The Agency: The Rise and Decline of the CIA (Book Two) John Ranelagh, 2024-08-08 In 2000 the Washington Post listed *The Agency* as one of the ten best books on Intelligence in the twentieth century calling it An encyclopedic and fair minded overview of the agency into the 1980s A history of the CIA from its intrepid early days to becoming a mature bureaucracy riddled with scandal and scrutiny During World War II Wild Bill Donovan started the Office of Special Services OSS and gave the CIA its original image dashing Ivy League and Eastern Establishment Successive CIA Directors covered in the book were Allen Dulles Richard Helms William Colby and William Casey The Agency is the first comprehensive history of the CIA a book designed in its author s words to get away from contemporary demonology and to place the CIA firmly within the context of its time a dazzling panoramic overview of the CIA s history Ranelagh mixes keen insights into the organization and the people who ran it with superb accounts of specific crises and operations This brilliant book is so rich both in detail and generalization that even a reader unfamiliar with the history of the CIA will find it hard to put down the book pursues many themes such as organizational changes within the agency and shifts in its sense of mission its relationship with presidents and their advisers and other intelligence agencies the history of specific projects and operations and the general mood within both the CIA and the government and nation at large The result is a complex tapestry full of new information and fresh generalizations Reviews in American History A massive history of the CIA Ranelagh has a good feel for the murky world of intelligence and has constructed quite a readable work he conducted

scores of interviews with insiders and studied more than 7 000 pages of classified and formerly classified documents Great reading and a valuable reference for students of government bureaucracy and intelligence work Kirkus Ranelagh provides here a major overview of the Central Intelligence Agency from its founding in 1947 to 1987 Based largely on hundreds of interviews the book examines the personality and policies of each director in the context of the times Publishers Weekly A comprehensive examination of the CIA Unlike most books on the nearly 40 year old spy organization The Agency is not a diary of old war stories or a flashy expose it is a thoughtful analysis of the CIA from gestation to middle age An important difference between The Agency and many other scholarly treatments of intelligence gathering is the extensive use of quotes from both on the record and unattributed sources as well as documents obtained under the Freedom of Information Act The New York Times A thoughtful analysis of the CIA from its beginnings arguing that dependence on technology has crippled American intelligence The New York Times Mr Ranelagh a British television producer has written the best comprehensive history of the CIA He is in control of the massive secondary literature has used the Freedom of Information Act effectively interviewed widely and mined congressional sources The tone is critical but detached devoid of both the muckraking passion of the left and the self congratulatory approach of the old boy network A fine book Foreign Affairs The Agency is without a doubt the finest best documented and most entertainingly written study of the Central Intelligence Agency CIA of which I know It traces the agency from its first gleam in the eye of Wild Bill Donovan through the first term of William Casey on behalf of President Reagan a genuine literary and stylistic accomplishment Annals of the American Academy of Political and Social Science **The Intelligence Revolution** Steven E. Volodarsky,2013-11-30 A cracking good read and a chilling true story of Russia s assassination program begun more than a century ago and which continues today Tennent H Bagley former CIA chief of Soviet Bloc counterintelligence In late November 2006 Alexander Litvinenko a former lieutenant colonel of the Federal Security Service of the Russian Federation was ruthlessly assassinated in London by radiation poisoning The shocking murder was the most notorious crime committed by the Russian intelligence on foreign soil in more than three decades Here former Russian military intelligence officer and an international expert in special operations Boris Volodarsky who was consulted by the Metropolitan Police during the Litvinenko investigation offers readers a startling narrative of the Russian security services history of covert assassination by poisoning Beginning in 1917 with Lenin and his dreaded Cheka secret police Russian security services have committed killing after killing both in Russia and across the globe In The KGB s Poison Factory Volodarsky proves that the Litvinenko s poisoning supposedly ordered by Russian strongman Vladimir Putin is just one episode in a chain of murders going back decades Some of these assassinations or attempted assassinations are already known others are revealed here for the first time With keen insight Volodarsky brings readers inside the assassinations of twenty individuals killed by order of the Kremlin in a revealing tell all that will fascinate students as well as general readers interested in international espionage

Library Journal *Stories from The Road Not Taken* Henry Hurt, 2016-08-19 The stories in this collection are set in and around the imaginary town of Shaw's Pond in Southside Virginia. The fictional players including the narrator are interrelated by bloodlines, marriages, secret loves, scandals, and ancient grudges. As with people, the world over, the characters and their stories are nourished by the legends that so often enrich the most ordinary of lives. To be sure, a lot is going on at Shaw's Pond. Henry Hurt has been an editor and writer for more than fifty years. As Editor at Large for Reader's Digest Magazine in its heyday, he reported on events from espionage and terrorism to disasters, both natural and man-made. But his favorite subjects were the poignant stories of people where the human spirit shined through circumstances that seemed hopeless. Hurt lives in Southside Virginia.

