Sexuality And Aging:

Sexuality and Aging Jennifer Hillman, 2012-03-27 Despite continuing ageist beliefs that sexuality is a privilege designed only for the young and physically healthy research continues to indicate that the majority of older adults maintain interest in sexuality and may engage in fulfilling sexual behavior well into their last decade of life Unfortunately many professionals remain unaware of general knowledge of elderly sexuality including the expected and normal physiological changes that can occur within the context of both male and female aging The presence of chronic illness and other medical problems certainly can influence the expression of an aging adult's sexuality and emergent research suggests that there are effective ways to cope with menopause heart disease arthritis incontinence diabetes sleep disorders breast cancer prostate cancer and erectile dysfunction ED among others Dramatic changes have taken place within the last decade alone in terms of non surgical treatment for incontinence and ED with forms of sex therapy biofeedback and PDE 5 inhibitors Regrettably many aging adults and their care providers remain unaware of their increased risk factors for STDs including HIV infection via lack of knowledge changes in the vaginal lining and typical declines in immune function Estimates suggest that by the year 2020 more than half of all individuals living with HIV will be over the age of 50 Although some high quality professional books are available for clinicians they tend to be disjointed research bibliographies edited volumes on a narrowly focused aspect of elderly sexuality or texts that are more than 10 years old With the extent of new information available regarding sexuality and aging an up to date empirically based text is necessary

Sexuality & Ageing Walter Pierre Bouman, Peggy J. Kleinplatz, 2017-10-02 Across the globe both in developed and developing countries the population is rapidly ageing In the fields of sexual and relationship therapy and sexual health ageing has not been an issue of priority Too often ageing is thought of as a process

that relates to problems deficits and taboos and less to pleasure change growth and diversity It is treated as a separate life stage and not a process throughout the lifecycle Sexuality and sexual health are important parts of the lives of older people as they have a significant impact on quality of life psychological well being and physical health as well as social and family life This book brings together contributions from those currently writing on and researching ageing as it relates in a therapeutic context to gender identity to sex and sexuality and to intimate relationships This book was originally published as a special issue of Sexual and Relationship Therapy *Sexuality in Later Life* Lesley Hoyt Croft,1982 *Sexuality and Aging* George F. Wharton,1981 *My Parents Never Had Sex* Doris B. Hammond,1987 No Marketing Blurb **Sexuality in the Later Years** Ruth B. Weg,2013-09-24 Sexuality in the Later Years Roles and Behavior pulls together evidence from the anthropological psychological social and physiological disciplines and represents an effort to present a coherent picture of sexual roles and behavior in the later years This work does not pretend to answer all questions that could be raised concerning sexuality and aging but attempts rather to concentrate on issues that have been relatively neglected primarily options potentials and possibilities for the individualization and humanization of sex roles and sexual behavior of older persons The book is organized into five parts Part I examines concepts of sexuality in the later years including cultural attitudes and behaviors towards sexuality psychological and sociological perspectives and a life span model of sex role development Part II on life styles deals with the impact of aging on the sexuality of those who are unmarried in later life the relationship between interpersonal intimacy and adaptation to stress throughout adult life and the range of sexual orientations in the later years along with their incidence their contributions to social adaptation and the particular constraints surrounding them Part III discusses issues in research and therapy while Part IV considers views of sexuality and aging in other countries namely Canada and Sweden Part V inquires into the problems associated with transitions in the later part of the life cycle of love **Sexuality and the Elderly** Bonnie L. Walker,1997-05-12 This literature review was undertaken in order to determine what caregivers needed to know about elderly sexuality to determine the needs of elderly people related to their sexuality and to determine how caregivers could best assist them in meeting those needs In selecting materials to be annotated for this book the first priority was given to empirical studies Also included were articles by prominent practitioners and researchers interested in elderly sexuality literature reviews and books written for the lay population which are often cited in the professional literature In addition to seeking knowledge about elderly sexuality and understanding attitudes about sexuality this literature review sought information about measurement issues and measurement instruments frequently used in research within elderly populations Also of interest were investigations of educational and training programs involving caregivers **Sexuality and Aging** ,1978 **Sexuality and the Elderly** Bonnie L. Walker,1997-05-12 This literature review was undertaken in order to determine what caregivers needed to know about elderly sexuality to determine the needs of elderly people related to their sexuality and to determine how caregivers

could best assist them in meeting those needs In selecting materials to be annotated for this book the first priority was given to empirical studies Also included were articles by prominent practitioners and researchers interested in elderly sexuality literature reviews and books written for the lay population which are often cited in the professional literature In addition to seeking knowledge about elderly sexuality and understanding attitudes about sexuality this literature review sought information about measurement issues and measurement instruments frequently used in research within elderly populations Also of interest were investigations of educational and training programs involving caregivers
