Masculinities is an interdisciplinary and international culmination of the growth of men's studies that also offers insight about future directions for the field. The Handbook provides a broad view of masculinities primarily across the social sciences with the inclusion of important debates in some areas of the humanities and natural sciences. The various approaches presented in this Handbook range across different disciplines, theoretical perspectives, methodologies, and conceptualizations in relation to the topic of men. Editors Michael S. Kimmel, Jeff Hearn, and Robert W. Connell have assembled an esteemed group of contributors who are among the best known experts in their particular fields. The Handbook of Studies on Men and Masculinities examines the construction of masculinities in four different frames: the social organization of masculinities in their global and regional iterations; the institutional reproduction and articulation of masculinities; the ways in which masculinities are organized and practiced within a context of gender relations; and the ways in which individual men express and understand their gendered identities. The Handbook is organized in a way that moves from the larger global and institutional articulations of masculinities to the more intimate and personal expressions. The Handbook of Studies on Men and Masculinities provides scholars, researchers, and students with the most current incisive scholarship available for the men's studies area of gender studies. It is a vital resource for those interested in the practical or cultural issues about men, boys, and gender, as well as an excellent addition to any academic library.

Gender and Genre in Sports Documentaries Zachary Ingle, David M. Sutera, 2013. Nonfiction films about sports have been around for decades, but the previously neglected subgenre of the documentary has become increasingly popular in the last several years. Despite such recent successes as *Senna*, *Undeclared*, and ESPN's 30 for 30 series, however, few scholarly articles have been published on these works. In *Gender and Genre in Sports Documentaries*, editors Zachary Ingle and David M. Sutera have assembled essays that examine the various aspects of this art form. Some address questions of gender and sexuality, specifically how masculinity and homosexuality are represented in sports documentaries. Others focus on the characteristics of these films, exploring aspects of aesthetics and narrative. In addition to chapters on basketball, football, baseball, boxing, tennis, and auto racing, this collection features marginalized sports like quad rugby, pro wrestling, live action role playing, LARPing, and bodybuilding. Some of the films described will be familiar to readers, such as *Murderball* and *Bigger Stronger Faster*; others are less well known yet important works worthy of scrutiny. Questions about gender, sexuality, and masculinity remain hot topics in sports discourse, and this collection tackles those subjects, making *Gender and Genre in Sports Documentaries* an intriguing read for scholars, students, and the general public alike.
