Harlan Wilson, 2022-04-25 In this comprehensive study of *The Stars My Destination* D Harlan Wilson makes a case for the continued significance of Alfred Bester's SF masterwork exploring its distinctive style influences intertextuality affect and innovation as well as its extensive metafictional properties In *Stars* Bester established himself as a son of the pulp SF and high modernist writers that preceded him and a forefather to the New Wave and cyberpunk movements that followed his lead Wilson's study depicts Bester as an SF insider as much as an outlier writing in the spirit of the genre but breaking with the fixation on hard science in favor of psychological interiority literary experimentation and adult themes The book combines close readings of the novel with broader concerns about contemporary media technoculture and the current state of SF itself In Wilson's view SF is a moribund artform and *Stars* foresaw the inevitable science fictionalization of our benighted world With scholarly lucidity and precision Wilson shows us that *Stars* pointed the way to what we have un become *Masculinity in Contemporary Science Fiction by Men* Sara Martín, 2025-05-30 *Masculinity in Contemporary Science Fiction by Men* No Plans for the Future is the first comprehensive study of the self representation of men in SF novels published in the twenty first century by male authors Exploring a broad selection of writers and works the fourteen chapters present a panoramic overview of men's contributions to current SF and explore their slow but noticeable progress in the representation of gender The impact of feminism and gender studies and the demands of readers have profoundly transformed men's SF which now presents far more caring and vulnerable male characters The old stereotypes are being replaced by a collective reflection on how men and masculinity are changing though the lack of a common agenda results in novels that while exciting and often challenging sometimes miss the chance to imagine a better anti patriarchal pro feminist future for men and for all human beings The authors analysed include Robert Charles Wilson Geoff Ryman Samuel R Delany Richard K Morgan John Scalzi Iain M Banks Ernest Cline James S A Corey Colson Whitehead Andy Weir Daniel H Wilson Ian McDonald Yoon Ha Lee Tade Thompson Neal Stephenson and Kim Stanley Robinson *Index to Science Fiction Anthologies and Collections* William

Contento,1978 **Religion in Science Fiction** Steven Hrotic,2014-07-31 Religion in Science Fiction investigates the history of the representations of religion in science fiction literature Space travel futuristic societies and non human cultures are traditional themes in science fiction Speculating on the societal impacts of as yet undiscovered technologies is after all one of the distinguishing characteristics of science fiction literature A more surprising theme may be a parallel exploration of religion its institutional nature social functions and the tensions between religious and scientific worldviews Steven Hrotic investigates the representations of religion in 19th century proto science fiction and genre science fiction from the 1920s through the end of the century Taken together he argues that these stories tell an overarching story a metanarrative of an evolving respect for religion paralleling a decline in the belief that science will lead us to an ideal and religion free future Science fiction s metanarrative represents more than simply a shift in popular perceptions of religion it also serves as a model for cognitive anthropology providing new insights into how groups and identities form in a globalized world and into how crucial a role narratives may play Ironically this same perspective suggests that science fiction as it was in the 20th century may no longer exist *Dare to Love Again (The Heart of San Francisco Book #2)* Julie Lessman,2014-01-07 Spunky Allison McClare is determined to be a fearless independent woman resorting to a mammoth hat pin for protection on her way to and from the school where she teaches But when she takes a notion to explore the wild Barbary Coast she quickly discovers she is no match for rum soaked brute strength Detective Nick Barone would rather do almost anything than teach this petite socialite jiu jitsu but it seems he has little choice in the matter Sparks fly every time the two meet until a grudging friendship develops into something deeper But when Nick suddenly leaves town Allison realizes he s a fraud just like all the rest of the men she s cared for Does she dare love again The lushness of the glorious Gilded Age beautifully showcases Lessman s passion as a writer in this engaging love story written with humor and heart From the glamour of San Francisco s Nob Hill to the seedy gambling dens of the Barbary Coast Dare to Love Again is a journey to find a love that never fails Fans will love revisiting the world of the cousins McClare and new readers will seek more of Julie s passion filled novels

Joanna Russ Gwyneth Jones,2019-08-30 Experimental strange and unabashedly feminist Joanna Russ s groundbreaking science fiction grew out of a belief that the genre was ideal for expressing radical thought Her essays and criticism meanwhile helped shape the field and still exercise a powerful influence in both SF and feminist literary studies Award winning author and critic Gwyneth Jones offers a new appraisal of Russ s work and ideas After years working in male dominated SF Russ emerged in the late 1960s with Alyx the uber capable can do heroine at the heart of Picnic on Paradise and other popular stories and books Soon Russ s fearless embrace of gender politics and life as an out lesbian made her a target for male outrage while feminist classics like The Female Man and The Two of Them took SF in innovative new directions Jones also delves into Russ s longtime work as a critic of figures as diverse as Lovecraft and Cather her foundational place in feminist fandom important essays like Amor Vincit Foeminam and her career in academia *John*

Brunner Jad Smith, 2013-01-30 Under his own name and numerous pseudonyms John Brunner 1934 1995 was one of the most prolific and influential science fiction authors of the late twentieth century During his exemplary career the British author wrote with a stamina matched by only a few other great science fiction writers and with a literary quality of even fewer importing modernist techniques into his novels and stories and probing every major theme of his generation robotics racism drugs space exploration technological warfare and ecology In this first intensive review of Brunner's life and works Jad Smith carefully demonstrates how Brunner's much neglected early fiction laid the foundation for his classic *Stand on Zanzibar* and other major works such as *The Jagged Orbit* *The Sheep Look Up* and *The Shockwave Rider* Making extensive use of Brunner's letters columns speeches and interviews published in fanzines Smith approaches Brunner in the context of markets and trends that affected many writers of the time including Brunner's uneasy association with the New Wave of science fiction in the 1960s and 70s This landmark study shows how Brunner's attempts to cross fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk slipstream and biopunk
