See Under A Novel:

See Under: Shoah Marc De Kesel, Bettine Siertsema, Katarzyna Szurmiak, 2014-08-28 Did the first generation Holocaust writers not warn us against the risks of imagination Does it not create an illusion that the unimaginable can be imagined the unrepresentable represented Clearly this warning has not been taken up by David Grossman Fully embracing imagination's power his novel *See under Love* offers a profound reflection on how the twenty first century can assume the heritage of the Shoah and remember the unmemorable in a proper way The essays in this volume reflect on this one novel though each from its own angle Focusing on one single novel shows the surplus value of a multispectral reflection on one central problem in this case the allegedly inconceivable and unspeakable nature of the Shoah **Novel Science** Adelene Buckland, 2013-04-12 *Novel Science* is the first in depth study of the shocking groundbreaking and sometimes beautiful writings of the gentlemen of the heroic age of geology and of the contribution these men made to the literary culture of their day For these men literature was an essential part of the practice of science itself as important to their efforts as mapmaking fieldwork and observation The reading and writing of imaginative literatures helped them to discover imagine debate and give shape and meaning to millions of years of previously undiscovered earth history Borrowing from the historical fictions of Walter Scott and the poetry of Lord Byron they invented geology as a science discovered many of the creatures we now call the dinosaurs and were the first to unravel and map the sequence and structure of stratified rock As Adelene Buckland shows they did this by rejecting the grand narratives of older theories of the earth or of biblical cosmogony theirs would be a humble science faithfully recording minute details and leaving the big picture for future generations to paint Buckland also reveals how these scientists just as they had drawn inspiration from their literary predecessors gave Victorian realist novelists such as George Eliot Charles Kingsley and Charles Dickens a powerful language with which to create dark and disturbing ruptures in the too seductive sweep of story **The Bystander**, 1905 *History of Literature in Canada* Reingard M. Nischik, 2008 The development of literature in Canada with an eye to its multicultural multiethnic multilingual nature From modest colonial beginnings literature in Canada has arrived at the center stage of world literature Works by English Canadian writers both established writers such as Margaret Atwood and new talents such as Yann Martel make regular appearances on international bestseller lists French Canadian literature has also found its own voice in the North American and francophone worlds CanLit has likewise developed into a staple of academic interest pursued in Canadian Studies programs in Canada and around the world This volume draws on the expertise of scholars from Canada Germany Austria and France tracing Canadian literature from the indigenous oral tradition to the development of English Canadian and French Canadian literature since colonial times Conceiving of Canada as a single but multifaceted culture it accounts for specific characteristics of English and French Canadian literatures such as the vital role of the short story in English Canada or that of the chanson in French Canada Yet special attention is also paid to Aboriginal literature and to the pronounced

transcultural ethnically diverse character of much contemporary Canadian literature thus moving clearly beyond the traditions of the two founding nations Contributors Reingard M Nischik Eva Gruber Iain M Higgins Guy Laflèche Dorothee Scholl Gwendolyn Davies Tracy Ware Fritz Peter Kirsch Julia Breitbach Lorraine York Marta Dvorak Jerry Wasserman Ursula Mathis Moser Doris G Eibl Rolf Lohse Sherrill Grace Caroline Rosenthal Martin Kuester Nicholas Bradley Anne Nothof Georgiana Banita Gilles Dupuis and Andrea Oberhuber Reingard M Nischik is Professor of American Literature at the University of Constance Germany

Dreaming in Books Andrew Piper, 2009-08 Examining novels critical editions gift books translations and illustrated books as well as the communities who made them *Dreaming in Books* tells a wide ranging story of the book's identity at the turn of the nineteenth century In so doing it shows how many of the most pressing modern communicative concerns are not unique to the digital age but emerged with a particular sense of urgency during the bookish upheavals of the romantic era In revisiting the book's rise through the prism of romantic literature Piper aims to revise our assumptions about romanticism the medium of the printed book and ultimately the future of the book in our so called digital age Pub desc

The Rise of the Novel, Updated Edition Ian Watt, 2001-06 A classic description of the interworkings of social conditions changing attitudes and literary practices during the period when the novel emerged as the dominant literary form of the individualist era

The Novel: An Alternative History, 1600-1800 Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along

with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms Booklist *Bulletin of the City Library* ,1890 *Medieval Literature and Social Politics* Stephen Knight,2021-03-01 *Medieval Literature and Social Politics* brings together seventeen articles by literary historian Stephen Knight The book primarily focuses on the social and political meaning of medieval literature in the past and the present It provides an account of how early heroic texts relate to the issues surrounding leadership and conflict in Wales France and England and how the myth of the Grail and the French reworking of Celtic stories relate to contemporary society and its concerns Further chapters examine Chaucer's readings of his social world the medieval reworkings of the Arthur and Merlin myths and the popular social statements in ballads and other literary forms The concluding chapters examine the Anglo nationalist Arctic Arthur and the ways in which Arthur Merlin and Robin Hood can be treated in terms of modern studies of the history of emotions and the environment This book will be of interest to scholars and students of medieval Europe as well as those interested in social and political history medieval literature and modern medievalism CS 1099 *Modern American Library Economy as Illustrated by the Newark, N. J., Free Public Library* John Cotton Dana,1908 *Encyclopedia of the Novel* Paul Schellinger,2014-04-08 The *Encyclopedia of the Novel* is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only form analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the *Encyclopedia of the Novel* is its long surveys of development of the novel in various regions of the world *Mikhail Bakhtin* Gary Saul Morson,Caryl Emerson,1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to

art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin's own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin's thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive

