## **Sekem A Sustainable Community In The Egyptian Desert:**

**Sekem** Ibrahim Abouleish, 2005 The Egyptian desert can be a hostile place Yet in 1977 Dr Ibrahim Abouleish founded a new agricultural and social settlement on seventy hectares of desert land in Belbes 60 km north east of Cairo The Sekem initiative was born Dr Abouleish's goals were to build a new type of community His vision was for a farm which grew biodynamic crops and plants out of the harsh desert sand Where the workers and residents were given holistic primary health care Where their children were well educated in the sciences A place which could sell its wares and be self sufficient and self sustaining A place where Islamic religion and Western technology could come together in harmony Nearly thirty years later and Sekem has gone from strength to strength In 1981 it shipped its first medicinal herbs to the USA by 2004 it oversaw a network of over 800 farms across Egypt and the Sudan producing high quality organic crops herbs fruits and vegetables Its mobile health units work with local rural populations and it has brought about real social change This is the story of Sekem the original vision the challenges and hard work and the eventual successes in Ibrahim Abouleish's own words Stunningly illustrated with colour photographs throughout **The Sekem Effect** HELMY. ARLT ABOULEISH (CHRISTINE.), Christine Arlt, 2025-05-29

When Dr Ibrahim Abouleish founded Sekem in 1977 his visionary aim was to create a new kind of sustainable community in the Egyptian desert where high quality biodynamic crops were grown where workers and residents received holistic healthcare and their children received a meaningful education In the years since Sekem has gone from strength to strength building an impressive network of farms across Egypt and Sudan and working with local populations to bring about real social change In this inspiring book Helmy Abouleish son of Dr Abouleish and Chief Executive of Sekem alongside Christine Arlt describes the next stage in the development of this innovative community Through a series of pioneering projects they set out their vision for an integrated transformation of Egyptian society in the coming decades in areas relating to ecology economics culture and social transformation Among them the provision of holistic education that recognises the potential of each person the promotion of sustainable agriculture and renewable energy to help Egypt become climate neutral the development of a recycling economy based on responsible consumption and a sustainable lifestyle a celebration of diversity that ensures equal opportunities for all Through its practical efforts Sekem and its community demonstrates how people the world over can feel empowered to shape their own society and develop confidence in the future

**Urban Narratives: Exploring Identity, Heritage, and Sustainable Development in Cities** Mohd Fairuz Shahidan, Gasim Hayder Ahmed Salih, Alessio Cardaci, Israa Hanafi Mahmoud, 2024-03-19 This book engages readers in an enlightening exploration of cities identities sustainability and urban development Delving into the intricate interplay between art architecture and the urban landscape it offers a compelling analysis of the factors that shape cities and their distinct personalities The volume uncovers captivating stories of cities as they navigate the delicate balance between heritage conservation and modernity It highlights innovative strategies employed to preserve historical sites while adapting to the

demands of a rapidly changing world Full of insightful discussions on the impact of cultural lifestyles the fusion of architectural styles and the challenges and triumphs of sustainable urban development it draws upon a diverse range of perspectives and research inviting architects urban planners and scholars to delve into the intricate nuances of cities identities in the process With its informative and engaging narrative this book provides a fresh perspective on cities identities and offers practical insights into shaping vibrant livable urban landscapes Religion and Sustainable Agriculture Todd LeVasseur, Pramod Parajuli, Norman Wirzba, 2016-10-21 Distinct practices of eating are at the heart of many of the world's faith traditions from the Christian Eucharist to Muslim customs of fasting during Ramadan to the vegetarianism and asceticism practiced by some followers of Hinduism and Buddhism What we eat how we eat and whom we eat with can express our core values and religious devotion more clearly than verbal piety In this wide ranging collection eminent scholars theologians activists and lay farmers illuminate how religious beliefs influence and are influenced by the values and practices of sustainable agriculture Together they analyze a multitude of agricultural practices for their contributions to healthy ethical living and environmental justice Throughout the contributors address current critical issues including global trade agreements indigenous rights to land and seed and the effects of postcolonialism on farming and industry Covering indigenous Buddhist Hindu Christian Muslim and Jewish perspectives this groundbreaking volume makes a significant contribution to the study of ethics and agriculture Eco-Alchemy Dan McKanan, 2018 For nearly a century the worldwide anthroposophical movement has been a catalyst for environmental activism helping to bring to life many modern ecological practices such as organic farming community supported agriculture and green banking Yet the spiritual practice of anthroposophy remains unknown to most environmentalists A historical and ethnographic study of the environmental movement Eco Alchemy uncovers for the first time the profound influences of anthroposophy and its founder Rudolf Steiner whose holistic worldview rooted in esoteric spirituality inspired the movement Dan McKanan shows that environmentalism is itself a complex ecosystem and that it would not be as diverse or transformative without the contributions of anthroposophy

