Virgin Martyrs Karen A. Winstead, 2018-05-31 Stories of the torture and execution of beautiful Christian women first appeared in late antiquity and proliferated during the early Middle Ages A thousand years later virgin martyrs were still the most popular female saints Their legends in countless retellings through the centuries preserved a standard plot the heroine resists a pagan suitor endures cruelties inflicted by her rejected lover or outraged family works miracles and dies for Christ That sequence was embellished by incidents emblematic of the specific saint Juliana's battle with the devil Barbara's immurement in the tower Katherine's encounter with spiked wheels Karen A Winstead examines this seemingly static story form and discovers subtle shifts in the representation of the virgin martyrs as their legends were adapted for changing audiences in late medieval England

Women in Christianity in the Medieval Age Laura Kalas, Roberta Magnani, 2024-12-10 This volume offers a comprehensive introduction to and investigation of the multivocality of women's experience in the Middle Ages In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve Mary Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated Towards the end of the Middle Ages however women's corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross This shift in devotional practices afforded women as bodily beings the space for an increased level of self expression self realisation and authority Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender Whilst expounding the key strands of thinking in the field it engages with and contributes to some of the latest scholarly research

Women and Devotional Literature in the Middle Ages Cate Gunn, Liz Herbert McAvoy, Naoë Kukita Yoshikawa, 2023 Essays on women and devotional literature in the Middle Ages in commemoration and celebration of the respected feminist scholar Catherine Innes Parker Silence was a much lauded concept in the Middle Ages particularly in the

context of religious literature directed at women Based on the Pauline prescription that women should neither preach nor teach and should at all times keep speech to a minimum the concept of silence lay at the forefront of many devotional texts particularly those associated with various forms of women s religious enclosure Following the example of the Virgin Mary religious women were exhorted to speak seldom and then only seriously and devoutly However as this volume shows such gendered exhortations to silence were often more rhetorical than literal The contributions range widely they consider the English Wooing Group texts and female authored visionary writings from the Saxon nunnery of Helfta in the thirteenth century works by Richard Rolle and the Dutch mystic Jan van Ruusbroec in the fourteenth century Anglo French treatises and books housed in the library of the English noblewoman Cecily Neville in the fifteenth century and the resonant poetics of women from non Christian cultures But all demonstrate the ways in which silence rather than being a mere absence of speech frequently comprised a form of gendered articulation and proto feminist point of resistance They thus provide an apt commemoration and celebration of the deeply innovative work of Catherine Innes Parker 1956-2019 the respected feminist scholar and a pioneer of this important field of study

Middle English Legends of Women Saints Martha G Blalock, Wendy R Larson, Sherry L Reames, 2003-03-01 Middle English Legends of Women Saints presents a collection of saints Lives intended to suggest the diversity of possibilities beneath the supposedly fixed and predictable surfaces of the legends using multiple retellings of the same legend to illustrate that medieval readers and listeners did not just passively receive saints legends but continually and actively appropriated them The collection opens with legends about two royal or supposedly royal women Frideswide and Mary Magdalen and continues with those of three popular virgin martyrs Margaret of Antioch Christina of Tyre and Katherine of Alexandria The final portion of the collection is devoted to St Anne mother of the Virgin Mary The collection includes a number of relatively unknown texts that have not appeared in print since Horstmann s transcriptions in the nineteenth century and a few that have never before been published
