examined while the character of oral and written speech as processing varieties is revealed Above all this study demonstrates the non neutrality of oral and written speech as language varieties Especially important is the resultative causative split between them in the representation of events Written speech is not oral speech written down as Bloomfield and de Saussure originally claimed but a very different system of syntactic and discourse organization which influences how we represent and see the world Both varieties strongly influence the semantic content and generic function of any text they convey indicating very significant interplay of semantic variables in the processing of language Processing Varieties in English contributes to a wide range of linguistic areas and topics including discourse analysis socio psycholinguistics and cognitive science