Last Sentry Gregory Young, Nate Braden, 2013-10-15 Providing inspiration for Tom Clancy's *The Hunt for Red October*, the 1975 mutiny aboard the Soviet destroyer *Storozhevoy* translated *Sentry* aimed at nothing less than the overthrow of Leonid Brezhnev and the Soviet government. Valery Sablin, a brilliant young political officer, seized control of the ship by convincing half the officers and all of the sailors to sail to Leningrad where they would launch a new Russian Revolution. Suppressed in the Soviet Union for fifteen years, Young, the first American to uncover the mutiny twenty years ago, and Braden finally tell the untold story, relying on recently declassified KGB documents as well as the Sablin family's papers. It is a gripping account of a disillusioned idealist forced to make the agonizing choice between working within or destroying the system he is sworn to protect.

Cloak & Gown Robin W. Winks, 1996-01-01 The CIA and its World War II predecessor, the Office of Strategic Services (OSS), were for many years largely populated by members of Ivy League colleges, particularly Yale. In this highly acclaimed book, Robin Winks explores the underlying bonds between the university and the intelligence communities, introducing a fascinating cast of characters that include safe crackers and experts in Azerbaijani, as well as such social luminaries as Paul Mellon, David Bruce, John P. Marquand Jr., and William Vanderbilt. This edition of the book includes a new preface by Winks.

Reviews of the first edition: One of the best studies of intelligence in recent years. Edward Jay Epstein, *Los Angeles Times Book Review*. The most original book yet written on the interpenetration of counterintelligence and campus. Andrew Sinclair, *Sunday Times London*. Winks writes a lively compound of analysis and anecdote to illuminate the bonds between academe and the intelligence community. His book is a towering achievement. Robert W. Smith, *Chicago Sun Times*. Among the more important contributions to the history of Anglo-American espionage to appear this or any other year. Moves with an unfolding pace that any thriller writer might envy. Tom Dowling, *San Francisco Examiner*. A brilliant book. Sallie Pisani, *Journal of American History*.

Soviet Security and Intelligence Organizations

1917-1990 Michael Parrish, 1992-01-30 One of the hallmarks of the Soviet system was its heavy reliance on internal and foreign security and intelligence organizations Not surprisingly given the secrecy surrounding Soviet efforts in these areas no biographical reference tools and few bibliographies have been published to date In this context Michael Parrish s work is a unique undertaking In the first section to the volume biographies are provided on some 4 000 officials in senior and mid level positions who had served in Cheka NKVD RFSFR GPU KGB and other organizations Also included are officials of the Committee for State Control formerly Ministry of State Control and before that Commissariat of Workers and Peasants Inspection Prominent political personalities with earlier ties to security services such as N A Bulganin are listed even though such service formed only a brief part of their careers Others listed include party officials such as A A Kuznetsov who at different times served as the Party s watchdog of security organs Also included because of their close association with repression and security organs are members of Stalin s inner circle The second part of the volume is a survey of books in English published between 1917 and 1990 which related to Soviet security and intelligence organizations This is followed by a biographical addendum a glossary of terms and material showing the development of Soviet security organizations No one concerned with current intelligence issues and the role of security organizations in Soviet life can ignore this volume

Assassins Boris Volodarsky, 2020-02-19 A look at the events surrounding the 2006 poisoning of a former Russian security officer in Great Britain In November 1998 Alexander Litvinenko a former lieutenant colonel of the Russian security service or FSB along with several former colleagues publicly stated that their superiors had instigated an assassination attempt on a

Russian tycoon and oligarch Following his subsequent arrest and failed trials Litvinenko fled to London where having been granted asylum he worked as a journalist and writer as well as acting as a consultant for the British intelligence services Eight years later Litvinenko's past caught up with him when he was assassinated in London On November 1 2006 Litvinenko was suddenly taken ill and hospitalized He passed away twenty two days later Significant amounts of a rare highly toxic element were subsequently found in his body Before his death Litvinenko had said You may succeed in silencing one man but the howl of protest from around the world Mr Putin will reverberate in your ears for the rest of your life Author Boris Volodarsky who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko's widow details the events surrounding Litvinenko's murder Volodarsky updates the story referring to the findings of the official British inquiry on the release of which Prime Minister David Cameron condemned Putin for presiding over state sponsored murder The author proves that the Litvinenko's poisoning is just one of many Some of these assassinations or attempted assassinations are already known others are revealed by him for the first time *Naval War College Review*
