Love Work Children:

Love, Work, Children Cheryl Mendelson, 2007-12-18 Morningside Heights a Manhattan neighborhood sandwiched between Columbia University and the Hudson River is home to an eclectic mix of academics struggling artists and rooted families In this distinctive world Peter Frankel a successful partner in a prestigious law firm lives a seemingly contented life with his talented wife and his two Ivy League educated children Yet in middle age Peter finds himself discontent His wife s narrowness and her preoccupation with appearances leaves him cold his job does not fulfill his creative bent and he fears that his children Susan and Louis have grown into skeptical young adults who shun marriage and stability So when Peter s wife is badly hurt in a car accident and lies in a coma he finds himself guiltily relieved and newly drawn toward his children as they too struggle with ambivalent feelings about the mother who s never really shown them much love As Susan a cerebral doctoral student becomes unhappily involved with an aspiring playwright and Louis is caught up in a futile pursuit of an ambitious journalist Peter s own quiet life is shaken up and longings he has stifled for years come rumbling to the surface Freed from his wife s judgments Peter throws himself into his greatest pleasure the work he does for a foundation that funds offbeat artistic projects And as his passion for this work ignites so does his desire for another woman But the stubborn morality that has steered Peter s life is a force to be reckoned with and one from which he may never entirely escape **Love Work Children** is a profoundly insightful novel about two generations and the colorful urban world they inhabit A superb portrayal of one of New York s exceptional neighborhoods this is a story ultimately about the self imposed obstacles to true happiness and a testament to the joy one can find in overcoming them **#WorkSchoolHours** Dr Ellen Joan

Works of Love Robert L. Perkins, 1999 To claim that *Works of Love* is an important philosophical essay is to assume hazardous burden of proof The book's title is an allusion to the Bible's injunction that we should love our neighbor as we love ourselves a far cry far instance from Diotima's ladder of erotic desire up which we climb from the love of bodies until

we catch a vision of that single sea of beauty beauty itself Plato Symposium This contrast given that some of some of our neighbors may not be particularly likable or one may even be a determined enemy suggests immediately to some that a book with such an obviously religious title must be excessively moralistic and at best full of sermon helps for the harried clergy or at worst laden with rules for the unlearned laity A casual perusal of a few paragraphs however shows these put down views of the book to be unfounded

Fiction, Famine, and the Rise of Economics in Victorian Britain and Ireland Gordon Bigelow, 2003-11-20 We think of economic theory as a scientific speciality accessible only to experts but Victorian writers commented on economic subjects with great interest Gordon Bigelow focuses on novelists Charles Dickens and Elizabeth Gaskell and compares their work with commentaries on the Irish famine 1845-1852 Bigelow argues that at this moment of crisis the rise of economics depended substantially on concepts developed in literature These works all criticized the systematized approach to economic life that the prevailing political economy proposed Gradually the romantic views of human subjectivity described in the novels provided the foundation for a new theory of capitalism based on the desires of the individual consumer Bigelow's argument stands out by showing how the discussion of capitalism in these works had significant influence not just on public opinion but on the rise of economic theory itself
