

A photograph of a cave entrance. The cave's interior is dark and rocky, framing a bright, scenic view of a mountain valley. The valley features green grassy slopes, a winding path, and distant, rugged mountain peaks under a clear sky. The text is overlaid on the bright area of the cave opening.

internationally acclaimed team of philosophers and psychologists for a readership of students and researchers Its coverage is divided into six sections I The History of Luck II The Nature of Luck III Moral Luck IV Epistemic Luck V The Psychology of Luck VI Future Research The chapters cover a wide range of topics from the problem of moral luck to anti luck epistemology to the relationship between luck attributions and cognitive biases to meta questions regarding the nature of luck itself to a range of other theoretical and empirical questions By bringing this research together the Handbook serves as both a touchstone for understanding the relevant issues and a first port of call for future research on luck **The Science of**