**Islam and Sustainable Development** Odeh Rashed Al-Jayyousi, 2016-05-06 In Islam and Sustainable Development Odeh Al Jayyousi addresses the social human and economic dimensions of sustainability from an Islamic perspective Islam is sometimes viewed as a challenge threat and risk to the West but here we are reminded that the celebration of cultural diversity is a key component in Islamic values Promoting common understanding between East and West this American educated Middle Eastern based author offers something broader and deeper than conventional Western ways of thinking about sustainability and presents new insights inspired by Islamic worldviews Drawing on his roles as both academic researcher and senior development practitioner Professor Al Jayyousi applies his deep understanding of Islamic values to contemporary environmental financial and social conflicts and crises and defines a framework for sustainability embracing local regional and global perspectives He also addresses how education might produce innovation knowledge creation and

development to support a new paradigm for sustainability that re defines what constitutes good life beyond consumerism and the production of waste This book will interest policy makers development and donor communities funding agencies and banks in the Islamic World and beyond as well as those with a professional interest in planning and in environmental and conservation issues Scholars of Islamic and Middle Eastern studies and more broadly those with an academic interest in cultural and religious studies will find that this book in Gower s Transformation and Innovation Series is perhaps the most substantial work yet on sustainable development from an Islamic perspective **Integral Economics** Ronnie

Lessem,Alexander Schieffer,2016-05-23 Why on earth is economics perceived to come in only one or at best two different a cultural if not a moral guises There are real and many alternatives to the economic mainstream The trouble is of course that they are hidden from us In Integral Economics Ronnie Lessem and Alexander Schieffer pave the way for a sustainable approach to economics building on the richness of diverse economic approaches from all over the globe By introducing the most evolved economic perspectives and bringing them into creative dialogue they argue that neither individual enterprises nor wider society will be transformed for the better without a new economic perspective Here they introduce a comprehensive framework based on the same Four Worlds model that is applied to enterprise and research in their earlier works Given the richness of even mainstream economic theory reviewed in this book let alone the variety of alternative approaches introduced it is frustrating that policymakers and business practitioners are impoverished by a lack of apparent economic choice between a seemingly failing capitalism and an already failed communism The villains of the piece in relation to this lack of choice are not so much the financial community and governments though they do have much to answer but the schools of economics and the business schools that have created the very social ethos the philosophical principles and the mathematical models that influence events Integral Economics is partly addressed to academics and students in those very schools who have either realized the error of their ways or less dramatically are curious to explore whether our businesses and communities could be run in a different way It will be welcomed by informed senior practitioners eager to understand the current rethink of economic theory and practice and to discover how to position themselves their organizations and their society within a new framework **Integral Community** Mr Paul Chidara Muchineripi,Mr Steve Kada,Professor Ronnie

Lessem,2013-01-28 Integral Community moves the transformation journey for enterprises and society on from the stages covered in earlier books in Gower s Transformation and Innovation Series which describe a new macro economic framework and which have examined alternative development with different local communities bringing wide cultural perspectives to practical implementation of authentic or integral development Here the authors argue that there are two major fields of force prevailing in today s world The one reflects our common heritage whereby East and West North and South are coming ever closer together the global commons The other reflects local and national singularity where the notion of feeding off ancient local heritage and talent is key They also identify four different culturally laden worldviews as Southern humanistic Eastern

