fourth chapter I will deal with the guidelines and recommendations of language planners and gender neutral language theorists and work out their main positions It will be argued that language change is not an easy undertaking but requires perseverance and consistent argumentation The biggest challenge for language planners who want to implement gender neutral language is perhaps the persistent resistance towards the understanding that gender neutral language is not an issue concerning only feminists I will conclude by evaluating the gender neutral language theory in terms of its practicability and give a personal opinion on the approach
