Segregated Sisterhood Racism And The Politics Of American Feminism:

Segregated Sisterhood Nancie Caraway,1991 *The Woman as Slave in Nineteenth-Century American Social Movements* Ana Stevenson,2020-02-03 This book is the first to develop a history of the analogy between woman and slave charting its changing meanings and enduring implications across the social movements of the long nineteenth century Looking beyond its foundations in the antislavery and women s rights movements this book examines the influence of the woman slave analogy in popular culture along with its use across the dress reform labor suffrage free love racial uplift and anti vice movements At once provocative and commonplace the woman slave analogy was used to exceptionally varied ends in the era of chattel slavery and slave emancipation Yet as this book reveals a more diverse assembly of reformers both accepted and embraced a woman as slave worldview than has previously been appreciated One of the most significant yet controversial rhetorical strategies in the history of feminism the legacy of the woman slave analogy continues to underpin the debates that shape feminist theory today *Third Wave Feminism* S. Gillis,G. Howie,R. Munford,2007-04-17 This revised and expanded edition new in paperback provides a definitive collection on the current period in feminism known by many as the third wave Three sections genealogies and generations locales and locations politics and popular culture interrogate the wave metaphor and through questioning the generational account of feminism indicate possible future trajectories for the feminist movement New to this edition are an interview with Luce Irigaray a foreword by Imelda Whelehan as well as newly commissioned chapters **Healing Identities** Cynthia Burack,2018-08-06 Group identifications famously pose the problem of destructive rhetoric and action against others Cynthia Burack brings together the theory work of women of color and the tools of psychoanalysis to examine the effects of group collaborations for social justice and progressive politics This juxtaposition illuminates some assumptions about race and equality encoded in psychoanalysis Burack s discursive analysis suggests the positive identity affirming aspects of group relational life for African American women One analytic response to groups emphasizes the dangers of these identifications and exhorts people to abandon or transcend them for their own good and for the good of others who may be harmed by group based forms of cultural or material violence Another response understands that people feel a need for group identifications and asks how they may be made more resistant to malignant group based discourse and action What can black feminist thought teach scholars and democratic citizens about groups Burack shows how the rhetoric of black feminism models reparative rather than destructive forms of group dialogue and action Although it may be impossible to eliminate group identifications that provide much of the impetus for bias and violence she argues we can encourage more progressive forms of leadership solidarity and coalition politics **The New Politics of Gender Equality** Judith Squires,2007-09-11 During the past decade governments around the globe have introduced institutional mechanisms to promote the advancement of women including measures to increase women s political participation rates and to incorporate women s interests into policy making Why have they done so How successful have

these initiatives been What are the emerging agendas facing gender equality advocates now In *The New Politics of Gender Equality* Judith Squires examines the origins evolution and key features of three strategies that have been employed across the world in pursuit of gender equality quotas policy agencies and gender mainstreaming The author critically examines each strategy to see how far they transform political institutions and agendas and to what extent they lead rather to the assimilation of women in male defined structures Squires argues that a multi pronged approach drawing on democratic rather than technocratic strategies offers the best potential for advancing gender equality She highlights too the limitations of approaches that ignore inequalities among women and the challenges of developing equality initiatives to address multiple and cross cutting inequalities between groups Judith Squires is Professor of Political Theory University of Bristol She has written researched and published widely in the field of gender politics and gender equality

Women and the Holy City Lihi Ben Shitrit, 2020-10-22 Jerusalem's Temple Mount al Haram al Sharif is the holiest place in the world for Jews the third holiest place for Muslims and a constant feature in the Israeli Palestinian conflict Yet the gendered dimensions of inter communal disputes over sacred space in Jerusalem as well as in other holy places around the world have been largely neglected as have women's roles in these site specific conflicts An implicit association of women with peaceful politics and syncretic religious practices has obscured the fact that women are often key actors in inter communal contestation of holy places This study looks to three contemporary women's movements in and around Jerusalem's Sacred Esplanade Women for the Temple a Jewish Orthodox movement for access to Temple Mount The Murabitat Muslim women activists devoted to the protection of Al Aqsa Mosque from Jewish claims and Women of the Wall a Jewish feminist mobilization against restrictive gender regulations at the Western Wall Lihi Ben Shitrit demonstrates how attention to gender and to women's engagement in conflict over sacred places is essential for understanding what makes contested sacred sites increasingly indivisible for parties in the inter communal context

Race, Gender, and Culture in International Relations Randolph B. Persaud, Alina Sajed, 2018-03-05 International relations theory has broadened out considerably since the end of the Cold War. Topics and issues once deemed irrelevant to the discipline have been systematically drawn into the debate and great strides have been made in the areas of culture, identity, race, and gender in the discipline. However, despite these major developments over the last two decades, currently there are no comprehensive textbooks that deal with race, gender, and culture in IR from a postcolonial perspective. This textbook fills this important gap. Persaud and Sajed have drawn together an outstanding lineup of scholars with each chapter illustrating the ways these specific lenses race, gender, culture condition or alter our assumptions about world politics. This book covers a wide range of topics including war, global inequality, postcolonialism, nation, nationalism, indigeneity, sexuality, celebrity, humanitarianism, and religion. It follows a clear structure with each chapter situating the topic within IR, reviewing the main approaches and debates surrounding the topic, and illustrating the subject matter through case studies, features, pedagogical tools, and resources in every chapter. Boxes highlight major points, illustrative narratives, and a list of suggested readings. Drawing together prominent scholars in critical International Relations, this work shows why and how race, gender, and culture matter and will be essential reading for all students of global politics and International Relations theory.

Rethinking the Color Line Charles A. Gallagher, 2022-01-20 *Rethinking the Color Line* helps make sense of how race and ethnicity influence aspects of social life in ways that are often made invisible by culture, politics, and economics. Charles A. Gallagher has assembled a collection of readings that are theoretically informed and empirically grounded to explain the dynamics of race and ethnicity in the United States. Students will be equipped to confidently navigate the issues of race and ethnicity, examine its contradictions, and gain a comprehensive understanding of how race and ethnic relations are embedded in the institutions that structure their lives. User-friendly without sacrificing intellectual or theoretical rigor, the Seventh Edition has been thoroughly updated to reflect the current debates and the state of contemporary U.S. race relations.

Women at the Polls Cal Clark, Janet Clark, 2009-03-26 Since 1980, most elections in the United States have been marked by a gender gap in which women are more supportive of Democratic candidates than men by nearly ten percentage points. *Women at the Polls* finds that this gender gap is quite extensive as it exists in almost all demographic groups and as it is based on similar differences in the political attitudes of women and men over a wide array of issues. This suggests that women are becoming an important constituency in U.S. politics.
