**Friendship's Shadows: Women's Friendship and the Politics of Betrayal in England, 1640-1705** Penelope Anderson, 2012-08-31 Penelope Anderson s original study changes our understanding both of the masculine Renaissance friendship tradition and of the private forms of women s friendship of the eighteenth century and after It uncovers the latent

threat of betrayal lurking within politicized classical and humanist friendship showing its surprising resilience as a model for political obligation undone and remade Incorporating authors from Cicero to Abraham Cowley and Margaret Cavendish to Mary Astell the book focuses on two extraordinary women writers the royalist Katherine Philips and the republican Lucy Hutchinson And it explores the ways in which they appropriate the friendship tradition in order to address problems of conflicting allegiances in the English Civil Wars and Restoration As Penelope Anderson suggests their writings on friendship provide a new account of women's relation to public life organized through textual exchange rather than bodily reproduction

The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl, Emily Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement

**Women's Human Rights** Anne Hellum, Henriette Sinding Aasen, 2013-07-11 As an instrument which addresses the circumstances which affect women's lives and enjoyment of rights in a diverse world the CEDAW is slowly but surely making its mark on the development of international and national law Using national case studies from South Asia Southern Africa Australia Canada and Northern Europe Women's Human Rights examines the potential and actual added value of the Convention on the Elimination of All Forms of Discrimination against Women in comparison and interaction with other equality and anti discrimination mechanisms The studies demonstrate how state and non state actors have invoked adopted or resisted the CEDAW and related instruments in different legal political economic and socio cultural contexts and how the various international regional and national regimes have drawn inspiration and learned from each other

**Dreams, Illusion, and Other Realities** Wendy Doniger O'Flaherty, 2015-05-14 Wendy Doniger O'Flaherty weaves a brilliant analysis of the complex role of dreams and dreaming in Indian religion philosophy literature and art In her creative hands enchanting Indian myths and stories illuminate and are illuminated by authors as different as Aeschylus Plato Freud Jung Kurl G del Thomas Kuhn Borges Picasso Sir Ernst Gombrich and many others This richly suggestive book challenges many of our fundamental assumptions about ourselves and our world Mark C Taylor New York Times Book Review Dazzling analysis The book is firm and convincing once you appreciate its central point which is that in traditional Hindu thought the dream isn't an accident or byway of experience but rather the locus of epistemology In its willful confusion of categories its teasing readiness to blur the line between the imagined and the real the dream actually embodies the whole problem of knowledge O'Flaherty wants to make your mental flesh creep and she succeeds Mark Caldwell Village Voice

**Global Intersectionality and Contemporary Human Rights** Johanna Bond, 2021-07-22 Global Intersectionality and Contemporary Human Rights argues for an expansive definition of human rights one that encompasses the harm caused by multiple

intersecting forms of subordination Intersectionality theory posits that aspects of identity such as race and gender are mutually constitutive and intersect to create unique experiences of discrimination and subordination Perpetrators of sexual violence in armed conflict of example often target women based on both gender and ethnicity Human rights remedies that fail to capture the intersectional nature of human rights violations do not offer comprehensive redress to victims This title explores the influence of intersectionality theory on human rights in the modern era and traces the evolution of intersectionality as a theoretical framework in the United States and around the world It draws upon feminist theory and human rights jurisprudence to argue that scholars and activists have under utilized intersectionality theory in the global discourse of human rights As the central intergovernmental organization charged with the protection of human rights the United Nations has been slow to embrace the insights gained from intersectionality theory This work argues that the United Nations and other human rights organizations must more actively embrace intersectionality as an analytical framework in order to fully address the complexity of human rights violations around the world

**Women and Employment in Public Policy** Susan Milner, 2024-05-07 In the UK women's economic empowerment through employment is a success story of the last three decades And yet women are over represented in low paid insecure jobs are under represented in top jobs and earn less than men on average with a marked income gap over the lifecourse When Labour took office in 1997 a new wave of women MPs entered parliament in record numbers and women gained access to ministerial roles including a newly created minister for women However policy on women and employment remained an area of conflict New rights were secured particularly for mothers but when Labour left office a sizeable policy agenda remained unfinished Using documentary evidence and interviews from leading policy actors from the period *Women and Employment in Public Policy* takes as its starting point the Women and Work Commission which was convened in 2004 to examine causes of the gender pay gap The commission was unable to defuse conflicts over equal pay but it set out an agenda for change at the level of government private sector work organizations and public sector organizations Milner examines why the commission could not resolve key conflicts and why its broad based recommendations were only partially taken up She traces the subsequent development of policy observing well established preferences for light touch regulation which can raise awareness but leave entrenched practices unchallenged and weaken individual women's access to redress Detailed study of the working of the commission provides lessons on the policy process particularly for those seeking to influence policy It also shows that within the wider policy space opportunities for action to effect change are possible based on appeals to instrumental logic or political exchange but are constrained by party leadership
