Sexual Naturalization:

Sexual Naturalization Susan Koshy, 2022 *Sexual Naturalization* offers compelling new insights into the racialized constitution of American nationality In the first major interdisciplinary study of Asian white miscegenation from the late nineteenth to the end of the twentieth century Koshy traces the shifting gender and racial hierarchies produced by antimiscegenation laws and their role in shaping cultural norms Not only did these laws foster the reproduction of the United States as a white nation they were paralleled by extraterritorial privileges that facilitated the sexual access of white American men to Asian women overseas Miscegenation laws thus turned sex acts into race acts and engendered new meanings for both Koshy argues that the cultural work performed by narratives of white Asian miscegenation dramatically transformed the landscape of desire in the United States inventing new objects and relations of desire that established a powerful hold over U S culture a capture of imaginative space that was out of all proportion to the actual numbers of Asian residents

Sex Expression and American Women Writers, 1860-1940 Dale M. Bauer, 2009-06-01 American women novelists of the late nineteenth and early twentieth centuries registered a call for a new sexual freedom Dale Bauer contends By creating a lexicon of sex expression many authors explored sexuality as part of a discourse about women s needs rather than confining it to the realm of sentiments where it had been relegated if broached at all by earlier writers This new rhetoric of sexuality enabled critical conversations about who had sex when in life they had it and how it signified Whether liberating or repressive sexuality became a potential force for female agency in these women s novels Bauer explains insofar as these novelists seized the power of rhetoric to establish their intellectual authority Thus Bauer argues they helped transform the traditional ideal of sexual purity into a new goal of sexual pleasure defining in their fiction what intimacy between equals might become Analyzing the work of canonical as well as popular writers including Edith Wharton Anzia Yeziarska Julia Peterkin and Fannie Hurst among others Bauer demonstrates that the new sexualization of American culture was both material and rhetorical

The Boundaries of Desire Eric Berkowitz, 2015-08-01 The act of reproduction and its variants never change much but our ideas about the meaning of sex are in constant flux Switch a decade cross a border or traverse class lines and the harmless pleasures of one group become the gravest crimes in another Combining meticulous research and lively storytelling The Boundaries of Desire traces the fast moving bloodsport of sex law over the past century and challenges our most cherished notions about family power gender and identity Starting when courts censored birth control information as pornography and let men rape their wives and continuing through the sexual revolution and into the present day when rape gay rights sex trafficking and sex on the internet saturate the news Berkowitz shows how the law has remained out of synch with the convulsive changes in sexual morality By focusing on the stories of real people Berkowitz adds a compelling human element to what might otherwise be faceless legal battles The law is made by people after all and nothing sparks intolerance on the left and right more than sex Ultimately Berkowitz shows the emptiness of sanctimonious condemnation and argues that sexual questions are too subtle and volatile for simple catch all solutions

Interracial

Encounters Julia H. Lee, 2011-10 2013 Honorable Mention Asian American Studies Association's prize in Literary Studies Part of the American Literatures Initiative Series Why do black characters appear so frequently in Asian American literary works and Asian characters appear in African American literary works in the early twentieth century *Interracial Encounters* attempts to answer this rather straightforward literary question arguing that scenes depicting Black Asian interactions relationships and conflicts capture the constitution of African American and Asian American identities as each group struggled to negotiate the racially exclusionary nature of American identity In this nuanced study Julia H Lee argues that the diversity and ambiguity that characterize these textual moments radically undermine the popular notion that the history of Afro Asian relations can be reduced to a monolithic media friendly narrative whether of cooperation or antagonism Drawing on works by Charles Chesnutt Wu Tingfang Edith and Winnifred Eaton Nella Larsen W E B Du Bois and Younghill Kang *Interracial Encounters* foregrounds how these reciprocal representations emerged from the nation's pervasive pairing of the figure of the Negro and the Asiatic in oppositional overlapping or analogous relationships within a wide variety of popular scientific legal and cultural discourses Historicizing these interracial encounters within a national and global context highlights how multiple racial groups shaped the narrative of race and national identity in the early twentieth century as well as how early twentieth century American literature emerged from that multiracial political context *Sport and South Asian Diasporas* Stanley Thangaraj, Daniel Burdsey, Rajinder Dudrah, 2015-10-14 This original collection demonstrates the importance of sporting practices spaces and leisure affiliations to understanding issues around identity post migration diaspora and transnationalism for global South Asian populations The chapters provide a critical re examination of the roles that sport plays within and in relation to South Asian groups in the diaspora and raises a series of pertinent questions regarding the multifarious relationships between sport and South Asianness The chapters range across a wide variety of disciplines regions sports and identifications They are in conversation with each other while showing the particularity of each diasporic context and relationship to sport The book encompasses a number of global contexts from the homeland India Pakistan Afghanistan to the diaspora Fiji Norway the US the UK and addresses a broad range of sporting contexts including basketball boxing cricket cycling field hockey soccer and golf The chapters combine a range of qualitative methods including ethnography auto ethnography participant observation memoir interview and textual analysis film television and print media This collection comprises the latest cutting edge research in the field and will be essential reading for scholars and students both of sport and South Asian diasporas This book was published as a special issue of *South Asian Popular Culture* *Asian American Literature* Jinqi Ling, 2022-10-20 This book introduces Asian American literary studies by engaging the conditions contingencies and immediate and long term effects of its major debates Two rationales inform Ling's presentation of the field in this way first is a felt need to provide recognizable contours and trajectories for the evolution of Asian American criticism as an ethnic specific minoritarian formation in the United States second is an imperative to historicize its practices including

