## **Seianti Hanunia Tlesnasa:**

Seianti Hanunia Tlesnasa Judith Swaddling, John Prag, 2002 The magnificent painted terracotta sarcophagus of the Etruscan noblewoman Seianti Hanunia Tlesnasa has for well over a century been a star exhibit at the British Museum but it is only in relatively recent times that attention has turned to the skeleton found within which appears to be the best preserved Etruscan skeleton now in existence The initial aim of the research was to reconstruct the face of Seianti using the techniques of forensic medicine in order to compare it with that of the reclining full sized image of the dead woman on the sarcophagus lid This already yielded striking information about the Etruscans as the initiators of realistic portraiture we believe this to be the first proven identifiable portrait in western art Other avenues opened up allowing the researchers to discover fascinating facts about Seianti's health and dental problems her lifestyle her age at death and an accident in her teens that had far reaching consequences The pathologists findings have offered evidence for Etruscan mortuary practices hitherto unparalleled Consideration of the silver tomb goods the jewellery worn by Seianti and the radiocarbon dating of the bones has indicated a dating of the burial earlier in the Hellenistic period than previously accepted The construction of the sarcophagus itself a remarkable feat of firing and the techniques of its decoration form the subject of other papers while the circumstances of the find in 1876 the archaeology and evidence about the Seianti family are discussed in detail A brief survey of the Etruscans and events contemporary with Seianti's lifetime help to set the burial in its ancient context

#### **Prostheses in Antiquity**

Jane Draycott, 2018-09-03 Today a prosthesis is an artificial device that replaces a missing body part generally designed and assembled according to the individual's appearance and functional needs with a view to being both as unobtrusive and as useful as possible In classical antiquity however this was not necessarily the case The ancient literary and documentary evidence for prostheses and prosthesis use is contradictory and the bioarchaeological and archaeological evidence is enigmatic but discretion and utility were not necessarily priorities So when how and why did individuals utilise them This volume the first to explore prostheses and prosthesis use in classical antiquity seeks to answer these questions and will be of interest to academics and students with specialist interests in classical archaeology ancient history and history especially those engaged in studies of healing medical and surgical practices or impairment and disability in past societies

**The Etruscans and the History of Dentistry** Marshall J. Becker, Jean MacIntosh Turfa, 2017-02-17 The Etruscans and the History of Dentistry offers a study of the construction and use of gold dental appliances in ancient Etruscan culture and their place within the framework of a general history of dentistry with special emphasis on appliances from Bronze Age Mesopotamia and Egypt to modern Europe and the Americas Included are many of the ancient literary sources that refer to dentistry or the lack thereof in Greece and Rome as well as the archaeological evidence of ancient dental health The book challenges many past works in exposing modern scholars' fallacies about ancient dentistry while presenting the incontrovertible evidence of the Etruscans seemingly modern attitudes to cosmetic dentistry

**Death** Mario Erasmo, 2021-03-25 Personal and yet utterly universal inevitable and yet unknowable death has been a dominant theme in all cultures since earliest times Different societies address death and the act of dying in culturally diverse ways yet remarkably across the span of several millennia we can recognize in the customs of ancient Greece and Rome ceremonies and rituals that have enduring present day resonance For example preparing the corpse of the deceased holding a memorial service the practice of cremation and of burial in resting places are all liminal processes that can trace their origin to ancient practices Such rites described by Cicero and Herodotus among others have defined traditional modern funerals Yet of late there has been a shift away from classical ritual and sombre memorialization as the dead are transformed into spectacles Ad hoc roadside shrines virtual burials online guest books and even jazz memorial processions and firework displays have come to the fore as new modes of marking even celebrating bereavement What is causing this change and how do urbanisation economic factors and the rise of individualism play a part Mario Erasmo creatively explores the nexus between classical and contemporary approaches to dying death and interment From theme funerals in St Louis to Etruscan sarcophagi he offers a rich and insightful discussion of finitude across the ages

**A Companion to the Etruscans** Sinclair Bell, Alexandra A. Carpino, 2016-02-23 This new collection presents a rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the *obesus etruscus* the function and use of jewelry at different life stages Greek and Roman *topoi* about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity

**The Peoples of Ancient Italy** Gary D. Farney, Guy Bradley, 2017-11-20 Although there are many studies of certain individual Italic groups e g the Etruscans Gauls and Latins there is no work that takes a comprehensive view of each of them the famous and the less well known that existed in Iron Age and Roman Italy Moreover many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them This handbook is conceived of as a resource for archaeologists historians philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable early Iron Age in most instances down to the time when they begin to assimilate into

the Roman state in the late Republican or early Imperial period As such it will endeavor to include both archaeological and historical perspectives on each group with contributions from the best known or up and coming archaeologists and historians for these peoples and topics The language of the volume is English but scholars from around the world have contributed to it This volume covers the ancient peoples of Italy more comprehensively in individual chapters and it is also distinct because it has a thematic section

**Historical Dictionary of the Etruscans** Simon K.F. Stoddart, 2009-06-16 The Etruscans were the creators of one of the most highly developed cultures of the pre Roman Era Having at one time control over a significant part of the Mediterranean the Etruscans laid the foundation of the city of Rome They had their own language which has never been totally decoded and their art influenced such artists as Michelangelo While the Etruscans were eventually conquered by the Romans they left a rich culture behind The Historical Dictionary of the Etruscans relates the history of this culture focusing on aspects of their material culture and art history A chronology introductory essay bibliography appendix of museums and research institutes and hundreds of cross referenced dictionary entries on important persons places events and institutions provide an entry into a comparative study of the Etruscans

[A Short History of the Etruscans](#) Corinna Riva, 2020-12-10 Of all civilizations of the ancient Mediterranean it is perhaps the Etruscans who hold the greatest allure This is fundamentally because unlike their Greek and Latin neighbours the Etruscans left no textual sources to posterity The only direct evidence for studying them and for understanding their culture is the archaeological and to a much lesser extent epigraphic record The Etruscans must therefore be approached as if they were a prehistoric people and the enormous wealth of Etruscan visual and material culture must speak for them Yet they offer glimpses in the record left by Greek and Roman authors that they were literate and far from primordial indeed that their written histories were greatly admired by the Romans themselves Applying fresh archaeological discoveries and new insights A Short History of the Etruscans engagingly conducts the reader through the birth growth and demise of this fascinating and enigmatic ancient people whose nemesis was the growing power of Rome Exploring the discovery of the Etruscans from the Renaissance onwards Corinna Riva discusses the mysterious Etruscan language which long remained wholly indecipherable the Etruscan landscape the 6th century growth of Etruscan cities and Mediterranean trade Close attention is also paid to religion and ritual sanctuaries and monumental grave sites and the fatal incorporation of Etruria into Rome s political orbit

**Human** Amanda Rees, Charlotte Sleight, 2020-05-11 What does it mean to be human And what if anything does it have to do with being a member of the animal species Homo sapiens This dazzling book gets to the very heart of our rather unscientific motivations and prejudices showing how they are of great use in resolving the world s biggest problems From beasts to aliens this book explores widely discussed but often problematic links between humans and six other beings tackling deep philosophical questions including humanity s common purpose life s meaning and what it means to be accepted as part of a community Global in its outlook and illustrated with stunning pictures Human is a powerful funny and iconoclastic antidote to post humanism
