

Lower Palaeozoic reservoirs of North Africa

ROB CROSSLEY & NEIL McDOUGALL

Robertson Research International Ltd, Llandudno, Conwy LL30 1SA, UK

Abstract: This paper provides an overview of features considered significant in the exploration and development of Lower Palaeozoic reservoirs of North Africa. Information is derived from a review of literature on the Lower Palaeozoic successions of north Africa, combined with outcrop observations from the Anti Atlas mountains of Morocco. The focus of the exploration-oriented part of the review is on identification of potential traps other than two-way structural dip closure. Stratigraphic elements described include depositional models of reservoir facies, tectonic unconformities and possible eustatic unconformities. Cases of established or potential trapping by post-depositional faulting, by diagenesis and by hydrodynamic flow are examined. Development-related topics highlighted include the impact on reservoir matrix quality of burial diagenesis and of palaeo-weathering at the Hercynian unconformity. Other issues discussed which additionally affect producibility from the reservoir matrix include tectonic fracturing, palaeotopography and unloading fracturing at the Hercynian unconformity, and induced fracturing within the present stress regimes.

The Cambrian to Silurian sequences of Algeria, Libya and Tunisia form one of the world's greatest concentrations of Lower Palaeozoic reservoirs. Algeria contains the largest number of fields discovered to date, including the giant field of Hassi Messaoud (Fig. 1). Libya also has substantial production from the Lower Palaeozoic, which is in the process of being boosted by new fields under development in the Murzuq Basin. Minor but potentially significant relatively

deep discoveries have also been made in Tunisia. Equivalent sequences in Egypt, Morocco (including former Western Sahara), Niger and Chad might also have hydrocarbon potential (see below).

To date, exploration for Lower Palaeozoic prospects has mainly focused on structural highs. As a consequence there are large areas, even close to producing fields, which remain undrilled. Most producing fields are situated on convincing

Lower Palaeozoic Of North Western And West Central Africa:

Lower Palaeozoic of North-Western and West-Central Africa Charles H. Holland, The Boundaries of the West African Craton Nasser Ennih, Jean-Paul Liégeois, 2008 *Geological Exploration in Murzuq Basin* D. Worsley, 2000-12-19 The Murzuq Basin is a large intracratonic sag basin located in southwestern Libya Exploration efforts started in this vast and remote Saharan region already in 1957 and 60 exploratory wells have been drilled to date resulting in over 20 discoveries with around 4 000 million barrels of oil in place Most discoveries have been made in Ordovician sandstone reservoirs sourced by hot shales of the Lower Silurian Tanezzuft Formation Oil is already being produced and exported from the area but the basin s total hydrocarbon potential is still poorly understood Recent exploration especially the major discovery and initial development of the Giant Elephant Field has greatly increased interest for the area s potential Many petroleum geologists and companies now believe that the basin may well develop into a new major hydrocarbon province which will significantly contribute to Europe s energy needs in the next decades This book presents papers from a conference held at Sebha University on the eastern margins of the Murzuq Basin in September 1998 The book continues an ongoing series of presentations of the geology of Libya but the 25 contributions herein mostly centre on the Murzuq Basin itself and on nearby areas There are still many unresolved questions in terms of geological and hydrocarbon exploration in these difficult desert areas but the papers herein will hopefully present a first comprehensive overview of an exciting frontier exploration region About half of the papers are directly related to hydrocarbon exploration and to source rock and reservoir development but a wide variety of other features are also described ranging from palaeontology and biostratigraphy to ore geology and water resources covering the entire geological column from the Precambrian to the Holocene The book concludes with a bibliography covering all geological aspects of this challenging but very promising frontier area **The Geology of North Africa** Zakaria Hamimi, Moulley Charaf Chabou, Ezzoura Errami, Abdel-Rahman Fowler, Nuri Fello, Amara Masrouhi, Rémi Leprêtre, 2024-05-20 This richly illustrated book reviews the geology tectonics sedimentary basins and strategic resources of North Africa in 21 chapters Chapter 1 is a regional synthesis Chapter 2 examines the deep crustal and upper mantle structure Chapter 3 compares the West African Craton Chapters 4 5 6 7 deal with Pan African Variscan Hercynian and Alpine Belts Precambrian Geology of Hoggar Shield north Central Africa will be addressed in Chapter 8 The North African Neoproterozoic and Phanerozoic sedimentary basins are the topic of Chapter 9 Phanerozoic magmatism and geodynamic framework of North Africa are addressed in Chapter 10 Chapters 11 12 deal with petroleum geology and water resources Important non metallic and metallic ore deposits are presented in Chapter 13 14 15 16 Chapters 17 18 explore geothermal energy and other strategic resources Chapters 19 20 discuss seismicity seismotectonics and Neotectonics and Advances of exploration geophysics in North Africa The last two chapters 20 21 focus on meteoric impact craters geoheritage geoparks and geotourism in North Africa Glaciogenic Reservoirs and Hydrocarbon Systems Mads Huuse, J. Redfern, D. P. Le

