No More Heroines? Sue Bridger, Rebecca Kay, Kathryn Pinnick, 2005-08-04 With the collapse of Soviet rule and the emergence of independent Russia the image of Russian women in the Western imagination has changed dramatically The robust tractor drivers and athletes have been replaced by glamorous but vulnerable beauty queens or the dishevelled and downcast women trading goods on the streets The authors of this work take a closer look at what lies behind the above images and how Russian women are coping with a very different sort of life The main focus is on the effect of unemployment on Russian women and how they are coping with it Based on case studies and personal interviews carried out in the Moscow region in 1993 94 *No More Heroines* will provide both specialist and non specialist alike with access to the thinking of women and their organisations in Russia today

Doe No More M. William Phelps, Donna Palomba, 2012-09-06 In 1993 Donna Palomba was raped by a masked assailant in her own home Yet her story is more than a victim's tale of physical and emotional recovery It is a story of one woman's hunt for justice while fending off attacks by institutions designed to defend and protect her the police department the local government and a community clinging to an outrageous claim that Donna had invented the crime to cover up a sexual affair From the night of the attack the botched crime scene investigation and the abuse as authorities attempted to close the case by discrediting her Donna was left as a victim with no name and no identity Meanwhile there was one courageous detective later to become chief of police who broke a cops code of silence in the name of justice As they fought on a legal battle ensued after the Waterbury Police Department now with media support refused to let go of its allegations against her and admit wrongdoing Finally after eleven years of struggle Donna learned the identity of her attacker from the chief of police who explained that the DNA from the rape kit taken a decade ago had turned up a shocking match In 2007 Donna Palomba was

violence for a variety of reasons Because they don't know how to deal with domestic abuse or whom to approach and what are the laws and schemes for their empowerment In contrast to this point of view the current book which is based on research in Doda contrasts this point of view by shedding light on the types signs and causes of domestic violence as well as its effects on women's mental health Additionally it brought to light the violence committed by parents against their daughters and the various women focused schemes run by the Ministry of Women and Child Development that assist women in coping with domestic violence and gaining independence so that they are not dependent on anyone

Quiet No More Nikki Barthelmess, 2020-10-13 College freshman Victoria Parker is moving on with her life

Silent no more Abbey Boggs, 2017-02-22 This paper explores the gendered dimension of conflict in transitional societies. Particularly, it argues that truth commissions must be inclusive of women to address their marginalization, which precedes, flourishes in, and often survives mass atrocity. Truth commissions have historically been gender neutral; in other words, they have made no distinction between men and women and thus not taken into account the differences in men's and women's experiences. To understand redress and transform the inequality experienced by women, the context surrounding women's lives must be considered throughout the transitional justice process. This paper explains that women experience sexual, reproductive, and other abuse but also recognizes that many indirect causes and effects of this abuse are entrenched in historical, cultural, and social constructs. Three case studies are included to illustrate attempts to account for gender in truth commissions. Scholars have conducted extensive research on truth commissions in Peru, South Africa, and Timor-Leste and provide a blueprint of expertise on the multifaceted components truth commissions must take into account when considering gender. The case studies provide examples of successes and failures in the commissions' approaches and demonstrate the importance of contextualizing women's positions when confronting post-conflict scenarios. As gender issues become more commonly acknowledged throughout the world, it is important to recognize the far-reaching grasp of gender inequality and to draw from past examples of truth commissions to better the future for post-conflict women through respect, acknowledgment, and sensitivity.

Sisyphus No More Roger C. Byrd, Harvey McCloud, 2021-01-14 Prisoners released from our bloated American correctional institutions return to a mostly unwelcoming society where they face onerous post-release challenges. No wonder recidivism is near fifty percent, adding tens of billions of dollars annually to the cost of American prisons. *Sisyphus No More* is a multifaceted argument for increasing prisoner education and training programs to promote the reintegration into society of returning prisoners and increase the likelihood of their securing living wage jobs. By greatly reducing recidivism, the programs will pay for themselves several times over. Such programs also humanize the treatment of prisoners and help them escape the fate of Sisyphus, the mythological king condemned to a bitterly repetitive fate. The book has two parts. The first provides background on the American prison system and enumerates the tolls incarceration takes on prisoners, their families, and their communities, and the costs released prisoners continue to pay that severely hinder their reintegration. In the second part, the authors set forth compelling psychological, sociological, ethical, and financial grounds for increasing education and training to support the reintegration of released prisoners. The final two chapters report on innovative prison education programs and identify steps toward making education and training a priority in our prisons.
