The New Frontier of Religion and Science J. Hick,2010-04-09 This is the first major response to the challenge of neuroscience to religion It considers eastern forms of religious experience as well as Christian viewpoints and challenges the idea of a mind identical to or a by product of brain activity It explores religion as inner experience of the Transcendent and suggests a modern spirituality

First Buddhist Women Susan Murcott,2002-02-09 First Buddhist Women is a readable contemporary translation of and commentary on the enlightenment verses of the first female disciples of the Buddha The book explores Buddhism s relatively liberal attitude towards women since its founding nearly 2 600 years ago through the study of the Therigatham the earliest know collection of women s religious poetry Through commentary and storytelling author Susan Murcott traces the journey of the wives mothers teachers courtesan prostitutes and wanderers who became leaders in the Buddhist community roles that even today are rarely filled by women in other patriarchal religions Their poetry beautifully expresses their search for spiritual attainment and their struggles in society

Wisdom Beyond Words Sangharakshita,2013-06-14 Ever since the Buddha s lifetime people have been trying to express the ultimate meaning of Buddhism in a form that makes complete rational sense The Prajnaparamita or Perfection of Wisdom teachings offer a giddy counterbalance to this exercise Emerging 2000 years ago as the core teachings of Mahayana Buddhism texts such as the Ratnaguna samcayagatha the Diamond Sutra and the Heart Sutra gave new impetus to the ideal of the Bodhisattva one whose energies are dedicated to the attainment of enlightenment for the sake of all beings

The Challenge of the Silver Screen Freek L. Bakker,2009 In 1897 only two years after the invention of film the first feature film about Jesus appeared This and other films about Jesus became examples for and an inspiration for films on other important religious figures like Rama Buddha and Muhammad Although religious leaders did not always approve of these films they did find a ready audience among believers This book explores these films and looks at

how these films dealt with the fundamental question of portraying an individual thought to have either divine status or a very special and unique status among human beings This book will thus benefit not only students of religious film but also those studying the portrayal of central religious figures in the contemporary world Religious Motivation and the Origins of Buddhism Torkel Brekke, 2005-08-10 A contribution to the RoutledgeCurzon Critical Studies in Buddhism series which offers a comprehensive study of the Buddhist tradition Buddhologists are often vague about the methodological foundation on which they base their theories about the origin and development of Buddhism This book seeks to address this issue by opening a discussion about how we seek to explain the origins of Buddhism This discussion is also of importance to the study of the history of religions in general where there is likely a similar lack of consciousness about the origins of Christianity Judaism and Islam Will be of interest to specialists in Buddhist studies and Indology in general It will also interest a wider readership in the academic study of religion due to the fundamental questions that it addresses May cause some controversy and debate owing to the fact that it applies social psychological theory to the study of classical texts Out of Sight, Into Mind Jed Forman, 2024-12-31 Most Indian and Tibetan religious traditions have some theory of yogic perception a profound type of sentience afforded by meditative practice And most consider it the bedrock of their religious authority the primary means by which one gains spiritual insight Disagreements about what yogis perceive abound however spanning many philosophical topics including epistemology ontology phenomenology and language Out of Sight Into Mind is a groundbreaking exploration of debates over yogic perception revealing their contemporary relevance as a catalyst for comparative philosophy Jed Forman examines intellectual and philosophical developments over a millennium in India and Tibet offering rich analyses of many previously untranslated texts He traces divergences and confluences between thinkers within and across traditions demonstrating that accounts of yogic perception shifted from theories based on vision to ones based on the mind Drawing on this investigation Forman calls for broadening philosophical discourse arguing that subjects like yogic perception have often been deemed religious and thus neglected He contends that these Indian and Tibetan debates hold important lessons for present day topics such as hermeneutics and exegesis the relationship between conception and perception representationalism versus phenomenalism and the limits of language Shedding new light on the intellectual history of yogic perception this book models how a comparative approach can yield novel philosophical insights
