Sex Trafficking Kimberly A. McCabe, Sabita Manian, 2010-04-12

Global estimates of human trafficking range from 600 000 to four million victims each year with the majority being victims of sex trafficking This strikingly large range belies the difficulty in gathering defining and accountability of sex trafficking data Victims of sex trafficking may be forced into pornography prostitution for the military or militia spousal prostitution and prostitution for the sex tourism industry In response to the problem of sex trafficking many nations have either misunderstood the definition or failed to comprehend the magnitude that have occurs within their borders The United Nations has defined human trafficking as the recruitment transfer harboring or receipt of persons by threat or use of force Similarly the U S State Department s Trafficking Victims Protection Act 2000 describes severe forms of trafficking as a sex trafficking in which a commercial sex act is induced by force fraud or coercion or in which the person induced to perform such an act has not attained 18 years of age or b the recruitment harboring transportation provision or obtaining of a person for labor or services through the use of force fraud or coercion for the purpose of subjection to involuntary servitude peonage debt bondage or slavery In *Sex Trafficking A Global Perspective* sex trafficking is discussed in terms of its multiple purposes and its victims The essays provide information to build upon the limited knowledge base on the subject of sex trafficking and the legislative responses to human trafficking by the various highlighted countries This collection is unique because it serves the needs of those studying human trafficking from a global perspective by targeting the issue within every geographic region it provides a general profile of geographic regions in terms of demographic characteristics and political conditions that may support the growth of sex trafficking and it is written on a basic information supply level to provide readers with a fo

Trafficked Children and Youth in the United States Elzbieta M. Gozdzia, 2016-05-10

Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in *Trafficked Children in the United States* the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers In many instances parents or smugglers paid by family members brought the girls to the U S Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities Following them from the time they were trafficked to their years as young adults Gozdzia gives the children a voice so they can offer their own perspective on rebuilding their lives getting jobs learning English developing friendships and finding love Gozdzia looks too at how the children s perspectives compare to the ideas of child welfare programs noting that the children focus on survival techniques while the institutions focus not helpfully on

vulnerability and pathology Gozdziaak concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked children Breaking new ground Trafficked Children in the United States offers a fresh take on what matters most to these young people as they rebuild their lives in America

Murphy, April G. Rasmussen,2020-01-08 There are few things in our society that provoke such raw emotions as that of child abuse Most people justifiably so are outraged when they hear of allegations of abuse and their anger is intensified as they learn of what seems to be an inappropriate criminal justice response However the debate on child abuse usually happens though visceral emotions rather than facts Taking emotions out of a child abuse debate is much easier said than done but it is of utmost importance to identify the facts When the reader has a better understanding of the scope of child abuse they can become more objective but still maintain their passion about ways to protect this vulnerable and targeted population Child Abuse Child Exploitation and Criminal Justice Responses is unique in that it offers the reader contributing facts based not only through scholarly research but practical experience working in field from this wonderful collaboration of criminal