holistic Northern rational and Western pragmatic The enterprise and social innovation in Africa with which Lessem s co authors are involved provides an object lesson in the sort of differentiation and integration needed in order to operate socio economically with local identity and global integrity It provides in this case a Southern worldview background against which to examine communally based self sufficiency culturally based developmental economy knowledge based social economy and finally the move towards what the authors describe as a living economy All illustrated through a rural case Chinyika with which they have been intimately involved whereby 100 000 have become self sufficient over the past five years Integral Community should be read by academics and students of business economics development studies and agriculture and by policy makers particularly those concerned with the developing world in general and Africa in particular Egypt's Strategy to Meet the Sustainable Development Goals and Agenda 2030: Researchers' Contributions El-Sayed E. Omran, Abdelazim M. Negm, 2023-02-01 This book focuses on Egypt as a representative example of emerging economies struggling to achieve their sustainable development goals SDGs The Egyptian government has launched Egypt s Vision 2030 in line with the 2030 Agenda also known as the Sustainable Development Strategy SDS which encompasses the economic social and environmental dimensions of development It is under the SDS that all development plans in Egypt are incorporated while at the same time being strongly guided by the SDGs Aware of the principle of shared but differentiated responsibility Egypt also recognizes that fundamental challenges remain despite a strong willingness to achieve the SDGs High birth rates brain drain phenomena water scarcity migration discrimination against women and girls a growing informal sector and instability in neighboring states especially Libya and Syria are only some of the many hindrances to sustainable development In order to address these challenges Egypt relies heavily on the SDGs which are aimed at transforming our world Although there is an urgent need for a drastic change in the way we use the Earth the question arises as to whether the SDGs are sufficient to facilitate such a transformation This book explores the key environmentally related Sustainable Development Goals SDGs and offers a cutting edge assessment of current progress with a view to reaching these objectives by 2030 The book highlights some of the key findings and ideas for how research may help achieve the 17 Sustainable Development Goals in enterprises The book provides a useful framework that can help and aid the Egyptian government to assess the many goals and targets outlined in the 2030 Agenda The analysis of Egypt can be used as a blueprint for other developing nations and globally in order to guide policy toward achieving the SDGs Covering food security water resilience climate change agronomics rural life environmental impact assessment as a tool for measuring the achievement of the goals Egyptian education the COVID 19 pandemic cultural and societal dimensions this book will be of great interest to students and scholars of sustainable development and climate change as well as practitioners and policymakers involved in sustainable development and disaster management Embodying Integral Development Ronnie Lessem, 2017-03-31 Chapter 10 Emerging organizational learning and development Introduction grounding individual enterprise and societal renewal MedLabs an unfolding enterprise story

*Nhakanomics: Harvesting Knowledge and Value for Re-generation Through Social Innovation* Ronnie Lessem, Munyaradzi Mawere, 2019-08-02 Nhakanomics Harvesting Knowledge and Value for Re generation Through Social Innovation is a radical departure from the commonly held belief that neo liberal economics from the US and the West is universal and is the only solution to underdevelopment and poverty throughout the world Instead the book teases out and theorises the intellectually rutted terrain of development studies and neo liberal economics from a decolonial Pan Africanist perspective Following a path of social innovation with perspectives drawn from social anthropology economics and business and management studies Nhakanomics is a unique socio economic approach applicable in the Global South and in Southern Africa in particular The study argues that the process and substance of nhakanomics with its pre emphasis on the relational South provides a robust and holistic approach to social innovation and social transformation grounded in relational networks and meshworks The central idea is a call to re GENE rate society through local Grounding and Origination and tapping into local global Emergent Foundations via a newly global Emancipatory Navigation while ultimately culminating in global local transformative Effects in four recursive cycles of re GENE rating C K umusha Culture Communication and Capital after re Constituting Africa the 5Cs With a novel and radical approach the book is an interrogation of neo liberal economics in the Global South As such this book is remarkably handy to students and practitioners in the fields of economics development studies political science science and technology studies business management sociology transformation studies and development related non Governmental Organisations working with grassroots communities

Integral Dynamics Ronnie Lessem, Alexander Schieffer, Samuel D. Rima, 2016-05-23 The theory of integral dynamics is based on the view that the development of individual leaders or entrepreneurs requires the simultaneous development of institutions and societies It seeks a specific way forward for each society fundamentally different from but drawing on its past Nearly every natural

science has been transformed from an analytically based approach to a dynamic one now it is time for society and culture to follow suit locally and globally Each culture discipline and person is incomplete and is in need of others in order to develop and evolve This book sets out a curriculum for a new integral trans cultural and trans disciplinary area of study inclusive of but extending beyond economics and enterprise It embraces a trans personal perspective linking self with community enterprise and society and focusing on the vital relationship between local identity and global integrity For the government policy maker the enlightened business practitioner and the student and researcher into economics and enterprise the new discipline is set out here in complete detail by a multi national team of Gower s Transformation and Innovation Series authors Illuminated with examples relating the conceptual to the practical this is a text not for a pre modern modern or even post modern era but for what has been called our trans modern age

**Profits and Sustainability** Geoffrey Jones, 2018-01-26 Are profits and sustainability compatible This book brings unique perspectives to this key debate by exploring the history of green entrepreneurship since the nineteenth century and its spread globally in industries including renewable energy organic food natural beauty ecotourism recycling architecture and finance The book uses the lens of the extraordinary and often eccentric men and women who defied convention and imagined that business could help save the planet rather than consume it The social and religious beliefs that drove many of these individuals are explored as the book looks at how they overcame huge obstacles to execute their

strategies The green entrepreneurs seen here are shown to have created new markets and industries and driven innovations in sustainable practices even at times when most consumers and governments marginalized the entire subject The struggles of early pioneers appear to have been rewarded by the growth of environmental awareness among consumers business leaders and others in recent years but the Earth's environmental health continues to deteriorate If profits and sustainability have proved challenging to reconcile the book argues that one reason was how they were both defined

