Yet a culture that has so much to say about love is virtually silent on the no less mysterious moments when we avoid falling in love, where we fall out of love, when the one who kept us awake at night now leaves us indifferent, or when we hurry away from those who excited us a few months or even a few hours before. In *The End of Love*, Eva Illouz documents the multifarious ways in which relationships end. She argues that if modern love was once marked by the freedom to enter sexual and emotional bonds according to one's will and choice, contemporary love has now become characterized by practices of non-choice, the freedom to withdraw from relationships. Illouz dubs this process by which relationships fade, evaporate, dissolve, and break down, 'unloving'. While sociology has classically focused on the formation of social bonds, *The End of Love* makes a powerful case for studying why and how social bonds collapse and dissolve. Particularly striking is the role that capitalism plays in practices of non-choice and unloving. The unmaking of social bonds, she argues, is connected to contemporary capitalism, which is characterized by practices of non-commitment and non-choice, practices that enable the quick withdrawal from a transaction and the quick realignment of prices and the breaking of loyalties. Unloving and non-choice have in turn a profound impact on society and economics, as they explain why people may be having fewer children, increasingly living alone, and having less sex. *The End of Love* presents a profound and original analysis of the effects of capitalism and consumer culture on personal relationships and of what the dissolution of personal relationships means for capitalism. **Mobility, Sexuality and AIDS** Felicity Thomas, Mary Haour-Knipe, Peter

Aggleton,2009-10-16 Mobility Sexuality and AIDS recognises the complex relationships between individual circumstances different forms of migration and the different ways in which communities and states respond It will be invaluable for students and academics of migration development studies anthropology sociology geography and public health     **The Truth About Hillary** Edward Klein,2005-06-21 Hillary Rodham Clinton is the most polarizing figure in American politics Love her or hate her everyone has a strong opinion about the former first lady turned senator who is almost certainly going to run for president in 2008 Despite more than a dozen years in the national spotlight and more than a dozen unauthorized books about her she has managed to keep many secrets from the public especially about her turbulent marriage and its impact on her career There have been plenty of rumors about what Hillary and Bill Clinton did behind closed doors but never a definitive book that exposes the truth Bestselling author Edward Klein draws on rare access to inside sources to reveal what Hillary knew and when she knew it during her years as first lady especially during her husband s impeachment Klein s book embargoed until publication will break news about the choices and calculations she has made over the years It will also prove that she lied to America in her bestselling autobiography Living History When she was just a little girl Hillary Rodham dreamed of becoming the first female president and her lifelong dream is almost within reach But just as the swift boat veterans convinced millions of voters that John Kerry lacked the character to be president Klein s book will influence everyone who is sizing up the character of Hillary Clinton