Women's Diaries as Narrative in the Nineteenth-Century Novel
Catherine Delafield, 2016-12-05 Using private diary writing as her model Catherine Delafield investigates the cultural significance of nineteenth century women's writing and reading practices Beginning with an examination of non fictional diaries and the practice of diary writing she assesses the interaction between the fictional diary and other forms of literary production such as epistolary narrative the periodical the factual document and sensation fiction The discrepancies between the private diary and its use as a narrative device are explored through the writings of Frances Burney Elizabeth Gaskell Anne Bront Dinah Craik Wilkie Collins and Bram Stoker The ideological function of the diary Delafield suggests produces a conflict in fictional narrative between that diary's received use as a domestic and spiritual record and its authority as a life writing opportunity for women Delafield considers women as writers readers and subjects and contextualizes her analysis within nineteenth century reading practice She demonstrates ways in which women could become performers of their own story through a narrative method which was authorized by their femininity and at the same time allowed them to challenge the myth of domestic womanhood

Dickens Novels as Verse Joseph P. Jordan, 2012-05-31 As its startling and aggressive title suggests Dickens Novels as Verse is no standard work of literary criticism It is in fact altogether new and original Jordan likens the experience of some of the great Dickens novels particularly the later ones namely A Tale of Two Cities Great Expectations and Our Mutual Friend to the experience of lyric verse The point is not that Dickens novels could ever be mistaken for lyric poems but that the experience of some of the best of Dickens's novels despite their undoubted sprawl is like the experience of lyric poems is so because the novels are made up of the same things that make great verse great intricate largely unnoticeable tissues of alliteration like patterning that net across the work and give narratively insignificant

coherence to it Dickens Novels as Verse meticulously describes these book length patterns in clear lucid prose Its three chapters each focused on a single Dickens novel are full of close analyses that can be immediately used by teachers students and all other readers of Dickens to grasp why Dickens always seems to be a greater writer than the quality of his ideas might lead us to expect Twentieth-Century American Fiction in Circulation Matthew Vechinski,2019-10-17 Twentieth Century American Fiction in Circulation is a study of the twentieth century linked story collection in the United States It emphasizes how the fictional form grew out of an established publishing model individual stories printed in magazines revised and expanded into single author volumes that resemble novels which creates multiple contexts for the reception of this literature By acknowledging the prior appearance of stories in periodicals the book examines textual variants and the role of editorial emendation drawing on archival records drafts and correspondence whenever possible It also considers how the pages of magazines create a context for the reception of short stories that differs significantly from that of the single author book The chapters explore how short stories appearing separately then linked together excel at representing the discontinuity of modern American life convey the multifaceted identity of a character across episodes mimic the qualities of oral storytelling and illustrate struggles of belonging within and across communities The book explains the appearance and prevalence of these narrative strategies at particular cultural moments in the evolution of the American magazine examining a range of periodicals such as The Masses Saturday Evening Post Partisan Review Esquire and Ladies Home Journal The primary linked story collections studied are Sherwood Anderson s Winesburg Ohio 1919 William Faulkner s The Unvanquished 1938 Mary McCarthy s The Company She Keeps 1942 John Barth s Lost in the Funhouse 1968 and Amy Tan s The Joy Luck Club 1988

III R. G. M. Nisbet, Niall Rudd, 2004-05-27 This book is a successor to the commentaries by Nisbet and Hubbard on Odes I and II but it takes critical note of the abundant recent writing on Horace It starts from the precise interpretation of the Latin attention is paid to the nuances implied by the word order parallel passages are quoted not to depreciate the poet's originality but to elucidate his meaning and to show how he adapted his predecessors sometimes major English poets are cited to exemplify his influence on the tradition In expounding the so called Roman Odes the editors reject not only uncritical acceptance of Augustan ideology but also more recent attempts to find subversion in a court poet They show how Greek moralizing particularly by the Epicureans is applied to contemporary social situations Poems on country festivals are treated sympathetically in the belief that the tolerant and inclusive religion of the Romans can easily be misunderstood The poet's wit is emphasized in his addresses both to eminent Romans and to women with Greek names the latter poems are taken as reflecting his general experience rather than particular occasions Though Horace's ironic self presentation must not be understood too literally the editors reject the modern tendency to treat the author as unknowable Although the text of the Odes is not printed separately the headings to the notes provide a continuous text The editors put forward a number of conjectures most of them necessarily tentative and in the few cases where they disagree both opinions are summarized
