Love With A Difference:

Love in Contemporary British Drama Korbinian Stöckl, 2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres the subject has received surprisingly little attention in academic studies of contemporary drama *Love in Contemporary British Drama* reflects the appeal of love as a topic and driving force in dramatic works with in depth analyses of eight pivotal plays from the past three decades Following an interdisciplinary and historical approach the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays Special emphasis is put on narratives of love's compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned *Love's Labor* Eva Feder Kittay, 2013-09-13 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **The Metaphysics of Love** Stella Sandford, 2001-11-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In *The Metaphysics of Love* however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas's thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity to think of an unqualified transcendence as a first principle Sandford's book is at the same time a powerful feminist critique of both Levinas's gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory **Works of Love** Robert L. Perkins, 1999 To claim that *Works of Love* is an important philosophical essay is to assume hazardous burden of proof The book's title is an allusion to the Bible's injunction that we should love our neighbor as we love ourselves a far cry far instance from Diotima's ladder of erotic desire up which we climb from the love of bodies until we catch a vision of that single sea of beauty beauty itself Plato Symposium This contrast given that some of some of our neighbors may not be particularly likable or one may even be a determined enemy suggests immediately to some that a book with such an obviously religious title must be excessively moralistic and at best full of sermon helps for the harried clergy or at worst laden with rules for the unlearned laity A casual perusal of a few paragraphs however shows these put down views of the book to be unfounded *Love and Politics* Fiona Mackay, 2001-08-02 This volume is the first to use insights from recent feminist theory on the ethic of care to study the slow progress women have made toward political equality Using empirical case study materials including her own interviews with female politicians Mackay examines care as both a political practice and a political idea using it to explain the current situation with regard to women's representation and to offer a prescription and resource for change **The Politics of Conjugal Love** Conor

Sweeney, Brian T. Trainor, 2019-06-27 Does the New Testament teach that a wife must submit to her husband as head If so does it have a lasting value beyond the cultural milieu in which it was first articulated The Politics of Conjugal Love takes a fresh approach to this classic issue in theological anthropology paying specific attention to the role of theological hermeneutics in its interpretation Conor Sweeney and Brian T Trainor contend that both subordinationist and anti subordinationist readings of headship and submission miss the mark Their alternative is a baptismally specified trinitarian reading in which headship and submission appear as modes intrinsic to both life in Christ and the love proper to the highest mode of trinitarian love The Love of Romance - 50 Books in One Collection Stendhal, Charles Dickens, William Shakespeare, Burton Egbert Stevenson, Charlotte Brontë, Anne Brontë, Emily Brontë, Henry James, Louisa May Alcott, Jane Austen, George Eliot, Walter Scott, Thomas Hardy, O. Love in the Post-Reconceptualist Era of Curriculum Work Allan Michel Jales Coutinho, 2023-03-08 By employing the autobiographical method of currere and bifocalization this book sheds light on the significance of love and the ethics of caregiving as means to transform curriculum studies into a post reconceptualist and collective endeavor Advancing an understanding of curriculum as a collective public moral enterprise it critically asks whether we can build a world where love is not negotiated but only proliferated Through the creation of short and interconnected autobiographical narratives about the meanings of love the author provides pivotal insights for curricularists who labor in conflicting and paradoxical contexts As such the book seeks to demonstrate how the labor of love fortification may be accomplished in a world of agonistic antagonistic and competitive becoming s Highlighting the role of caregiving this book questions the role of evaluations in post reconceptualization and provides insights for educators and policymakers on how to promote actualization and reconciliation in schools in contexts across the global north and south Engaging with a long scholarly tradition that ultimately seeks to understand the meanings of love in our lives and in our work supporting the historization of the field of curriculum and with an international focus this book will appeal to scholars and students with interests in curriculum studies and curriculum theory