Heron, R. J. Dixon (Geologist), A. Moscariello, Jonathan Craig, 2012 Glaciogenic reservoirs and hydrocarbon systems occur intermittently throughout the stratigraphic record with particular prominence in Neoproterozoic Late Ordovician Permian Carboniferous and Late Cenozoic strata Recent interest in glaciogenic successions has been fuelled by hydrocarbon discoveries in ancient glaciogenic reservoirs in North Africa the Middle East Australia and South America Glaciogenic deposits of Pleistocene age are noteworthy for their content of groundwater onshore and potentially prospective and or hazardous gas accumulations offshore The abundant imprints of Pleistocene glaciations in both hemispheres can be used to reconstruct complex histories of repeated ice cover and retreat and glacier bed interactions thus informing our view on the dynamics of older ice caps and predictions of future glaciations This volume aims to provide a better understanding of glaciogenic processes their stratigraphic record and reservoir characteristics of glaciogenic deposits The book comprises 3 overview papers and 16 original case studies of Neoproterozoic to Pleistocene successions on 6 continents and will be of interest to sedimentologists glaciologists geophysicists hydrologists and petroleum geologists alike P 4 of cover

African Basins R.C. Selley, 1997-11-20 Following on from the first 2 books in the series Sedimentary Basins of the World which covered Chinese Sedimentary Basins Volume 1 and South Pacific Sedimentary Basins Volume 2 comes Volume 3 on African Basins Africa covers a larger land area than the USA Europe India and the ASEAN nations put together It is rich in natural resources including oil gas coal and nearly every metalliferous mineral Yet Africa is still one of the least explored continents This book brings together in one volume concise reviews of basins previously documented in a vast array of diffuse literature It also contains some of the first detailed accounts of several basins which have never before been described in such depth These include the onshore Owambo Iullemmeden and Sudanese rift basins and the offshore basins of southern Africa The contributions are by authors and teams of authors with great knowledge and experience of the basins that they describe The thirteen chapters are arranged in 3 parts covering North Africa Central Africa and Southern Africa and the book is illustrated by maps cross sections stratigraphic sections and seismic lines Each chapter includes a comprehensive bibliography and the book concludes with a subject index For academic geologists researching the geology of Africa and for industrial geologists seeking natural resources within African sedimentary rocks this book is an invaluable source of information Late Paleozoic Glacial Events and Postglacial Transgressions in Gondwana Oscar R. López-Gamundí, Luis A. Buatois, 2010

