Weyburne,2023-07-06 This book was turned into a feature film which scooped international awards throughout Europe It finally solves that question that has vexed us for centuries Why did the Egyptians build their insane pyramids They were the World s first skyscrapers One of them in particular the Great Pyramid is the last of the Seven Wonders of the World and it s a miracle that it still stands Many have tried to destroy it even today ISIS sought to do the same And while Cleopatra seems remote to us she lived closer to our time than she did to that of the pyramid builders mammoths still roamed the Earth when the Great Pyramid was created Despite it being the most incredible structure that humans have ever built we still have no idea what its function was Most assume it was to be the tomb for King Khufu but then again most agree that he was never buried there So why then did they spend two decades building what was to be the World s tallest building for the next 4 000 years Surely even the Ancient Egyptians weren t so vain as to devote so much time and effort to simply proving the greatness of Pharaoh Khufu Its measures are so precise that my distant ancestor Isaac Newton studied its dimensions to gauge the size of the planet Others are so overwhelmed by its exactitude and its immense size that they feel that they have to attribute it to aliens or Atlanteans It s understandable then that we struggle to understand its purpose This book though finally reveals the truth and its stranger than any fiction we could conjure they believed that their pyramids were necessary to save Pharaoh s life but also to turn him into a god *Scientific Canadian Mechanics' Magazine and Patent Office Record* Canada.
