Bodies Out of Bounds Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of *Such a Pretty Face Being Fat in America* A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of *Confessing Excess Women and the Politics of Body Reduction* This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that have made fat incorrect Echoing the spirit of the nineteenth century adage about children who should be neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of *Face Value The Politics of Beauty* Through textual analyses video film analyses television theory and literary theory this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of *The Most Beautiful Girl in the World Beauty Pageants and National Identity* *Beauty: Exploring Critical Perspectives* Pierre Wilhelm, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Rather than accept society s preferred metaphors about beauty at face value the authors in this volume question the fact that beauty can also surprise us in the least foreseeable setting at the most unexpected moment and in the most surprising or unsettling ways Their work underscores beauty s ephemeral transitory

fleeting and at times confounding nature The way beauty reveals itself to us they point out may challenge or even contradict established conventions norms and values about aesthetics The emergence of unconventional metaphors and analogies about beauty in these chapters calls on us to pay attention to competing and seemingly intractable connotations of fear darkness ugliness oppression repression callousness and dejection that won't leave us indifferent to their appeal How we as researchers envisage beauty as a topic of investigation tells us as much about our conceptualization of beauty arising from particular scientific perceptions as about the language and symbols that express this perception It raises the important question about why we rely on conceptual constructs to explain beauty and whether beauty remains a mystery to be explored or ultimately one best left unexplained

Fat Sex: New Directions in Theory and Activism Helen Hester, Caroline Walters, 2016-03-09 While fat sexual bodies are highly visible as vehicles for stigma there has been a lack of scholarly research addressing this facet of contemporary body politics *Fat Sex New Directions in Theory and Activism* seeks to rectify this bringing debates about fat sex into the academic arena and providing a much needed critical space for voices from across the spectrum of theory and activism It examines the intersection of fat sex and sexuality within a contemporary cultural landscape that is openly hostile towards fat people and their perceived social and aesthetic transgressions Acknowledging and engaging with some of the innovative work being done by artists activists and academics around the issue of fat sex this collection both challenges preconceptions regarding fatness and sexuality but also critiques and debates various aspects of the fat activist approach It draws on a wide range of disciplinary perspectives bringing together work from the UK US Europe and Australia to offer a wide ranging examination of the issues of size sex and sexuality A cutting edge exploration not only of fat sex but of identity politics neoliberalism and contemporary body activism in general *Fat Sex New Directions in Theory and Activism* will be of interest to scholars of sociology cultural studies geography porn studies and literary studies working on questions of gender sexuality and the body

Just Desserts Sally Cline, 1990 A fascinating study of a subject which engages all women Unlike other books on food this

one takes women's total relationship to the subject i.e. shopping cooking literary images media messages as well as food disorders And it shows not only that women's relationship to food is fraught with contradiction but that the realm of food is yet another focal point in the battle between the sexes Pleasing their men nourishing their babies satisfying growing families and denying themselves women who lack power in so many areas exercise control through food Also examines our attitudes toward fatness

Come Out, Come Out, Whoever You are Abigail Cope Saguy, 2020 While people used to conceal the fact that they were gay or lesbian to protect themselves from stigma and discrimination it is now commonplace for people to come out and encourage others to do so as well Come Out Come Out Whoever You Are systematically examines how coming out has moved beyond gay and lesbian rights groups and how different groups wrestle with the politics of coming out in their efforts to resist stigma and enact social change It shows how different experiences and disparate risks of disclosure shape these groups collective strategies Through scores of interviews with LGBTQ people undocumented immigrant youth fat acceptance activists Mormon fundamentalist polygamists and sexual harassment lawyers and activists in the era of the MeToo movement Come Out Come Out Whoever You Are explains why so many different groups gravitate toward the term coming out By focusing on the personal and political resonance of coming out it provides a novel way to understand how identity politics work in America today

Contours of the Nation Deborah McPhail, 2017-10-31 The obesity epidemic that is said to plague nations around the world including Canada is not solely a medical condition to be managed In Canada the discourse on obesity emerged during a time of social upheaval in the postwar period Contours of the Nation is the first book which historically explores obesity in Canada from a critical perspective Deborah McPhail demonstrates how obesity as a problem was affixed to particular populations in order to separate true Canadians from others She reveals how the articulation of obesity contributed to the Canadian colonial project in the North where Indigenous peoples were viewed as modern Canadians due to their obesity thereby negating any special claims to northern lands Contours of the Nation successfully demonstrates how histories can trace the actual materialization of bodies through relations of power particularly those pertaining to race gender and nation

Thickening Fat May Friedman, Carla Rice, Jen Rinaldi, 2019-08-30 Thickening Fat Fat Bodies Intersectionality and Social Justice seeks to explore the multiple variable and embodied experiences of fat oppression and fat activisms Moving beyond an analysis of fat oppression as singular this book will aim to unpack the volatility of fat the mutability of fat embodiments as they correlate with other embodied subjectivities and the threshold where fat begins to be reviled celebrated or amended In addition Thickening Fat explores the full range of intersectional and liminal analyses that push beyond the simple addition of two or more subjectivities looking instead at the complex alchemy of layered and unstable markers of difference and privilege Cognizant that the concept of intersectionality has been filled out in a plurality of ways Thickening Fat poses critical questions around how to render analysis of fatness intersectional and to thicken up intersectionality where intersectionality is attenuated to the shifting and composite and material dimensions to identity rather than reduced to an add difference and stir approach The chapters in this collection ask what happens when we operationalize intersectionality in fat scholarship and politics and we position difference at the centre and start of inquiry