Geology of Western Gondwana (2000 - 500 Ma) Roland Trompette, 2020-08-26 In considering the geology of Western Gondwana this text covers the Pan African Brasiliano cratons the Pan African Brasiliano fold belts and amosaic of Pan African Brasiliano mini cratons and minor fold belts Northeast Brazil and the Central Western portion of Africa **Palaeozoic Reefs and Bioaccumulations** J. Javier Álvaro, 2007 The geological record contains a fascinating diversity of reefs and shell accumulations As with many other biosedimentary structures their facies characterization requires careful observation at outcrop and sample scale and in thin section to provide information about the global geometries fabrics and textures

respectively This collection of papers encompasses the breadth of sedimentary geometries and facies displayed by Palaeozoic reefs shell accumulations and transitional composite deposits The definition of reefs and shell concentrations has given rise to variations in nomenclature The papers in this volume cover specific problems regarding the nomenclature and facies characterization of reefs shell accumulations and transitional composite deposits However rather than attempt a complete revision of terms the authors have touched on some of the important issues at this stage of development in the field the main climatic environmental and evolutionary factors that controlled the Palaeozoic development of shell accumulations and reefs

The Formation and Evolution of Africa Douwe J. J. van Hinsbergen, 2011 The African continent preserves a long geological record that covers almost 75% of Earth's history The Pan African orogeny c 600 500 Ma brought together old continental kernels West Africa Congo Kalahari and Tanzania to form Gondwana and subsequently the supercontinent Pangaea by the late Palaeozoic The break up of Pangaea since the Jurassic and Cretaceous primarily through opening of the Central Atlantic Indian and South Atlantic oceans in combination with the complicated subduction history to the north gradually shaped the African continent This volume contains 18 contributions that discuss the geology of Africa from the Archaean to the present day Geology of the Appalachian—Caledonian Orogen in Canada and Greenland Harold Williams, 1995 This volume focuses on the Canadian Appalachian region The chapter on the East Greenland Caledonides stands alone and there is no attempt to integrate the geological accounts of the two far removed regions Rocks of the Canadian Appalachian region are described under four broad temporal divisions lower Paleozoic and older middle Paleozoic upper Paleozoic and Mesozoic The rocks of these temporal divisions define geographic zones belts basins and graben respectively The area is of special interest because so many modern concepts of mountain building are based on Appalachian rocks structures *A Global Synthesis of the Ordovician System: Part 2* T. Servais, D.A.T. Harper, B. Lefebvre, I. G. Percival, 2023-06-08 The Ordovician was one of the longest of the geological periods characterized by major magmatic and tectonic activity an immense biodiversification swings in climate and sea levels and the first Phanerozoic mass extinction A Global Synthesis of the Ordovician System is presented in two volumes in The Geological Society Special Publications Whereas the first volume SP532 concentrates on general aspects and a synthesis of the Ordovician geology of Europe this volume SP533 includes reviews of Ordovician successions of most other parts of the world The classic successions of the Ordovician basins of North America are presented as well as those of China where several of the Ordovician Global Boundary Stratotype Sections and Points are defined The volume also includes syntheses of the Ordovician geology of Africa South America most regions of Asia from the Near to the Far East along with Central Asia as well as Australia New Zealand and Antarctica *The West African Orogens and Circum-Atlantic Correlatives* R.D. Dallmeyer, J.P. Lecorche, 2012-12-06 In December 1987 Project 233 of the International Geological Correlation Program hosted an international conference in Nouakchott Mauritania Discussions were focused on the Tectonothermal Evolution Of The West African Orogens And Circum

