## **Selected Essays Of Gottfried Haberler:**

**Selected Essays of Gottfried Haberler** Gottfried Haberler, 1985 Gottfried Haberler's contributions to the field of international trade and finance began in the 1920s with a seminal paper on comparative costs. His continuing contributions to open economy analysis, development, business cycles, and inflation, the theory of money, and rational expectations are highlighted in this selection of 27 essays spanning the years 1925 to 1980. The essays are divided into five major sections representing the subdisciplines of Haberler's most significant work. The first section on international trade contains his work on comparative costs, comparative advantage, and the location of production and international trade. A section on international finance deals with the state of the international monetary system under conditions of world recession, control over international reserves, U.S. balance of payments policy, currency depreciation, and the terms of trade and transfer and price movements. The topic of inflation and business cycles is covered in the third section with essays on income policies, stagflation, and the Great Depression, and the international transmission of inflation. Section four deals with economic development, and the concluding section contains essays on the theory of money and general macroeconomic theory. Several articles are translated here for the first time, and there is a complete bibliography of Haberler's work up to 1980. Gottfried Haberler is Professor Emeritus of Economics, Harvard University, and Resident Scholar at the American Enterprise Institute. Anthony Koo is Professor of Economics at Michigan State University.

**The Palgrave Companion to Harvard Economics** Robert A. Cord, 2024-07-05 Harvard University has been and continues to be one of the most important global centres for economics. With three chapters on themes in Harvard economics and 41 chapters on the lives and work of Harvard economists, these two volumes show how economics became established at the University, how it produced some of the world's best known economists including Joseph Schumpeter, Wassily Leontief, and John Kenneth Galbraith, and how it remains a global force for the very best in teaching and research in economics. With original contributions from a stellar cast, the volumes provide economists, especially those interested in macroeconomics and the history of economic thought, with an in-depth analysis of Harvard economics.

The Canon in the History of Economics Michalis Psalidopoulos, 2000-03-09 The construction and the role of the economic canon, the accepted list of great works and great authors, has been the subject of much recent literary and historical debate. By contrast, the concept of the canon has been largely dormant in the study of the history of economics, with the canonical sequence of Smith, Ricardo, Marx, etc. constituting it.

The Open Economy Macromodel: Past, Present and Future Arie Arnon, Warren Young, 2012-12-06 The impetus for the conference that was the basis for this volume emanated from the influence of two brilliant minds, Egon Sohmen and Adam Klug, who both died at an early age, leaving their families and the professions of economics and economic history with major voids. In the course of research on the origins of Open Economy Macroeconomics, the significant contributions of Egon Sohmen came to the fore. After correspondence with some of those involved in the early development of the Open Economy Macromodel, we turned to

Adam Klug for his views on the matter as he had dealt with the history of intertemporal trade models in his Ph D thesis And it was Adam who suggested the idea of a conference bringing together economists and economic historians At this point we want to acknowledge the very generous grant from the Egon Sohmen Foundation and the active participation of Dr Helmut Sohmen and Mrs Renee Sohmen at the conference We also want to thank Prof Sir Aaron Klug Nobel Laureate and the Klug family for their support and the financial contribution of the Adam Klug Memorial Lecture Fund at Ben Gurion University Other institutions that contributed to the conference were the Gianni Foundation Bank of Israel University of North Carolina Department of Economics Faculty of Social Science and Aharon Meir Center for Banking Bar Ilan University Department of Economics and Faculty of Social Science Ben Gurion University of the Negev
