

SEXUAL DIVISION OF LABOUR

This refers to the allocation of tasks and responsibilities based on gender within a society. Historically, societies have often assigned different roles to men and women based on perceived gender differences. For example, women have typically been responsible for domestic tasks such as cooking, cleaning, and childcare, while men have been assigned roles outside the home, such as farming, hunting, and wage labor.

Sexual Division Revisited:

Suppressed, Forced Out and Fired Martha Reeves, 2000-06-30 So entrenched and powerful is the patriarchy within organizations that women have serious difficulty acquiring positions of real importance even when it is in the organization's best interest to use their talents fully and reward them equitably. Reeves surveys the structural obstacles to women's advancement and argues that successful women executives threaten their male counterparts and their patriarchal culture which responds by punishing them. Unlike other studies on the topic, Reeves explains the mechanisms by which gender discrimination operates, the dynamics of discrimination and the processes by which women in business are marginalized, subordinated and excluded. Her book combines theory with first person case study accounts of 10 women who were suppressed then fired. The result is a fresh compelling argument that despite claims to the contrary the glass ceiling still exists. The patriarchy has simply devised subtle new ways to circumvent the legal remedies meant to crack through it. Reeves reviews statistics on the role of women in work patterns of horizontal and vertical segregation and differences in the experiences of men and women then turns to an assessment of the theories of women's subordination. She profiles each of her 10 women subjects, explains their education, career trajectory and accomplishments. Their experiences reveal various mechanisms through which the patriarchy operates to subordinate successful women, such as communication patterns among men that minimize women's contributions, withholding of information, denial of status to women, intimidation tactics and the double bind that women find themselves in when they seek fair treatment. After analyzing the women's termination in detail, Reeves discusses how each woman's personality played a role in her termination. Reeves ends by drawing conclusions on what the present and future seem to hold for women's progress in organizations and particularly in publicly held corporations.

The Feminist Standpoint Revisited, And Other Essays Nancy C.M. Hartsock, 2019-07-16 In this book Nancy C. M. Hartsock offers her current thinking about the development of feminist political economy focusing on the relationships between feminist theory and activism, feminism and Marxism and postmodernism and feminist politics.

Birth Control, Sex, and Marriage in Britain 1918-1960 Kate Fisher, 2006-07-13 The first half of the twentieth century witnessed a revolution in contraceptive behaviour as the large Victorian family disappeared. This book offers a new perspective on the gender relations, sexual attitudes and contraceptive practices that accompanied the emergence of the smaller family in modern Britain. Kate Fisher draws on a range of first hand evidence including over 190 oral history interviews in which individuals born between 1900 and 1930 described their marriages and sexual relationships. By using individual testimony she challenges many of the key conditions that have long been envisaged by demographic and historical scholars as necessary for any significant reduction in average family size to take place. Dr Fisher demonstrates that a massive expansion in birth control took place in a society in which sexual ignorance was widespread, that effective family limitation was achieved without the mass adoption of new contraceptive technologies that traditional methods such as withdrawal, abstinence and abortion were often seen as

preferable to modern appliances such as condoms and caps that communication between spouses was not key to the systematic adoption of contraception and above all that women were not necessarily the driving force behind the attempt to avoid pregnancy Women frequently avoided involvement in family planning decisions and practices whereas the vast majority of men in Britain from the interwar period onward viewed the regular use of birth control as a masculine duty and obligation By allowing this generation to speak for themselves Kate Fisher produces a richer understanding of the often startling social attitudes and complex conjugal dynamics that lay behind the vast changes in contraceptive behaviour and family size in the twentieth century Eros Revisited Isaac B. Rosler,2007-01-01 Dr Isaac B Rosler draws from the works of Plato Butler and

Derrida to explore the unreadability of Eros s enigma and the desire to address its mystery through assertive and noncontradictory discourse resulting in the modern objectification of Eros into defined sexual orientations **The Asian Gang Revisited** Claire E. Alexander,2024-01-11 In her groundbreaking ethnography *The Asian Gang* published in 2000 Claire Alexander explored the creation of Asian Muslim masculinities in South London Set against the backdrop of the moral panic over Asian gangs in the mid 1990s and based on 5 years of ethnographic fieldwork the book explored the idea of the gang friendships and the role of brothers in the formation performance and negotiation of ethnic religious and gendered identities *The Asian Gang Revisited* picks up the story of the Asian gang over the subsequent two decades examining the changing identities of the original participants as they transition into adulthood in the context of increased public and political concerns over Muslim masculinities spanning the War on Terror grooming gangs and increased Islamophobia Building on her ongoing relationships with the men over 25 years the book explores education employment friendship marriage and fatherhood and religious identity and examines both the changes and the continuities that have shaped this group It traces the lives of its participants from their teenage years through to their early mid 40s A unique longitudinal study of this small diverse but still close cohort of men the book offers an intimate rich and textured account of what it means to be a Muslim man in contemporary Britain Women in Business Martha Reeves,2010-06-10 This book uniquely combines gender theory case studies and the legal challenges surrounding the mechanisms of gender discrimination at work It provides the student with real life examples from managers based on interviews with people who experienced discrimination that help students understand how gender discrimination operates even when there are legal protections against it At the end of each case study students are asked to put themselves in the shoes of the individual experiencing the discrimination and ask themselves reflect on how they would handle the situation Students must examine their own beliefs about gender and work place practices and consider consequences of actions they might take In addition to the sections of theory cases and legal challenges websites of interest are included student assignments and classroom activities Key features include Engaging case studies embedded in each chapter Legal cases that highlight each chapter and lend credibility to each case study Discussions of international global situations Suggestions for student assignments projects *Patterns of Social*