Atlantic Terrane Linkages A wealth of new information was presented during the conference and it was apparent that the time was appropriate to prepare a systematic volume dealing with the geology of northwest Africa The present volume is an outgrowth of this conference but is not merely a compilation of the papers presented in Nouakchott Instead it represents a coordinated volume designed to present a balanced comprehensive view of our present understanding of West African geology and potential correlations in other Circum Atlantic Paleozoic orogens We sincerely appreciate the efforts of all the reviewers whose comments have greatly helped to improve the quality of this volume We also thank the various contributors for their diligence and perseverance in manuscript preparation The calibre of the present volume is a reflection of their labor Athens Marseille Autumn 1990 R D DALLMEYER J P LECORCHE Contents Chapter 1 Introduction 3 R D DALLMEYER and J P LECORCHE Chapter 2 Geophysics and the Crustal structure of West Africa 9 J ROUSSEL and A LESQUER Chapter 3 Crystalline Basement of the West African Craton 31 Avalonian and Related Peri-Gondwanan Terranes of the Circum-North Atlantic Damian Nance, Margaret D. Thompson, 1996-01-01 *Geophysical Exploration for Hydrocarbon Reservoirs, Geothermal Energy, and Carbon Storage* Said Gaci, 2025-08-25 A practical guide to the latest technologies and techniques in subsurface energy exploration In *Geophysical Exploration for Hydrocarbon Reservoirs Geothermal Energy and Carbon Storage New Technologies and AI based Approaches* distinguished researcher Said Gaci delivers a practice oriented overview and comparison of the concepts methods and workflows for the geophysical characterization of hydrocarbon and geothermal reservoirs including those reservoirs suitable for large scale carbon sequestration Organized into four parts the book begins with a summary of novel petroleum exploration technologies and discussions of illustrative case studies from around the world It then explains how to integrate seismic and other non invasive surveying methods for a comprehensive multiscale reservoir characterization The third part explores the implementation of artificial intelligence tools in remote exploration rock typing and fluid prediction The final part demonstrates how to apply hydrocarbon exploration methods to the exploration and development of geothermal reservoirs and underground carbon dioxide storage sites Readers will find A multidisciplinary approach to combining conventional hydrocarbon exploration techniques with the power of artificial intelligence A thorough understanding of subsurface reservoir systems that links recent technical advances with new geological insights Practice oriented discussions of advanced technologies for non invasive reservoir characterization Selected case studies that illustrate the application of novel concepts in a real world setting Perfect for geologists geoengineers geophysicists and fossil fuel professionals *Geophysical Exploration for Hydrocarbon Reservoirs Geothermal Energy and Carbon Storage* will also benefit anyone aiming to remain at the forefront of subsurface energy exploration in the twenty first century **Papers from the 6th International Conference on Trilobites and their Relatives** Alan W. Owen, David L. Bruton, 2019-09-10 A volume from a monograph series featuring seven papers on trilobites with brief summaries This research volume is entitled *Papers from the 6th International Conference on Trilobites and their Relatives* It

s Volume 64 within the Fossils and Strata monograph series The research compilation originated from a 2017 conference in Estonia Seven papers on trilobites are included with summaries in the publication The papers topics cover trilobites from the Early Cambrian to the Late Devonian *Regional Geology and Tectonics* David G. Roberts,A.W. Bally,2012-12-31 Volume 1A Principles of Geologic AnalysisA how to primer describes the basic concepts petroleum geologists and students need to understand hydrocarbon exploration in a broad range of geological settings globally Volume 1B Phanerozoic Rift Systems and Sedimentary BasinsIncorporates industry data to present regional seismic lines and cross sections to accurately document and analyze proven hydrocarbon systems It also includes summaries of analogue and theoretical models as an essential backdrop to the structure and stratigraphy of a variety of geological settings Volume 1C Phanerozoic Passive Margins Cratonic Basins and Global Tectonic MapsFocuses on both volcanic and non volcanic passive margins as well as cratonic basins critical habitats for hydrocarbons It provides a unique basis for comparison of different passive margins and for an understanding of their structural and stratigraphic evolution as well as their petroleum systems especially useful to explorationists working in deep water basins and researchers examining the tectonic evolution of the continent ocean transition A vast amount of data to enable hydrocarbon play assessments and analysis on passive margins is also included in this thorough yet accessible reference Individual volumes can also be purchased

978044453042497804445635699780444563576 Volume 1A discusses in detail the principles of regional geological analysis and the main geological and geophysical tools used in basin analysis Volume 1B features simple documentation and analysis of major rift systems developed in contrasting geological settings as well as in depth analyses of active rifts in various regions all over the world for immediately implementable petroleum exploration applications Volume 1C features real world case studies and analyses useful summaries of analogue and theoretical models thorough documentation of numerous passive margins that are the focus of deep water oil exploration and unique tectonic maps facilitating access to exact basin locations and their tectonic settings A companion website offers select downloadable images from the books <http://booksite.elsevier.com/9780444530424/index.php> **Geology of Northwest Africa** Alain Piqu ,2001 Northwest Africa comprises a vast territory from Morocco Algeria Tunisia to Mauritania made up out of rocks which range in age from the Archaean Early Precambrian to the Quaternary The book is the result of the author s extensive field studies in many parts of the covered area and a comprehensive compilation of previously published data Alain Pique is professor of structural geology at the Universite de Bretagne occidentale Brest France

