The Natural History of Sexuality in Early America Greta LaFleur, 2020-08-04 How natural history made sex scientific in the eighteenth century If sexology the science of sex came into being sometime in the nineteenth century then how did statesmen scientists and everyday people make meaning out of sex before that point In The Natural History of Sexuality in Early America Greta LaFleur demonstrates that eighteenth century natural history the study of organic life in its environment actually provided the intellectual foundations for the later development of the scientific study of sex Natural historians understood the human body to be a porous envelope eminently vulnerable to its environment Yet historians of sexuality have tended to rely on archival evidence of genital based or otherwise bodily sex acts for source material Through careful readings of both elite natural history texts and popular print forms that circulated widely in the British North American colonies among them Barbary captivity execution cross dressing and anti vice narratives LaFleur traces the development of a broad knowledge of sexuality defined in terms of the dynamic relationship between the human and the natural social physical and climatic milieu At the heart of this book is the question of how to produce a history of sexuality for an era in which modern vocabularies for sex and desire were unavailable LaFleur demonstrates how environmental logic was used to explain sexual behavior on a broad scale not just among the educated elite who wrote and read natural historical texts LaFleur reunites the history of sexuality with the history of race demonstrating how they were bound to one another by the emergence of the human sciences Ultimately The Natural History of Sexuality in Early America not only rewrites all dominant scholarly narratives of eighteenth century sexual behavior but also poses a major intervention into queer theoretical understandings of the relationship between sex and the subject

Female Sexuality in the Early Medieval Islamic World Pernilla Myrne,2019-11-14 In the early Islamic world Arabic erotic compendia and sex manuals were a popular literary genre Although primarily written by male authors the erotic publications from this era often emphasised the sexual needs of women and the importance of female romantic fulfilment Pernilla Myrne here explores this phenomenon examining a range of Arabic literature to shed fresh light onto the complexities of female sexuality under the Abbasids and the Buyids Based on an impressive array of neglected medical religious legal literary and entertainment sources Myrne elucidates the tension between depictions of women s strong sexual agency and their subordinated social role in various contexts In the process she uncovers a great diversity of approaches from the 9th to the 11th century including the sexual handbook the Encyclopedia of Pleasure Jawami al ladhdha which portrayed the diversity of female desires asserting the importance of mutual satisfaction through lively poems and stories This is the first in depth comprehensive analysis of female sexuality in the early Islamic world and is essential reading for all scholars of Middle Eastern history and Arabic literature

The Fruits of Integration Charles T. Banner-Haley,2010-12-01 In late twentieth century America the black middle class has occupied a unique position It greatly influenced the way African Americans were perceived and presented to the greater society and it set roles and guidelines for the nation s black masses Though historically a small group it has attempted to be a model for inspiration and uplift As a key force in the Africanizing of American culture the black middle class has been both a shaper and a mirror during the past three decades This study of that era shows that the fruits of integration have been at once sweet and bitter This history of a pivotal group in American society will cause reflection discussion and debate

My Father's Shadow David L. Dudley,2016-11-11 In My Father s Shadow David L Dudley explores a line of African American men s autobiographies starting with Frederick Douglass and moving on through Booker T Washington W E B Du Bois Richard Wright James Baldwin Eldridge Cleaver and Malcolm X In life these writers did not enjoy normal relationships with their fathers who were all unknown absent or abusive Damaged and damaging father son relationships in childhood Dudley contends spill over into adult personal and artistic relationships clouding and complicating the already complex issue of

identity that lies at the core of any autobiographical endeavor Dudley identifies a kind of inter generational Oedipus conflict each rising autobiographer seeks through his text to displace his predecessor in order to gain imaginative space for himself as well as a position of authority in the black and sometimes white community As each writer strives to come to terms with the powerful father figure in the black male autobiographical tradition he also wrestles with the larger issue of his own identity in relation to the literary and cultural traditions in which he lives and writes Dudley also traces the triumph of these writers as they establish their own identity in the face of great personal and societal odds *My Father's Shadow* is an important contribution to the study of African American literature history politics and culture It will also serve as an examination of the experiences of seven writers as they struggle with what it means to be a black man and a black writer in America

Gender Talk Johnnetta B. Cole, Beverly Guy-Sheftall, 2009-01-16 Why has the African American community remained silent about gender

