Sexual Ideology Schooling Towards De:

Sexual Ideology and Schooling Alexander McKay, 1999-11-04 Sexuality education in the schools has become a key battleground in the wider social conflict over the sexual norms of Western culture In Sexual Ideology and Schooling Alexander McKay conceptualizes the sexuality debates as a battle between two basic but diametrically opposed belief systems about the nature and purpose of sexuality in human life and society Restrictive and Permissive He outlines the philosophical moral foundations of a democratic approach to teaching young people about sexuality and persuasively argues that public institutions including the schools should base public policy related to sexuality on democratic principles rather than the dictates of sexual ideology Schooling, Ideology and the Curriculum Len Barton, Roland Meighan, Stephen Walker, 2011 Although the different contributions to this book range over a wide spectrum of substantive issues they share a common interest This is a concern to explore the ways in which notions of the relations between theory and practice between belief and action can be used to develop three kinds of sensitivity in the sociology of education A sensitivity towards how school systems are created maintained and made to function towards developing a more refined critical and constructive awareness of the reliability and validity of descriptions analyses and explanations offered in this field of study and a sensitivity towards the ways in which changes take place within the education system and how the insights and realisations generated in the discipline might be used to control such occurrences **Schooling, Ideology and the Curriculum (RLE Edu L)** Len Barton, Roland Meighan, Stephen Walker, 2012-04-27 Although the different contributions to this book range over a wide spectrum of substantive issues they share a common interest This is a concern to explore the ways in which notions of the relations between theory and practice between belief and action can be used to develop three kinds of sensitivity in the sociology of education A sensitivity towards how school systems are created maintained and made to function towards developing a more refined critical and constructive awareness of the reliability and validity of descriptions analyses and explanations offered in this field of study and a sensitivity towards the ways in which changes take place within the education system and how the insights and realisations generated in the discipline might be used to control such occurrences

Civilization without Sexes Mary Louise Roberts, 2009-02-15 In the raucous decade following World War I newly blurred boundaries between male and female created fears among the French that theirs was becoming a civilization without sexes This new gender confusion became a central metaphor for the War s impact on French culture and led to a marked increase in public debate concerning female identity and woman s proper role Mary Louise Roberts examines how in these debates French society came to grips with the catastrophic horrors of the Great War In sources as diverse as parliamentary records newspaper articles novels medical texts writings on sexology and vocational literature Roberts discovers a central question

how to come to terms with rapid economic social and cultural change and articulate a new order of social relationships She examines the role of French trauma concerning the War in legislative efforts to ban propaganda for abortion and contraception and explains anxieties about the decline of maternity by a crisis in gender relations that linked soldiery virility and paternity Through these debates Roberts locates the seeds of actual change She shows how the willingness to entertain or simply the need to condemn nontraditional gender roles created an indecisiveness over female identity that ultimately subverted even the most conservative efforts to return to traditional gender roles and irrevocably altered the social organization of gender in postwar France
