Religion and Gender in the Developing World Tamsin Bradley, 2010-12-07 Faith based development organizations have become a central part of the lives of the women of rural Rajasthan and have come to represent an important aspect of both individual and collective identities And yet religious teachings continue to be used to exclude women from public decision making forums and render them vulnerable to increasing levels of domestic violence In a unique multi disciplinary approach combining a range of subjects Tamsin Bradley provides a unique study of the role of development organizations and faith organizations in the lives of women in rural Rajasthan Faith and religion emerge as being able to afford a space within which women are able to interact with one another and create an identity for themselves However faith proves not just to be a positive sphere in which women are able to assert themselves Its ambiguity becomes clear as the author explains that religious women often find their visions of social justice and equality marginalised by the dominance of male leadership Nevertheless Bradley also look at how religious women challenge male dominance drawing on their beliefs and practices in creative and innovative ways Thus a complex picture emerges and including insights from gender studies and anthropology Bradley argues that religion can both empower and disempower local communities and the women who live within them By analysing development through the prism of gender studies Bradley highlights the complex nature of power relationships that are at the very heart of development agendas and organizations and offers an invaluable contribution to the understanding of the nexus of varied disciplines in the analysis of women and religion in Rajasthan This book will be of interest to students reseachers and policy makers involved in various fields including those of Development Studies Religion Gender Studies and Social Anthropology

**Routledge Handbook of Gender in South Asia** Leela Fernandes, 2021-11-15 This

new edition of the Routledge Handbook of Gender in South Asia provides a comprehensive overview of the study of gender in South Asia. The Handbook covers the central contributions that have defined this area and captures innovative and emerging paradigms that are shaping the future of the field. It offers a wide range of disciplinary and interdisciplinary perspectives spanning both the humanities and social sciences, focusing on India, Pakistan, Bangladesh, and Sri Lanka. This revised edition has been thoroughly updated and includes new chapters, thus adding new areas of scholarship. The Handbook is organized thematically into five major parts: Historical formations and theoretical framings; Law, citizenship, and the nation; Representations of culture, place, identity; Labor and the economy; Inequality, activism, and the state. The Handbook illustrates the ways in which scholarship on gender has contributed to a rethink of theoretical concepts and empirical understandings of contemporary South Asia. Finally, it focuses on new areas of inquiry that have been opened up through a focus on gender and the intersections between gender and categories such as caste, ethnicity, sexuality, and religion. This timely study is essential reading for scholars who research and teach on South Asia, as well as for scholars in related interdisciplinary fields that focus on women and gender from comparative and transnational perspectives. *Dangerous Sex, Invisible Labor* Prabha

Kotiswaran, 2011-07-05. Popular representations of third world sex workers as sex slaves and vectors of HIV have spawned abolitionist legal reforms that are harmful and ineffective, and public health initiatives that provide only marginal protection of sex workers' rights. In this book, Prabha Kotiswaran asks how we might understand sex workers' demands that they be treated as workers. She contemplates questions of redistribution through law within the sex industry by examining the political economies and legal ethnographies of two archetypical urban sex markets in India. Kotiswaran conducted in-depth fieldwork among sex workers in Sonagachi, Kolkata's largest red light area, and Tirupati, a temple town in southern India. Providing new insights into the lives of these women, many of whom are demanding the respect and legal protection that other workers get, Kotiswaran builds a persuasive theoretical case for recognizing these women's sexual labor. Moving beyond standard feminist discourse on prostitution, she draws on a critical genealogy of materialist feminism for its sophisticated vocabulary of female reproductive and sexual labor and uses a legal realist approach to show why criminalization cannot succeed amid the informal social networks and economic structures of sex markets. Based on this, Kotiswaran assesses the law's redistributive potential by analyzing the possible economic consequences of partial decriminalization, complete decriminalization, and legalization. She concludes with a theory of sex work from a postcolonial materialist feminist perspective. **Sexuality, Health and Human Rights** Sonia Corrêa, Rosalind Petchesky, Richard

courageous and dedicated groups of queer activists in the city of Xi'an and a grassroots gay men's HIV/AIDS organization called Tong'ai and a lesbian women's group named UNITE. Taking inspiration from the circle, a term used to imagine local, national, and global queer communities, Miller shows how everyday people in northwest China are taking part in queer culture and activism while also striving to lead traditionally moral lives in a rapidly changing society. The queer stories in this book broaden our understandings of gender and sexuality in contemporary China and show how taking global queer diversity seriously requires us to de-center Western cultural values, historical experiences, and theoretical perspectives. **LGBT**

**Transnational Identity and the Media** Christopher Pullen, 2012-02-29 Offering a critical introduction into LGBT lesbian, gay, bisexual, and transgender transnational identity in the media, this book examines performances and representations within documentary and fiction-oriented texts. The authors come from diverse backgrounds to talk about how new media can both assist and hinder maligned minorities, ignored ethnicities, or the often-attacked migrants in their day-to-day lives. The book makes a strong contribution to Malaysian studies, which highlights the other and represents minority viewpoints to challenge the belief that Malaysia's online space is monolithic and limited to several mainstream discourses in Malaysian scholarship. *The Translatability of the Religious Dimension in Shakespeare from Page to Stage, from West to East* Jenny Wong, 2018-05-29 This interdisciplinary study traverses the disciplines of translation studies, hermeneutics, theater studies, and sociology. Under the power turn or political turn in translation studies, the omission and untranslatability of religious material are often seen as the product of censorship or self-censorship. But the theology of each individual translating agent is often neglected as a contributing factor to such untranslatability. This book comprehensively traces the hermeneutical process of the translators as readers and the situational process and semiotics of theater translation. Together, these factors contribute to an image of translated literature that in turn influences the literature's reception. While translation theorists influenced by the current sociological turn view social factors as determining translation activities and strategies, this volume argues that the translator's or the dramatist's theology and religious values interact with the socio-cultural milieu to carve out a unique drama production. Often, it is the religious values of the translating agents that determine the product rather than social factors. Further, the translatability of religious discourse should be understood in a broader sense according to the seven dimensions proposed by Ninian Smart, rather than merely focusing on untranslatability as a result of semantic and linguistic differences. **Sex in China** Elaine Jeffreys, 2015-06-05 Choice Outstanding Academic Title for 2015 Sex in China introduces readers to some of the dramatic shifts that have taken place in Chinese sexual behaviours and attitudes and public discussions of sex since the 1980s.
