Seductions Of Fate Tragic Subjectivity Ethics Politics:

Seductions of Fate G. Bastera, 2004-02-24 If the tragic interpretation of experience is still so current despite its disastrous ethical consequences it is because it shapes our subjectivity Instead of contradicting the ideals of autonomy and freedom a modern subjectivity based on self victimization in effect enables them By embracing subjection to an alienating other the Law Power the autonomous subject protects its sameness from the disruption of real people Seductions of Fate stages a dialogue between this tragic agent of political emancipation and the unconditional ethical demands it seeks to evade

The Subject of Freedom Gabriela Bastera, 2015-06-01 Is freedom our most essential belonging the intimate source of self mastery an inalienable right Or is it something foreign an other that constitutes subjectivity a challenge to our notion of autonomy To Bastera the subjectivity we call free embodies a relationship with an irreducible otherness that at once exceeds it and animates its core Tracing Kant's concept of freedom from the Critique of Pure Reason to his practical works Bastera elaborates his most revolutionary insights by setting them in dialogue with Levinas's Otherwise than Being Levinas's text she argues offers a deep critique of Kant that follows the impulse of his thinking to its most promising consequences The complex concepts of freedom autonomy and subjectivity that emerge from this dialogue have the potential to energize today's ethical and political thinking

atrocities and trauma from around the globe are matters of daily information. In order to illustrate the different ways that writers have approached the answers to such questions, this Reader collects together a comprehensive selection of canonical writings on tragedy from antiquity to the present day, arranged in six sections, each featuring an introduction providing concise and informed historical and theoretical frameworks for the texts. ***The End of God-Talk*** Anthony B.

Pinn, 2012-01-19 In this groundbreaking study, Anthony B. Pinn challenges the long-held assumption that African American theology is solely theistic, arguing that this assumption has excluded a rapidly growing segment of the African American population: non-theists. Rejecting the assumption of theism as the African American orientation, Pinn poses a crucial question: What is a non-theistic theology? ***Ethics and Literature in Chile, Argentina, and Paraguay, 1970-2000*** Carlos M.

Amador, 2016-05-04 This book argues for a new reading of the political and ethical through the literatures of Argentina, Chile, and Paraguay from 1970-2000. Carlos Amador reads a series of examples from the last dictatorship and the current post-dictatorship period in the Southern Cone, including works by Augusto Roa Bastos, Roberto Bolaño, Ceferino Reato, Horacio Verbitsky, Nelly Richard, Diamela Eltit, and Willy Thayer, with the goal of uncovering the logic behind their conceptions of belonging and rejection. Focusing on theoretical concepts that make possible the formation of any and all communities, this study works towards a vision of literature as essential to the structure of ethics. ***A Cultural History of Tragedy in the Age of Enlightenment*** Mitchell Greenberg, 2021-05-20

The period covered by this volume in the *Cultural History of Tragedy* set is bookended by two shockingly similar historical events: the beheading of a king, Charles I of England in 1649 and Louis XIV of France in 1793. The period between these two dates saw enormous political, social, and economic changes that altered European society's cultural life. Tragedy, which had dominated the European stage at the beginning of this period, gradually saw itself replaced by new literary forms, culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s. The dominance of France's military and cultural prestige during this period is reflected in the important, almost exclusive space dedicated in this volume to the French stage. This book covers the tragedies of France's two greatest playwrights, Pierre Corneille (1606-84) and Jean Racine (1639-99), which would dominate not only the French stage but, through translations and adaptations, became the model of tragic theater across Europe, finding imitators in England (Dryden), Italy (Alfieri), and as far afield as Russia. This dominance continued well into the 18th century with the triumph of Voltaire's tragedies. This volume also examines how the writings of Diderot and Lessing changed the direction of theatre, and how, after the Revolution, in the writings of Goethe, Schiller, Hegel, tragedy and the tragic were reimagined and became the sign of European modernity. Each chapter takes a different theme as its focus: forms and media, sites of performance and circulation, communities of production and consumption, philosophy and social theory, religion, ritual and myth, politics of city and nation, society and family, and gender and sexuality. ***The Ethics of Latin American Literary Criticism*** E. Zivín, 2007-08-20

This volume looks at the shifting role of aesthetics in Latin American literature and literary studies, focusing on the concept of

ethical responsibility within these practices The contributing authors examine the act of reading in its new globalized context of postcolonial theory and gender and performance studies

Opera and the Political Imaginary in Old Regime France

Olivia Bloechl, 2018-03-01 From its origins in the 1670s through the French Revolution serious opera in France was associated with the power of the absolute monarchy and its ties to the crown remain at the heart of our understanding of this opera tradition especially its foremost genre the tragédie en musique In *Opera and the Political Imaginary in Old Regime France* however Olivia Bloechl reveals another layer of French opera's political theater The make-believe worlds on stage she shows involved not just fantasies of sovereign rule but also aspects of government Plot conflicts over public conduct morality security and law thus appear side by side with tableaux hailing glorious majesty What's more opera's creators dispersed sovereign-like dignity and powers well beyond the genre's larger-than-life rulers and gods to its lovers magicians and artists This speaks to the genre's distinctive combination of a theological political vocabulary with a concern for mundane human capacities which is explored here for the first time By looking at the political relations among opera characters and choruses in recurring scenes of mourning confession punishment and pardoning we can glimpse a collective political experience underlying and sometimes working against ancien régime absolutism Through this lens French opera of the period emerges as a deeply conservative yet also more politically nuanced genre than previously thought

the vital role economy plays in the construction of religion subjectivity language and thought in Agnon's work and accordingly explores his literary use of images of debt money and economy to examine how these themes illuminate other focal points in the canonical author's work excavating the economic infrastructure of discourses that are commonly considered to reside beyond the economic sphere Sagiv's analysis of Agnon's work renowned for its paradoxical articulation of the impact of modernity on traditional Jewish society exposes an overarching distrust regarding the sustainability of any economic structure The concrete and symbolic economies surveyed in this project monetary divine semiotic libidinal and literary are prone to cyclical crises Under what Sagiv terms Agnon's law of permanent debt the stability and profitability of economies are always temporary Agnon's literary economy transgressing traditional closures together with his profound irony make it impossible to determine if these economic crises are indeed the product of the break with tradition or alternatively if this theodicy is but a fantasy marking permanent debt as the inherent economic infrastructure of human existence Many of the author's narrators and characters be they more or less religious distrust money Unlike romantic ideas of art's transcendence the monetary sign does not enable one to entertain thoughts of an ideal truth Georg Simmel's famous description of the metaphysical quality of money elucidates the moment when money transforms from a means to an end in an all pervasive monetary economy thereby establishing a world of radical exchangeability As such money as exchangeability personified dictates a world devoid of eternal and intrinsic values Sagiv argues that this is precisely what troubles Agnon both as a religious thinker and as a modern writer
