The Revolutionary Mystique and Terrorism in Contemporary Italy Richard Drake, 2021-03-02 What drives terrorists to glorify violence In *The Revolutionary Mystique and Terrorism in Contemporary Italy* Richard Drake seeks to explain the origins of Italian terrorism and the role that intellectuals played in valorizing the use of violence for political or social ends Drake argues that a combination of socioeconomic factors and the influence of intellectual elites led to

a sanctioning of violence by revolutionary political groups in Italy between 1969 and 1988 Drake explores what motivated Italian terrorists on both the Left and the Right during some of the most violent decades in modern Italian history and how these terrorists perceived the modern world as something to be destroyed rather than reformed In 1989 *The Revolutionary Mystique and Terrorism in Contemporary Italy* received the Howard R Marraro Prize from the Society for Italian Historical Studies It was awarded for the best book that year on Italian history The book is reissued now with a new introduction for the light it might shed on current terrorist challenges The Italians had success in combating terrorism We might learn something from their example The section of the book dealing with the Italian superfascist philosopher Julius Evola holds special interest today Drake s original work takes on new significance in the light of Evola s recent surge of popularity for members of America s alt right movement

Archetypal Nonviolence Renée Moreau Cunningham,2020-12-15 Ren e Moreau Cunningham s unique study utilizes the psychology of C G Jung and the spiritual teachings of Mahatma Gandhi and Martin Luther King Jr to explore how nonviolence works psychologically as a form of spiritual warfare confronting and transmuting aggression *Archetypal Nonviolence* uses King s iconic march from Selma to Montgomery a demonstration which helped introduce America to nonviolent philosophy on a mass scale as a metaphor for

psychological and spiritual activism on an individual and collective level Cunningham's work explores the core wound of racism in America on both a collective and a personal level investigating how we hide from our own potential for evil and how the divide within ourselves can be bridged The book demonstrates that the alchemical transmutation of aggression through a nonviolent ethos as shown in the Selma marches is important to understand as a beginning to something greater within the paradox of human violence and its bedfellow nonviolence Archetypal Nonviolence explores how we can truly transform hatred by understanding how it operates within It will be of great interest to Jungian analysts and analytical psychologists in practice and in training and to academics and students of Jungian and post Jungian studies American history race and racism and nonviolent movements

Einstein's Business Dawson Church, 2007-01-10 At this threshold of our species evolution there is an increasing recognition that new approaches are needed to create the radical changes necessary for humanity to survive on this planet Business is not exempt it is at the center of this radical change Business can even be the lynchpin around which the rest of social transformation takes place and can lead the way as we relinquish our addiction to control and to the extreme competitiveness that has paralyzed us and prevented us from uniting to address the urgency of the crisis at hand In this anthology some of the best selling business authors of today infuse their visions experiences and insights into the ongoing conversation about how to find solutions to seemingly impossible challenges The guiding principles for the book are derived from the inspiring timeless wisdom of Albert Einstein a man who modeled the ability to be a channel for intuitive imaginative and collective intelligence From that realm we can draw on collective intelligence to reinvent ourselves and transform business