**Innovation Driven Institutional Research** Ronnie Lessem, 2017-03-16 This is the third volume in the CARE ing for Integral Development series It continues to build on the previous two works Community Activation and Awakening Integral Consciousness as well as preceding the fourth and final book Embodying Integral Development This book serves as a follow up to the author's approach to integral research and development economics and enterprise contained within the Innovation and Transformation series and as a focus for how put all of this CARE fully to work This third volume in the CARE quartet is perhaps the most crucial one building on the organizational systems see Awakening Integral Consciousness that came before and turning from trans cultural and transformational to trans disciplinary from integral reality and integral rhythm to integral realms with a view ultimately to transpersonal integral rounds The author turns his attention to research and innovation and then focuses in on enterprise and economics management and leadership As such he introduces his Inter Institutional Genealogy in place of an integral yet still inhibiting university In the process this book paves the way for a new kind of institutionalized innovation driven social research which while rooted in a particular place speaks to the world as a whole Moreover such a research and innovation institution has a fundamental role to play in the evolution of a specific community building on what has come CARE wise before

**Digging Deeper** Dietmar Sternad, James J. Kennelly, Finbarr Bradley, 2017-09-08 What is the primary purpose of business The standard answer is making profits but some visionary entrepreneurs and leaders fundamentally disagree Instead of just making money they choose instead to dig deeper and make a difference through creating real value improving the lives of others even as they find deeper meaning in their own These leaders build enterprises that provide identity and a sense of purpose create positive relationships and a place to learn and thrive embed sustainability in all that they do and strive to improve the quality of life of all of their stakeholders Although not their primary focus they also make healthy profits as their unique approach to value creation provides them with a sustainable competitive edge Digging Deeper is a book full of inspiring stories that illustrate that there is an alternative to a myopic and narrow capitalism that trades in inequalities exploitation collective burnout and negative consequences for our shared natural environment Remarkable examples from all over the world vividly demonstrate how enterprises can create real value through focusing on what the authors call the 6 Ls long term orientation lasting relationships local roots limits recognition developing a learning community and taking leadership responsibility seriously in its very best sense Digging Deeper liberates the term value from the tight chains in which the global financial community has bound it and demonstrates

that businesses can contribute to a better life for all if their leaders can go beyond viewing enterprises as single purpose money making machines and develop purpose driven enterprises that create real value for all **Fool's Gold?** L.

Sargisson,2012-07-17 What s wrong with the world today and how might it become better or worse These are the questions pursued in this book which explores the hopes and fears dreams and nightmares of the 21st century Through architecture fiction theory film and experiments with everyday life Sargisson explores contemporary hopes and fears about the future

**Science, Technology and Society** Giampietro Gobo,Valentina Marcheselli,2023-01-09 Science Technology and Society An Introduction provides students with an accessible overview of the interdisciplinary field of Science and Technology Studies STS The discipline breaks down traditional conceptions of knowledge as universal neutral and ahistorical and takes a more critical approach to science and technology as social embedded phenomena This comprehensive textbook makes use of unique examples and case studies to illustrate theoretical debates and concepts In addition the reader acquires a unique vision of contemporary issues such as the power of algorithms the mystification of fake news the role of experts within the decision making process for example Each chapter incorporates pedagogically rich features including interactive discussion points to be used individually or in class as prompts for debate Spiritual Capital Samuel D. Rima,2020-07-26 Presenting a thorough comprehensive theory of spiritual capital based on solid academic research Spiritual Capital serves to reinforce and amplify the notion of a moral economic core that is beginning to feature in contemporary economic arguments In this rare major work wholly dedicated to the subject of spiritual capital Sam Rima explains the desperate need for revolutionary and transformational thinking in the area of economic policy and practice and makes the case for a new moral foundation to business and economics that directly addresses today s financial and business crisis Writing in an accessible style and drawing on examples from several continents Rima explains spiritual capital theory in terms of the resources needed for its creation how it is formed how it can be invested and what the return on investment can be The book provides practical tools for measuring a personal or organizational store of spiritual capital along with clear guidelines on how to engage in spiritual capital formation These will benefit business leaders interested in developing viable and sustainable enterprises capable of avoiding the disconnection between economic policy and social reality There are also recommendations here for policy makers regarding the macro application of spiritual capital theory This important contribution to Gower s Transformation and Innovation Series will appeal to business leaders and policy makers academicians and students in the fields of sociology theology and economics and anyone interested in social and economic justice issues social innovation and corporate social responsibility