Regional Geology and Tectonics: Phanerozoic Passive Margins, Cratonic Basins and Global Tectonic Maps A.W. Bally,2012-05-31 Expert petroleum geologists David Roberts and Albert Bally bring you *Regional Geology and Tectonics* *Phanerozoic Passive Margins* *Cratonic Basins and Global Tectonic Maps* volume three in a three volume series covering Phanerozoic regional geology and tectonics Its key focus is on both volcanic and non volcanic passive margins and the importance of salt and shale driven by sedimentary tectonics to their evolution Recent innovative

research on such critical locations as Iberia Newfoundland China and the North Sea are incorporated to provide practical real world case studies in regional geology and tectonics The vast amount of volcanic data now available to form accurate hydrocarbon assessments and analysis at passive margin locations is also included into this thorough yet accessible reference Named a 2013 Outstanding Academic Title by the American Library Association s Choice publication A how to practical reference that discusses the impact of the development of passive margins and cratonic basins on the structural evolution of the Earth in regional geology and tectonic applications Incorporates the increased availability of industry data to present regional seismic lines and cross sections leading to more accurate analysis and assessment of targeted hydrocarbon systems Analyses of passive margins and cratonic basins in East Africa China Siberia the Gulf of Suez and the Laptev Sea in the Russian Arctic provide immediately implementable petroleum exploration applications Summaries of analogue and theoretical models are provided as an essential backdrop to the structure and stratigraphy of various geological settings

A Geologic Time Scale 1989 Walter Brian Harland, 1990-06-29 A concentrated review of the time scales used in geology in order to date stratigraphic sequences and to define geological epochs It is the planned successor to A Geologic Timescale and adopts the same style and employs similar methods

Embark on a transformative journey with is captivating work, **Lower Palaeozoic Of North Western And West Central Africa** . This enlightening ebook, available for download in a convenient PDF format , invites you to explore a world of boundless knowledge. Unleash your intellectual curiosity and discover the power of words as you dive into this riveting creation. Download now and elevate your reading experience to new heights .

Lower Palaeozoic Of North Western And West Central Africa Introduction

Lower Palaeozoic Of North Western And West Central Africa Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Lower Palaeozoic Of North Western And West Central Africa Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Lower Palaeozoic Of North Western And West Central Africa : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Lower Palaeozoic Of North Western And West Central Africa : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Lower Palaeozoic Of North Western And West Central Africa Offers a diverse range of free eBooks across various genres. Lower Palaeozoic Of North Western And West Central Africa Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Lower Palaeozoic Of North Western And West Central Africa Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Lower Palaeozoic Of North Western And West Central Africa, especially related to Lower Palaeozoic Of North Western And West Central Africa, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Lower Palaeozoic Of North Western And West Central Africa, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Lower Palaeozoic Of North Western And West Central Africa books or magazines might include. Look for these in online stores or libraries. Remember that while Lower Palaeozoic Of North Western And West Central Africa, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Lower Palaeozoic Of North Western And West Central Africa eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Lower Palaeozoic Of North Western And West Central Africa full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of

Lower Palaeozoic Of North Western And West Central Africa eBooks, including some popular titles.

FAQs About Lower Palaeozoic Of North Western And West Central Africa Books

What is a Lower Palaeozoic Of North Western And West Central Africa PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Lower Palaeozoic Of North Western And West Central Africa PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Lower Palaeozoic Of North Western And West Central Africa PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Lower Palaeozoic Of North Western And West Central Africa PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Lower Palaeozoic Of North Western And West Central Africa PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
