

MAESTÀ DI ROMA

A classical painting of a woman in a white robe, seen from the side, looking out over a landscape. She is wearing a dark headscarf and a long, flowing white garment. The background shows a distant horizon with a body of water and a cloudy sky. The overall style is reminiscent of 19th-century academic painting.

Florence in the Forgotten Centuries, 1527-1800 Eric Cochrane, 2013-10-30 The city of Florence has long been admired as the home of the brilliant artistic and literary achievement of the early Renaissance But most histories of Florence go no further than the first decades of the sixteenth century They thus give the impression that Florentine culture suddenly died with the generation of Leonardo Machiavelli and Andrea del Sarto Eric Cochrane shows that the Florentines maintained their creativity long after they had lost their position as the cultural leaders of Europe When their political philosophy and historiography ran dry they turned to the practical problems of civil administration When their artists finally yielded to outside influence they turned to music and the natural sciences Even during the darkest days of the great economic depression of the late seventeenth and early eighteenth centuries they succeeded in preserving almost alone in Europe the blessings of external peace and domestic tranquility
