Mixed Messages Chris Tinker,2010 While popular music and the mass media in France are firmly established areas of enquiry there have been relatively few academic studies of the youth and popular music press This book focuses on Salut les copains Hi Buddies Mates 1962 76 which achieved a circulation of a million copies within its first year at its peak sold around twice as many magazines as its nearest competitors and has now become synonymous with the development of youth culture in 1960s France In the few existing accounts of Salut les copains cultural commentators have tended to view the magazine as a neutral apolitical vehicle for French y y pop stars However this full length study reveals how written texts in Salut les copains editorial letters and advertising both supported and challenged dominant ideologies concerning culture the nation youth and gender during the turbulent 1960s and 1970s

Men Astutely Trained Peter McDonough,2008-06-30 A perceptive provocative analysis of the transformation that swept through American Catholicism in the decades leading up to Vatican II The Jesuits have been the carriers of a culture borne along by a fruitful

often frustrating tension between their dual commitment to ancient virtues to the pursuit of the free play of ideas This book explains developments among the Jesuits and sets them in the larger context of the sea changes that shook the world and the Catholic Church in the world during the mid 20th century **Only Paradoxes to Offer** Joan Wallach Scott,2009-06-30

When feminists argued for political rights in the context of liberal democracy they faced an impossible choice On the one hand they insisted that the differences between men and women were irrelevant for citizenship On the other hand by the fact that they acted on behalf of women they introduced the very idea of difference they sought to eliminate This paradox the need both to accept and to refuse sexual difference in politics was the constitutive condition of the long struggle by women to gain the right of citizenship In this new book remarkable in both its findings and its methodology award winning historian Joan Wallach Scott reads feminist history in terms of this paradox of sexual difference Focusing on four French feminist activists Olympe de Gouges who wrote the Declaration of the Rights of Woman and Citizen during the French Revolution Jeanne Deroin a utopian socialist and candidate for legislative office in 1848 Hubertine Auclert the suffragist of the Third Republic and Madeleine Pelletier a psychiatrist in the early twentieth century who argued that women must virilize themselves in order to gain equality Scott charts the repetitions and variations in feminist history Again and again feminists tried to prove they were individuals according to the standards of individuality of their day Again and again they confronted the assumption that individuals were men But when sexual difference was taken to be a fundamental difference when only men were regarded as individuals and thus as citizens how could women also be citizens The imaginative and courageous answers feminists offered to these questions are the subject of this engaging book **France, 1934-1970** Richard

Vinen,1996-04-12 This book describes the history of France between the anti parliamentary riots of 1934 and the death of de Gaulle in 1970 It is written as a series of interpretative essays rather than a straight chronological account Special emphasis is laid on the broad social conflicts between classes sexes and generations that underlay the complicated party politics of France Attention is also given to the episodes the rule of the Vichy government the Algerian war the thirty glorious years of economic growth and the student riots of 1968 that helped to transform the nation of Clochemerle into that of Concorde

arose Intended both as an introductory work for tertiary students and one that offers new interpretations for scholars in the field this study is a synthethis bringing together the extensive but often fragmented existing literature on gender in European history It also raises new questions and introduces new sources particularly in relation to the history of gender and nation building The result is a challenging view of the contours of European history in the period from the Enlightenment to the 1920 s Barbara Caine is Professor of History Monash University Victoria Australia Glenda Sluga is Senior Lecturer in History and Director of European Studies University of Sydney New South Wales Australia *Au Naturel* Stephen L.

Harp,2014-05-12 Each year in France approximately 1 5 million people practice naturisme or naturism an activity more commonly referred to as nudism Because of France s unique tolerance for public nudity the country also hosts hundreds of thousands of nudists from other European nations an influx that has contributed to the most extensive infrastructure for nude tourism in the world In *Au Naturel* historian Stephen L Harp explores how the evolution of European tourism encouraged public nudity in France connecting this cultural shift with important changes in both individual behaviors and collective understandings of the body morality and sexuality Harp s study the first in depth historical analysis of nudism in France challenges widespread assumptions that sexual liberation freed people from repression a process ostensibly reflected in the growing number of people practicing public nudity Instead he contends naturism gained social acceptance because of the bodily control required to participate in it New social codes emerged governing appropriate nudist behavior including where one might look how to avoid sexual excitation what to wear when cold and whether even the most modest displays of affection including hand holding and pecks on the cheek were permissible between couples Beginning his study in 1927 when naturist doctors first advocated nudism in France as part of air water and sun cures Harp focuses on the country s three earliest and largest nudist centers the le du Levant in the Var Montalivet in the Gironde and the Cap d Agde in H rault These places emerged as thriving tourist destinations Harp shows because the municipalities by paradoxically reinterpreting inde cency as a way to foster European tourism to France worked to make public nudity more acceptable Using the French naturist movement as a lens for examining the evolving notions of the body and sexuality in twentieth century Europe Harp reveals how local practices served as agents of national change **Pierre Loti and the Theatricality of Desire** Peter

