## Love Undecided:

*Child of My Mother* Kenechukwu Onwudinjo, 2015-12-04 *Child of my Mother* captures the yearnings of the human soul and stirs up emotions that could be shared by anyone. It adopts a confrontational approach to multiples of themes. Familial warmth threads its way through the poems forming a centre that seeks to hold together man's universal family which includes nature. *Child of My Mother* adopts Igbo communal and all inclusive perspective. These interactions entice the reader to participate in the experiences explored. They mirror the concerns of the immediate and global community including migrant crises, climate change, terrorism and reverberating themes of abuse. Its confrontational tone provokes a tumult of emotions and ensures that something uncoils inside of the reader. *Child of My Mother* quarries from the abundant imagery of the Igbo cosmology. It harvests as much from personal experiences as from images from the rich Igbo cosmology to say what must be said. Some of the poems in *Child of My Mother* echo older Nigerian poets.

*German Literature of the High Middle Ages* Will Hasty, 2006 New essays on the first flowering of German literature in the High Middle Ages and especially during the period 1180-1230. The High Middle Ages and particularly the period from 1180 to 1230 saw the beginnings of a vibrant literary culture in the German vernacular. While significant literary achievements in German had already been made in earlier centuries, they were a somewhat precarious vernacular extension of Christian Latin culture. But the vernacular literary culture of the High Middle Ages was an integral part of broader cultural developments in which the unquestioned validity of traditional authoritative models began to lose its hold. A secular culture began to emerge in which positive value began to be attached to the however transitory allegiances, pleasures and loves of life. In new essays dealing with the most significant literary genres, the heroic epics, the romances, the love lyrics and political poetry and with broader political, social and cultural issues, control of aggression, territorialization, this third volume of the *Camden House History of German Literature* demonstrates how the emergence of a vernacular literary culture in Germany was an important part of a broader cultural transformation in which medieval people began to redefine themselves, their relationships to one another and the position of humanity in the scheme of things.