even as race has moved to the forefront of our nation's consciousness In this important new book two of the nation's leading African American intellectuals offer a resounding and far reaching answer to a question that has been ignored for far too long Hard hitting and brilliant in its analysis of culture and sexual politics Gender Talk asserts boldly that gender matters are critical to the Black community in the twenty first century In the Black community rape violence against women and sexual harassment are as much the legacy of slavery as is racism Johnnetta Betsch Cole and Beverly Guy Sheftall argue powerfully that the only way to defeat this legacy is to focus on the intersection of race and gender Gender Talk examines why the race problem has become so male centered and how this has opened a deep divide between Black women and men The authors turn to their own lives offering intimate accounts of their experiences as daughters wives and leaders They examine pivotal moments in African American history when race and gender issues collided with explosive results from the struggle for women's suffrage in the nineteenth century to women's attempts to gain a voice in the Black Baptist movement and on into the 1960s when the Civil Rights movement and the upsurge of Black Power transformed the Black community while sidelining women Along the way they present the testimonies of a large and influential group of Black women and men including bell hooks Faye Wattleton Byllye Avery Cornell West Robin DG Kelley Michael Eric Dyson Marcia Gillispie and Dorothy Height Providing searching analysis into the present Cole and Guy Sheftall uncover the cultural assumptions and attitudes in hip hop and rap in the O J Simpson and Mike Tyson trials in the Million Men and Million Women Marches and in the battle over Clarence Thomas's appointment to the Supreme Court Fearless and eye opening Gender Talk is required reading for anyone concerned with the future of African American women and men *Common Differences* Gloria I. Jacqueline K. Bryant, 2018-10-29 Originally published in 1999 *The Foremother Figure in Early Black Women's Literature* looks at how stereotypical foremother figure exists in nineteenth century American literature The book argues that older black woman portrayed in early black women's works differs significantly from the older black women portrayed in early white women's works The foremother figure then emerging in early black women's fiction revises the stereotypical mother figure in early white women's fiction In the context of the mulatta heroine the foremother produces minimal language that through an Afrocentric rhetoric distinguishes her from the stereotypical mother and thus links her peripheral role and unusual behaviour to cultural continuity and radical uplift **I'll**

Take You There Bill Friskics-Warren, 2006-09-01 The urge to connect with that which transcends our experience be it a higher power another person or some artistic ideal or aspect of nature is one of the things that makes us human People view the object of this quest as well as what it means to achieve it differently Yet regardless of how it is understood the urge to participate in or belong to something greater and more lasting than ourselves a feeling born of an awareness of our mortality

is what defines us as spiritual beings Though often dismissed as ephemeral or worse demonic popular music has given voice to this quest for transcendence since its beginnings Pop singers are rarely as outwardly spiritual as say their gospel counterparts they re forever pointing beyond themselves though be it to some better future some higher ideal or to some vision of deliverance Fontella Bass s Rescue Me the Four Tops s Reach Out I ll Be There Jimmy Cliff s Many Rivers to Cross Afrika Bambaataa s Looking for the Perfect Beat and U2 s I Still Haven t Found What I m Looking For are but a handful of popular recordings from the past few decades that express a longing for something more What other than transcendence is Jimi Hendrix talking about in Purple Haze when he shouts scuse me while I kiss the sky Or Van Morrison in Caravan when he implores us to crank our radios and sail away with him into the mystic Heard in the right light secular and even carnal records have the power to speak to transcendental concerns galvanizing their historical and cultural moments Regardless of their spiritual leanings all of the subjects discussed in this book including Public Enemy Madonna Sleater Kinney Tricky Johnny Cash Nine Inch Nails Moby Marvin Gaye Eminem Polly Harvey Bruce Springsteen and Sly the Family Stone make music that expresses a basic striving for transcendence Artists stories and personalities inform these discussions but only in as much as they illuminate the struggles and concerns that run through their music I ll Take You There is a beautifully written wide ranging and illuminating examination of some of the most potent popular music ever recorded *Autonomic Failure* Christopher J. Mathias, Sir Roger Bannister, 2013-06-13 This new edition makes diagnosis increasingly precise by fully evaluating the underlying anatomical and functional deficits and continues to provide practitioners from a variety of fields with a rational guide to aid in the recognition and management of autonomic disorders **The Hunter, the Stag, and the Mother of Animals** Esther Jacobson-Tepfer, 2015-04-08 The ancient landscape of North Asia gave rise to a mythic narrative of birth death and transformation that reflected the hardship of life for ancient nomadic hunters and herders Of the central protagonists we tend to privilege the hero hunter of the Bronze Age and his re incarnation as a warrior in the Iron Age But before him and in a sense behind him was a female power half animal half human From her came permission to hunt the animals of the taiga and by her they were replenished She was in other words the source of the hunter s success The stag was a latecomer to this tale a complex symbol of death and transformation embedded in what ultimately became a struggle for priority between animal mother and hero hunter From this region there are no written texts to illuminate prehistory and the hundreds of burials across the steppe reveal little relating to myth and belief before the late Bronze Age What they do tell us is that peoples and cultures came and went leaving behind huge stone mounds altars and standing stones as well as thousands of petroglyphic images With *The Hunter the Stag and the Mother of Animals* Esther Jacobson Tepfer uses that material to reconstruct the prehistory of myth and belief in ancient North Asia Her narrative places monuments and imagery within the context of the physical landscape and by considering all three elements as reflections of the archaeology of belief Within that process paleoenvironmental forces economic innovations and changing social order served as pivots of mythic

transformation With this vividly illustrated study Jacobson Tepfer brings together for this first time in any language Russian and Mongolian archaeology with prehistoric representational traditions of South Siberia and Mongolia in order to explore the non material aspects of these fascinating prehistoric cultures