James Turberfield,2008-01-01 *Pierre Loti and the Theatricality of Desire* offers an original analysis of patterns of unconscious desire observable in the life and work of the French orientalist writer Pierre Loti It aims to reconcile attitudes and conduct that have been regarded as contradictory and not amenable to analysis by locating the unconscious urges that motivate them It looks at the ambiguous feelings Loti expresses towards his mother the conflicting desires inherent in his bisexuality and his deeply ambiguous sense of a cultural identity as expressed through his cross cultural transvestism The political implications of this reappraisal are also considered offering a potential reassessment of the apparently exploitative nature of much of Loti s writing This new reading in terms of the unconscious not only serves as a way of understanding inconsistencies but also

suggests how such new interpretations can offer an alternative way of viewing the hierarchies of power his work portrays on both a sexual and political level This volume is consequently of interest to those interested in gender studies and sexual politics and offers a way of appreciating writing that might otherwise appear dated and embarrassingly sexist and colonialist in content to twenty first century readers Becoming Americans in Paris Brooke L. Blower, 2011-01-17 Americans often look back on Paris between the world wars as a charming escape from the enduring inequalities and reactionary politics of the United States In this bold and original study Brooke Blower shows that nothing could be further from the truth She reveals the breadth of American activities in the capital the lessons visitors drew from their stay and the passionate responses they elicited from others For many sojourners not just for the most famous expatriate artists and writers Paris served as an important crossroads a place where Americans reimagined their position in the world and grappled with what it meant to be American in the new century even as they came up against conflicting interpretations of American power by others Interwar Paris may have been a capital of the arts notorious for its pleasures but it was also smoldering with radical and reactionary plots suffused with noise filth and chaos teeming with immigrants and refugees communist rioters fascism admirers overzealous police and obnoxious tourists Sketching Americans place in this evocative landscape Blower shows how arrivals were drawn into the capital's battles both wittingly and unwittingly Americans in Paris found themselves on the front lines of an emerging culture of political engagements a transatlantic matrix of causes and connections which encompassed debates about Americanization and anti American protests during the Sacco Vanzetti affair as well as a host of other international incidents Blower carefully depicts how these controversies and a backdrop of polarized European politics honed Americans political stances and sense of national distinctiveness A model of urban transnational history Becoming Americans in Paris offers a nuanced portrait of how Americans helped to shape the cultural politics of interwar Paris and at the same time how Paris helped to shape modern American political culture **Street Noises** Adrian Rifkin, 1995 Street Noises combines the diverse materials of mass culture with literary and archival sources to produce an innovative and critical re-reading of twentieth century Paris as the city of the people and of cultural modernity It concentrates on popular song and opera cultural theory and records of police surveillance such as the unpublished archives concerning the sexual mores of sailors in Toulon sensational weekly magazines including the weekly Detective Magazine with its remarkable photomontage and writers of the Academie Goncourt The author picks out their common realisation of the experience of the city also showing how the faits divers and the entertainment industries frame the writing of a Benjamin a Colette or a Genet Rifkin re-works modern critical theory through these sources reflecting on its relation to the production of mass cultures

Gendering Landscape Art Steven Adams, Anna Gruetzner Robins, 2000 While gender has been the subject of extensive critical inquiry the debate has focused primarily on the human particularly the female body The spaces bodies occupy and the ways in which those spaces are depicted in landscape art has not however been subject to investigation This book is the first

sustained attempt to fill this gap in art history **The Invisible Code** William M. Reddy, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 Figurations of the Feminine in the Early French Women's Press, 1758-1848 Siobhán McIlvanney, 2019 In this highly original thought provoking study Siobhán McIlvanney provides critical insight into the origins of the French women's press As the first work in English to examine the diverse range of publications which makes up this significant medium Figurations of the Feminine traces the evolving figurations of womanhood which appear over the first ninety years of women's journals in France It argues that early French women's journals are often characterised by a remarkable degree of feminist content and that this potential political interpellation of their contemporary readership is one which undermines the general conception of the women's press as an idealised hyper femininised space inhabited by the intellectually idle whether in the form of readers or writers seeking at best escapism at worst a benign reinforcement of the values of their quotidien Through its analysis of different generic subsections whether the literary journal the fashion magazine the domestic press or more explicitly politicised outputs Figurations of the Feminine challenges the critical commonplaces which have surrounded the women's press since its genesis both in France and elsewhere It demonstrates the political richness of this medium and the privileged perspectives it gives us on the everyday lives of French women from across the class spectrum during this key historical period
