extreme oversimplifications of the unipolar view and the extreme deterritorialisations of many globalist visions of a new world disorder Their framework brings out the radical diversity of security dynamics in different parts of the world Well-Oiled **Diplomacy** Adam N. Stulberg, As a window into understanding the relationship between globalization and the pursuit of national security Adam N Stulberg examines Russia's mixed success at leveraging energy advantages in Eurasia from 1992 to 2002 Stulberg supplements traditional analyses of statecraft by highlighting indirect market and regulatory mechanisms for altering the behavior of foreign and subnational actors as well as by demonstrating the usability of soft power and global networks The power of this new theory of strategic manipulation is illustrated in several case studies including Russia s successful natural gas diplomacy toward Turkmenistan and Kazakhstan Russia s troubled oil diplomacy toward Azerbaijan and Kazakhstan and Russia s mixed success with commercial nuclear diplomacy toward Kyrgyzstan and Kazakhstan
