Seeing Through Writing:

Seeing through Texts Francis X. Clooney, SJ, 1996-07-03 Seeing through Texts invites us into the world of south Indian Hinduism through a study of 100 songs of the Tiruv ymoli the great masterpiece of the ninth century Hindu saint Sa k pan These unique songs dedicated to the Hindu god Vi u K a lead us through poetic and imaginative philosophical and moral reflections on the nature of the self and the world ancient myths and temple worship and the mystical moods of longing desire and love in which one seeks loses and finds again the God who loves us first The book is also a study of the interpretation of the Tiruv ymoli in the traditional Hindu rivai ava commentaries of the twelfth fourteenth centuries as well as a comparative theological study which explores the implication of the songs and their commentaries for readers from outside the rivai ava tradition

Seeing Through Writing William E. Coles, Writing and Seeing Rui Manuel G. de Carvalho Homem, Maria de Fátima Lambert, 2006 The essays in this volume are informed by a variety of theoretical assumptions and of critical methodologies but they all share an interest in the intersections of word and image in a variety of media This unifying rationale secures the present collection s central position in the current critical context defined as it predominantly is by ways of reading that are based on a relational nexus The intertextual the intermedial the intersemiotic are indeed foregrounded and combined in these essays conceptually as much as in the critical practices favoured by the various contributions Studies of literature in its relation to pictorial genres enjoy a relative prominence in the volume but the range of media and of approaches considered is broad enough to include photography film video television comic strips animated film public art material culture The backgrounds of contributors are likewise diverse culturally academically linguistically The volume combines contributions by prominent scholars and critics with essays by younger scholars from a variety of backgrounds The resulting plurality of perspective is indeed a source of new insights into the relations between writing and seeing and it contributes to making this collection an exciting new contribution to word and image studies

Becoming a Writing Researcher Ann Blakeslee, Cathy Fleischer,2019-07-08 *Becoming a Writing Researcher* effectively guides students through the stages of conducting qualitative writing research from the initial step of seeing themselves as researchers to identifying research questions selecting appropriate methodological tools conducting the research and interpreting and reporting findings Exercises and activities as well as anecdotes and examples from both novice and seasoned researchers serve to acquaint readers thoroughly with the practice of carrying out research for scholarly or professional purposes This second edition introduces students to research methods in a gradual and contextualized manner Each chapter offers a discussion of a particular portion of the research process followed by consideration of physical conceptual and strategic tools that allow a master s level researcher to conduct that part of the research Sections within each chapter also cover issues of stance and positionality that impact the researcher and the resulting research *Becoming a Writing Researcher* second edition is an essential text for all novice researchers and is particularly well suited for use in graduate level research methods courses in writing studies and technical communications It is also ideal for use in other disciplines with strong qualitative methodology research programs including education **Writing Mathematically** Candia Morgan,2002-01-04 School mathematics curricula internationally tend to emphasise problem solving and have led to the development of opportunities for children to do maths in a more open creative way This has led to increased interest in performance based assessment which involves children in substantial production of written language to serve as evidence of their mathematical activity and achievement However this raises two important questions Firstly does this writing accurately present children s mathematical activity and ability Secondly do maths teachers have sufficient linguistic awareness to

support their students in developing skills and knowledge necessary for writing effectively in their subject area The author of this book takes a critical perspective on these questions and through an investigation of teachers readings and evaluations of coursework texts identifies the crucial issues affecting the accurate assessment of school mathematics *Re-writing Spatiality* Britta Kuhlenbeck,2010 The objective of this project is to encourage new ways of thinking about the meaning and significance of space It follows a desire that has been expressed and theorized by Henri Lefebvre and by extension Edward W Soja to remove Spatiality from the margin of the Trialectics of Being and to bring it into the Trialectics fold alongside with and of at least equal significance to Historicity and Sociality The thesis focuses on how space of the Pilbara region in Western Australia is produced in contemporary Australian writing film art and through lived experience The thesis argues for an understanding of space as essentially dynamic