Lacan on Love Bruce Fink, 2017-09-05 Quintessentially fascinating love intrigues and perplexes us and drives much of what we do in life As wary as we may be of its illusions and disappointments many of us fall blindly into its traps and become ensnared time and again Deliriously mad excitement turns to disenchantment if not deadening repetition and we wonder how we shall ever break out of this vicious cycle Can psychoanalysis with ample assistance from philosophers poets novelists and songwriters give us a new perspective on the wellsprings and course of love Can it help us fathom how and why we are often looking for love in all the wrong places and are fundamentally confused about what love really is In this lively and wide ranging exploration of love throughout the ages Fink argues that it can Taking within his compass a vast array of traditions from Antiquity to the courtly love poets Christian love and Romanticism and providing an in depth examination of Freud and Lacan on love and libido Fink unpacks Lacan s paradoxical claim that love is giving what you don t have He shows how the emptiness or lack we feel within ourselves gets covered over or entwined in love and how it is possible and indeed vital to give something to another that we feel we ourselves don t have This first ever commentary on Lacan s Seminar VIII Transference provides readers with a clear and systematic introduction to Lacan s views on love It will be of great value to students and scholars of psychology and of the humanities generally and to analysts of all persuasions

Love as Passion Niklas Luhmann, 2014-12-08 In this important book Niklas Luhmann one of the leading social thinkers of the late 20th century analyses the emergence of love as the basis of personal relationships in modern societies He argues that while family systems remained intact in the transition from

traditional to modern societies a semantics for love developed to accommodate extra marital relationships this semantics was then transferred back into marriage and eventually transformed marriage itself Drawing on a diverse range of historical and literary sources Luhmann retraces the emergence and evolution of the special semantics of passionate love that has come to form the basis of modern forms of intimacy and personal relationships This classic book by Luhmann has been widely recognized as a work of major importance It is an outstanding contribution to social theory and it provides an original and illuminating perspective on the nature of modern marriage and sexuality **Love Itself Is Understanding** Matthew A.

Rothaus Moser ,2016-11-01 Hans Urs von Balthasar 1905 1988 sets out to reunite Truth and holiness by returning the saints to their proper place at the heart of philosophy theology and metaphysics Love Itself is Understanding is one of the first systematic treatments of Balthasar s theology of the saints Matthew Rothaus Moser presents Balthasar as an alternative to Idealist philosophy a thinker who develops a religious metaphysics in which the saints practices of prayer and contemplation are the chief mode of knowing that the Truth of Being is divine love Love Itself is Understanding casts new light on dominant themes in Balthasar s thought and invites a renewed vision of the theological and metaphysical significance of the spiritual practices of prayer obedience and charity **Psychoanalyzing Cinema** j. jagodzinski,2012-10-01 The essays within this

collection explore the possibilities and potentialities of all three positions presenting encounters that are at times contradictory at other times supportive as well as complementary The collection thereby enriches the questions that are being raised within contemporary cinematic studies **A Path to Divine Intimate Love** La Ermita - The

Hermitage,2010-04-20 This is a book about the spirituality of relationships All that we need to help us grow physically and spiritually exists in our daily lived relationships They are the catalysts for our growth **Thicker Than Water** Lauren

Weindling,2023-04-17 The proverb goes that blood is thicker than water But do common bloodlines in fact demand special duties or prescribe affections Does this maxim presume that we can or should only love others biologically similar to ourselves Are we nobler if we do or somehow defective if we don t Thicker than Water examines the roots of this belief by studying the omnipresent discourse of bloodlines and kindred relations in the literature of early modern Europe specifically its role in the creation and maintenance of oppressive social structures Lauren Weindling examines how drama from England France and Italy tests these assumptions about blood and love exposing their underlying political function Among the key texts that Weindling studies are Shakespeare s Romeo and Juliet Othello and The Merchant of Venice Pierre Corneille s Le Cid Giambattista della Porta s La Sorella and its English analog Thomas Middleton s No Wit Help Like a Woman s John Ford s Tis Pity She s a Whore and Machiavelli s La Mandragola Each of these plays in some way offers an extreme limit case for these beliefs in plots of love courtship and marriage e g blood feuds or incest They also illustrate that blood functions not as a biological basis for affinities but discursively Moreover they feature the voices of marginalized groups unprivileged by this ideology which present significant counterpoints to this bloody worldview Those outsiders reveal that finding alternative

vocabularies to the bloody discourse of elite groups is both extremely difficult and often ineffectual further evidenced by their persistence today Much critical work on blood has examined this discourse as it manifests onstage as evidence of guilt the product of violence or in bleeding figures This book instead examines the work that blood does unseen in its connection to discourses of love and kinship arbitrating social and emotional connections between persons and thus underwriting our deepest forms of social organization Report New York (N.Y.).