polemics controversies and ideological ruptures as an ongoing negotiation undertaken by Asian American critics for a more self-conscious and more adequate representation of the field's interests. These rationales are fully contextualized in the book's Introduction and Conclusion. The main body of this study is organized non-chronologically into 8 chapters, each designed to reflect how the field has been energized by its demographic transformation, its growing intellectual heterogeneity, its defining moments, and its cross-cutting relationship with the trends in other disciplines. What has emerged and been given prominence to in the surveys and discussions of this book then constitute the essential criticism of Asian American literary studies, a discourse almost 5 decades in the making when examined retrospectively.

Eating More Asian America Robert Ji-Song Ku, Martin F. Manalansan, Anita Mannur, 2025-04-08. The diversity of Asian American food culture: Asian American inspired foods are everywhere or so it seems. A decade ago chop suey, sushi, curry, adobo, and kimchi were emblematic of Asian American culinary influence. Today boba, ube, bibingka, pho, matcha, gochujang, and ml have joined the roster of foods strongly associated with Asian Americans. These foods were once considered exotic but now are embraced by mainstream culture. Food studies continues to be an appetizing area of Asian American studies. *Eating More Asian America* is a follow-up to the influential *Eating Asian America* and it provides a rich illustration of the intersection of Asian America and its various foodways. The book posits that food is never simply sustenance, the comestible material that provides fuel for our bodies. Rather, food is a way of knowing, a way of being, and a way of understanding. The essays in *Eating More Asian America* convey the intellectual richness of various foodways as they intersect with and inform the racial and political construct known as Asian America. The twenty-one essays in this volume reflect the diversity of Asian America itself as well as the subfield of food studies. The volume not only offers coverage in terms of topics and types of ethnic food, it also provides a rich and impressive array of methodological approaches. A veritable feast for the senses, *Eating More Asian America* explores the myriad ways critical eating studies has developed over the past decade.

Physical Culture, Ethnography and the Body Michael D. Giardina, Michele K. Donnelly, 2017-10-02. The corporeal turn toward critical, empirically grounded studies of the body is transforming the way we research physical culture, most evidently in the study of sport. This book brings together original insights on contemporary physical culture from key figures working in a variety of disciplines, offering a wealth of different theoretical and philosophical ways of engaging with the body while never losing sight of the material form of the research act itself. Contributors spanning the disciplines of sociology, anthropology, communications, and sport studies highlight conceptual, methodological, and empirical approaches to the body that include observant participation, feminist ethnography, autoethnography, physical cultural studies, and phenomenology. They provide vivid case studies of embodied research on topics including basketball, boxing, cycling, dance, fashion, modelling, and virtual gaming. This international collection not only reflects on the most important recent developments in embodied research practices but also looks forward to the continuing importance of the body as a focus for research and the possibilities this presents for studies of the active, moving body in

physical culture and beyond Physical Culture Ethnography and the Body Theory method and praxis is fascinating reading for all those interested in physical cultural studies the sociology of sport and leisure physical education or the body
