rise to hopes of progress in pop music The Times 29 May 1967 Sgt Pepper and the Beatles commemorates the fortieth anniversary of this masterpiece of British psychedelia by addressing issues that will help put the record in perspective These issues include reception by rock critics and musicians the cover lyrics songwriting formal unity the influence of non European music and art music connections with psychedelia and more generally the sociocultural context of the 1960s production sound engineering and musicological significance The contributors are world renowned for their work on the Beatles they examine Sgt Pepper from the angle of disciplines such as musicology ethnomusicology history sociology literature social psychology and cultural theory *Sgt. Pepper's Lonely Hearts Club Band* Beatles, Frank Booth, 1992

Sgt. Pepper's lonely hearts club band David Anthony Kraft, 1979 **Sgt. Pepper's Lonely Hearts Club Band [CD]** Beatles, 1987 *Summer of Love* George Martin, William Pearson, 1994 *The Beatles as Musicians* Walter Everett, 1999

Given the phenomenal fame and commercial success that the Beatles knew for the entire course of their familiar career their music per se has received surprisingly little detailed attention Not all of their cultural influence can be traced to long hair and flashy clothing the Beatles had numerous fresh ideas about melody harmony counterpoint rhythm form colors and textures Or consider how much new ground was broken by their lyrics alone both the themes and imagery of the Beatles poetry are key parts of what made and still makes this group so important so popular and so imitated This book is a comprehensive chronological study of every aspect of the Fab Four's musical life including full examinations of composition performance practice recording and historical context during their transcendent late period 1966-1970 Rich authoritative interpretations are interwoven through a documentary study of many thousands of audio print and other sources *Sgt. Pepper at Fifty* Mike McInnerney, Bill DeMain, Gillian G. Gaar, 2017 Five decades after its release in 1967 Sgt Pepper's Lonely Hearts Club Band remains a keystone of the Beatles career and of popular music as a whole Regularly cited as the greatest album of all time it is a record soaked in and thrillingly evocative of the sights sounds and mood of the sixties at their most joyously psychedelic Back cover
