US-Japan-North Korea Security Relations Anthony DiFilippo,2013-03-01 This book examines the major security and related issues between the United States Japan and North Korea officially the Democratic People s Republic of Korea DPRK Although focusing mainly on current issues this book also provides sufficient historical background to enable readers to appreciate the many nuances that have been ignored by policymakers analysts and the media Where appropriate the book examines the security interests of other nations in Northeast Asia specifically South Korea China and Russia The central purpose of the book is to objectively analyze the policymaking processes of Washington Tokyo and Pyongyang with respect to

the DPRK's nuclear weapons and other important security issues and ultimately to provide practical ways to improve the security environment in Northeast Asia. Ongoing security related issues include nuclear missile testing by the DPRK, its removal from the U.S. list of states sponsoring terrorism and the abduction of Japanese nationals by North Korean agents that occurred during the 1970s and 1980s. Unlike other books which typically take the position that North Korea is a rogue state run by an irrational belligerent and autocratic leader, this book reveals the fundamentals of Pyongyang's security concerns in the region. This book will be of great interest to students of North East Asian politics, Asian security studies, US foreign policy and Security Studies, IR in general.

Seeing Stars Dennis J. Frost, 2020-03-17. In *Seeing Stars* Dennis J. Frost traces the emergence and evolution of sports celebrity in Japan from the seventeenth through the twenty-first centuries. Frost explores how various constituencies have repeatedly molded and deployed representations of individual athletes, revealing that sports stars are socially constructed phenomena, the products of both particular historical moments and broader discourses of celebrity. Drawing from media coverage, biographies, literary works, athletes' memoirs, bureaucratic memoranda, interviews, and films, Frost argues that the largely unquestioned mass of information about sports stars not only reflects but also shapes society and body culture. He examines the lives and times of star athletes, including sumo grand champion Hitachiyama, female Olympic medalist Hitomi Kinue, legendary pitcher Sawamura Eiji, and world champion boxer Gushiken Yoko, demonstrating how representations of such sports stars mediated Japan's emergence into the putatively universal realm of sports, unsettled orthodox notions of gender, facilitated wartime mobilization of physically fit men and women, and masked lingering inequalities in postwar Japanese society. As the first critical examination of the history of sports celebrity outside a Euro-American context, this book also sheds new light on the transnational forces at play in the production and impact of celebrity images and dispels misconceptions that sports stars in the non-West are mere imitations of their Western counterparts.

Sport in Films Emma Poulton, Martin Roderick, 2019-05-30. Sport offers everything a good story should have: heroes and villains, triumph and disaster, achievement and despair, tension and drama. Consequently, sport makes for a compelling film narrative, and films in turn are a vivid medium for sport. Yet despite its regularity as a central theme in motion pictures, constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries. In this collection, it is the critical study of film and its connections to sport that are examined. The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life. Among the themes and issues explored by the contributors are morality tales in which good triumphs over evil, the representation and ideological framing of social identities, including class

gender race and nationality The representation of key issues pertinent to sport including globalization politics commodification consumerism and violence The meanings spoken by films and the various readings which audiences make of them This is a timely collection that draws together a diverse range of accessible insightful and ground breaking new essays This book was published as a special issue of Sport in Society **Recent Japanese Philosophical Thought 1862-1994** Gino K. Piovesana,2013-12-16 Piovesana s famous survey is republished with an additional chapter by Naoshi Yamawaki to cover the intervening years up to 1994 It continues to be the only introduction to Japanese thinkers and philosophical thought covering the period of Japan s modern era Tourist ,1921 *Chinese International Relations Theory* Jonathan Ping,Anna Hayes,Brett McCormick,2025-05-05 This book explores how fundamental aspects of China s rapidly evolving arena of international relations theory are emerging directly from the realms of practice and policy As a unique explanation of the Chinese School by those actually making the decisions assisted and researched in collaboration with eminent global scholars the book guides the global reader through the building of Chinese international relations theory and how China may be accounted for behaviour predicted and useful policy developed With chapters examining critical issues such as Statecraft and party The Belt and Road Initiative Diplomacy and Security in the Asia Pacific China US relations The South China Sea This book will provide new theory to policy makers and prove an invaluable guide to students and scholars of Chinese politics international relations theory diplomacy global studies and international relations
