Shake Hands With The Devil The Failure Of Humanity In Rwanda:

Shake Hands with the Devil Roméo Dallaire, Brent Beardsley, 2005-01-01 A Canadian general and former United Nations peacekeeper shares his harrowing eyewitness account of the genocide in Rwanda revealing how he and his men managed to rescue thousands of people despite the orgy of bloodletting that was erupting all around them Reprint **Shake Hands with the Devil** Roméo Dallaire, 2022 A brave unforgettable first hand account of the Rwandan genocide by a man almost literally haunted by the dead and by the spectre of his mission's failure Marking the twenty fifth anniversary of this horrific event this edition includes a new note from Roméo Dallaire Serving in Rwanda in 1993 LGen Roméo Dallaire and his small peacekeeping force found themselves abandoned by the UN in a vortex of civil war and genocide With meagre resources to stem the killing General Dallaire was witness to the murder of 800 000 Rwandans in a hundred days and returned home broken disillusioned and suicidal *Shake Hands with the Devil* is his return to Rwanda a searing book that is both an eyewitness account of the failure of humanity to stop the genocide and the story of General Dallaire's own struggle to find a measure of peace reconciliation and hope Who Must Die in Rwanda's Genocide? Kyrsten Sinema, 2015-09-11 This book provides a juridical sociopolitical history of the evolution of the 1994 Rwandan genocide Over one million citizens were massacred in less than 100 days via a highly organized efficiently executed genocide throughout the tiny country of Rwanda While genocide is not a unique phenomenon in modern times a genocide like Rwanda's is unique Unlike most genocides wherein a government plans and executes mass murder of a targeted portion of its population asking merely that the majority population look the other way or at most provide no harbor to the targeted population ex Germany the Rwandan government relied heavily on the civilian population to not only politically support but actively engage in the acts of genocide committed over the 100 days throughout the spring of 1994 This book seeks to understand why and how the Rwandan genocide occurred It analyzes the colonial roots of modern Rwandan government and the development of the political state of exception created in Rwanda that ultimately allowed the sovereign to dehumanize the minority Tutsi population and execute the most efficient genocide in modern history Infantry, 2005 **International Responses to Mass Atrocities in Africa** Kurt Mills, 2015-10-16 Since the end of World War II and the founding of the United Nations genocide crimes against humanity and other war crimes mass atrocities have been explicitly illegal When such crimes are committed the international community has an obligation to respond the human rights of the victims outweigh the sovereignty claims of states that engage in or allow such human rights violations This obligation has come to be known as the responsibility to protect Yet parallel to this responsibility two other related responsibilities have developed to prosecute those responsible for the crimes and to provide humanitarian relief to the victims what the author calls the responsibility to palliate Even though this rhetoric of protecting those in need is well used by the international community its application in practice has been erratic at best In *International Responses to Mass Atrocities in Africa* Kurt Mills develops a typology of responses to mass atrocities

investigates the limitations of these responses and calls for such responses to be implemented in a more timely and thoughtful manner Mills considers four cases of international responses to mass atrocities in Rwanda the Democratic Republic of the Congo Uganda and Darfur putting the cases into historical context and analyzing them according to the typology showing how the responses interact Although all are intended to address human suffering they are very different types of actions and accomplish different things over different timescales on different orders of magnitude and by very different types of actors But the critical question is whether they accomplish their objectives in a mutually supportive way and what the trade offs in using one or more of these responses may be By expanding the understanding of international responsibilities Mills provides critical analysis of the possibilities for the international community to respond to humanitarian crises

A People Betrayed Linda Melvern, 2019-03-15 Events in Rwanda in 1994 mark a landmark in the history of modern genocide Up to one million people were killed in a planned public and political campaign In the face of indisputable evidence the UN Security Council failed miserably in its response In this classic of investigative journalism Linda Melvern tells the compelling story of what really happened revealing both the scale speed and intensity of the unfolding genocide as well as exposing the governments and individuals who could have prevented what was happening if they had chosen to act The book also tells the unrecognised heroism of those who stayed on during the genocide from volunteer peacekeepers to courageous NGO workers Twenty five years on from one of the darkest episodes in modern history A People Betrayed is a shocking indictment of how Rwanda was ignored then and how today it is remembered in the West
